PURPOSE OF THE HCBS WAIVER PROGRAM

The Medicaid Home and Community-Based Services (HCBS) waiver program is authorized in §1915(c) of the Social Security Act. The program permits a State to furnish an array of home and community-based services that assist Medicaid beneficiaries to live in the community and avoid institutionalization. The State has broad discretion to design its waiver program to address the needs of the waiver’s target population. Waiver services complement and/or supplement the services that are available to participants through the Medicaid State plan and other federal, state and local public programs as well as the supports that families and communities provide.

The Centers for Medicare & Medicaid Services (CMS) recognizes that the design and operational features of a waiver program will vary depending on the specific needs of the target population, the resources available to the State, service delivery system structure, State goals and objectives, and other factors. A State has the latitude to design a waiver program that is cost-effective and employs a variety of service delivery approaches, including participant direction of services.

Request for a Renewal to a §1915(c) Home and Community-Based Services Waiver

1. Major Changes

Describe any significant changes to the approved waiver that are being made in this renewal application:

1. Expanded capacity by 50 slots to provide intensive early intervention treatment for additional children diagnosed with Autism Spectrum Disorder (ASD).
2. Combined Plan Implementation and Monitoring in with Individual Assessment, Program Development/Training/Monitoring for a total of 90 hours/360 units/year.

Application for a §1915(c) Home and Community-Based Services Waiver

1. Request Information (1 of 3)

A. The State of Arkansas requests approval for a Medicaid home and community-based services (HCBS) waiver under the authority of §1915(c) of the Social Security Act (the Act).
B. Program Title (optional - this title will be used to locate this waiver in the finder):
   Autism Waiver
C. Type of Request: renewal
   requested approval period: (For new waivers requesting five year approval periods, the waiver must serve individuals who are dually eligible for Medicaid and Medicare.)
   ○ 3 years  ○ 5 years

Draft ID: AR.026.01.00
D. Type of Waiver (select only one):
   Regular Waiver

E. Proposed Effective Date:  (mm/dd/yy)
   10/01/15

1. Request Information (2 of 3)

F. Level(s) of Care. This waiver is requested in order to provide home and community-based waiver services to individuals who, but for the provision of such services, would require the following level(s) of care, the costs of which would be reimbursed under the approved Medicaid State plan (check each that applies):

   ○ Hospital
      Select applicable level of care
      ○ Hospital as defined in 42 CFR §440.10
      If applicable, specify whether the State additionally limits the waiver to subcategories of the hospital level of care:

   ○ Inpatient psychiatric facility for individuals age 21 and under as provided in 42 CFR §440.160

https://wms-nmddl.cdvsc.com/WMS/faces/protected/35/print/PrintSelector.jsp 04/30/2015
1. Request Information (3 of 3)

**G. Concurrent Operation with Other Programs.** This waiver operates concurrently with another program (or programs) approved under the following authorities

- Not applicable
- Applicable

Check the applicable authority or authorities:

- Services furnished under the provisions of §1915(a)(1)(a) of the Act and described in Appendix I
- Waiver(s) authorized under §1915(b) of the Act.

Specify the §1915(b) waiver program and indicate whether a §1915(b) waiver application has been submitted or previously approved:

Specify the §1915(b) authorities under which this program operates (check each that applies):

- §1915(b)(1) (mandated enrollment to managed care)
- §1915(b)(2) (central broker)
- §1915(b)(3) (employ cost savings to furnish additional services)
- §1915(b)(4) (selective contracting/limit number of providers)

A program operated under §1932(a) of the Act.

Specify the nature of the State Plan benefit and indicate whether the State Plan Amendment has been submitted or previously approved:

A program authorized under §1915(i) of the Act.

A program authorized under §1915(j) of the Act.

A program authorized under §1115 of the Act.

Specify the program:

**H. Dual Eligibility for Medicaid and Medicare.**

Check if applicable:

- This waiver provides services for individuals who are eligible for both Medicare and Medicaid.

2. Brief Waiver Description

**Brief Waiver Description.** *In one page or less*, briefly describe the purpose of the waiver, including its goals, objectives, organizational structure (e.g., the roles of state, local and other entities), and service delivery methods.

The Autism waiver will provide intensive one-on-one treatment for children ages 18 months through 6 years of age with a diagnosis of autism spectrum disorder (ASD). The therapy services are habilitative in nature and are not available to children through the AR Medicaid State Plan. These services are designed to maintain Medicaid eligible participants at home in order to preclude or postpone institutionalization.

The services offered through the Autism waiver program are 1) Individual Assessment/Plan Development/Team Training/Monitoring; 2) Therapeutic Aides and Behavioral Reinforcers; 3) Lead Therapy; 4) Line Therapy; and 5) Consultative Clinical and Therapeutic Services.

The first four services will be provided by the Intensive Intervention providers and the Consultative Clinical and Therapeutic Services will be provided by fee-for-services providers.
The goal is to design a system for delivery of intensive 1:1 intervention for young children that 1) utilizes proven strategies and interventions that are positive, respectful and safe; 2) includes and empowers parents to participate; 3) prepares children for functional skills in natural environments; 4) includes independent assessments and balances; and 5) maximizes state funding via Medicaid matching.

The waiver program is operated by the University of Arkansas at Fayetteville (UAF) Partners for Inclusive Communities under the administrative authority of the Division of Medical Services (Medicaid Agency).

The applicant intake and assessment process includes a determination of categorical eligibility, an ICF/MR level of care determination, the development of an individualized service plan, documentation of choice between HCBS and institutional services, and a determination of financial eligibility. Reassessments will be performed annually and mirror the initial assessment and level of care process. Based on an assessment performed by the Operating Agency (Partners) during a face-to-face, in-home medical assessment process, the ICF/MR level of care determination is performed by medical staff assigned to the DMS, Office of Long Term Care. The level of care determination, in accordance with ICF/MR admission criteria, must be completed, and the person deemed eligible for an ICF/MR level of care by a licensed medical professional prior to receiving Autism waiver services.

The plan of care will be developed by the Operating Agency (Partners) and a copy of the plan of care and the waiver participant’s parent/guardian agreement is forwarded to the providers. The Intensive Intervention provider is responsible for developing an Individual Treatment Plan in accordance with the participant's service plan.

The consultative clinical and therapeutic services will be associated with implementation of the evidence-based intervention with each child. The service entails a highly qualified professional (a minimum of a master’s degree credential) to determine the effectiveness of the intervention strategies selected by the Intensive Intervention provider and being used with the child. This service will provide a level of technical assistance not available elsewhere in the program to ensure that the child is progressing as expected toward the individualized goals and objectives, that the treatment protocol is integrated into natural settings and functional routines, and that generalization of skill development is being proactively addressed. They will also ensure that the integration of the parent(s)/guardian(s) into the treatment is working effectively and provide technical assistance to parents/guardians as needed. The benefits to children with ASD include ensuring that the treatment is occurring in such a way that they can obtain maximum benefit.

The Consultative Clinical and Therapeutic Services provider has a broad understanding of autism spectrum disorders and operates from an interdisciplinary treatment model, an approach critical to the success of this service. These professionals will be able to provide technical assistance that integrates the intervention across multiple life domains for the child.

Participants may be involuntarily disenrolled in cases where failure to participate in the program occurs without parental participation there is a risk of ineffective treatment and potential jeopardy for health and welfare of the waiver participant. Each case will be evaluated on a case-by-case basis. This decision will be made as a joint decision by the Autism Waiver Coordinator and the Clinical Services Specialist only after the parent/guardian has been counseled and offered an opportunity for corrective action. This counseling will occur during an on-site visit with the parent/guardian and will be documented on the Parental Participation Agreement Form. If the treatment plan or schedule for delivery of services can be modified to better facilitate program participation, the Autism Waiver Coordinator and parent/guardian will make such adjustments. The Autism Waiver Coordinator will then forward the modifications to the agency providing the child’s services.

The following circumstances may result in involuntary disenrollment:
- Failure to provide information on the child that is needed for development of the treatment plan (strengths, weaknesses, behaviors, etc.)
- Failure to attend training on the child’s treatment plan provided by the Consultant
- Failure to meet scheduled appointments for delivery of therapy
- Failure to implement treatment strategies in accordance with the treatment plan

3. Components of the Waiver Request

The waiver application consists of the following components. Note: Item 3-E must be completed.

A. Waiver Administration and Operation. Appendix A specifies the administrative and operational structure of this waiver.

B. Participant Access and Eligibility. Appendix B specifies the target group(s) of individuals who are served in this waiver, the number of participants that the State expects to serve during each year that the waiver is in effect, applicable Medicaid eligibility and post-eligibility (if applicable) requirements, and procedures for the evaluation and reevaluation of level of care.

C. Participant Services. Appendix C specifies the home and community-based waiver services that are furnished through the waiver, including applicable limitations on such services.

D. Participant-Centered Service Planning and Delivery. Appendix D specifies the procedures and methods that the State uses to develop, implement and monitor the participant-centered service plan (of care).

E. Participant-Directed Services. When the State provides for participant direction of services, Appendix E specifies the participant direction opportunities that are offered in the waiver and the supports that are available to participants who direct their services. (Select one):

☐ Yes. This waiver provides participant direction opportunities. Appendix E is required.
☐ No. This waiver does not provide participant direction opportunities. Appendix E is not required.

F. Participant Rights. Appendix F specifies how the State informs participants of their Medicaid Fair Hearing rights and other procedures to address participant grievances and complaints.
G. **Participant Safeguards.** Appendix G describes the safeguards that the State has established to assure the health and welfare of waiver participants in specified areas.

H. **Quality Improvement Strategy.** Appendix H contains the Quality Improvement Strategy for this waiver.

I. **Financial Accountability.** Appendix I describes the methods by which the State makes payments for waiver services, ensures the integrity of these payments, and complies with applicable federal requirements concerning payments and federal financial participation.

J. **Cost-Neutrality Demonstration.** Appendix J contains the State's demonstration that the waiver is cost-neutral.

### 4. Waiver(s) Requested

A. **Comparability.** The State requests a waiver of the requirements contained in §1902(a)(10)(B) of the Act in order to provide the services specified in Appendix C that are not otherwise available under the approved Medicaid State plan to individuals who: (a) require the level(s) of care specified in Item 1.F and (b) meet the target group criteria specified in Appendix B.

B. **Income and Resources for the Medically Needy.** Indicate whether the State requests a waiver of §1902(a)(10)(C)(i)(III) of the Act in order to use institutional income and resource rules for the medically needy (select one):

   - Not Applicable
   - No
   - Yes

C. **Statewideness.** Indicate whether the State requests a waiver of the statewideness requirements in §1902(a)(1) of the Act (select one):

   - No
   - Yes

   If yes, specify the waiver of statewideness that is requested (check each that applies):

   - **Geographic Limitation.** A waiver of statewideness is requested in order to furnish services under this waiver only to individuals who reside in the following geographic areas or political subdivisions of the State. Specify the areas to which this waiver applies and, as applicable, the phase-in schedule of the waiver by geographic area:

   - **Limited Implementation of Participant-Direction.** A waiver of statewideness is requested in order to make participant-direction of services as specified in Appendix E available only to individuals who reside in the following geographic areas or political subdivisions of the State. Participants who reside in these areas may elect to direct their services as provided by the State or receive comparable services through the service delivery methods that are in effect elsewhere in the State. Specify the areas of the State affected by this waiver and, as applicable, the phase-in schedule of the waiver by geographic area:

### 5. Assurances

In accordance with 42 CFR §441.302, the State provides the following assurances to CMS:

A. **Health & Welfare:** The State assures that necessary safeguards have been taken to protect the health and welfare of persons receiving services under this waiver. These safeguards include:

   1. As specified in Appendix C, adequate standards for all types of providers that provide services under this waiver;

   2. Assurance that the standards of any State licensure or certification requirements specified in Appendix C are met for services or for individuals furnishing services that are provided under the waiver. The State assures that these requirements are met on the date that the services are furnished; and,

   3. Assurance that all facilities subject to §1616(e) of the Act where home and community-based waiver services are provided comply with the applicable State standards for board and care facilities as specified in Appendix C.

B. **Financial Accountability.** The State assures financial accountability for funds expended for home and community-based services and maintains and makes available to the Department of Health and Human Services (including the Office of the Inspector General), the Comptroller General, or other designees, appropriate financial records documenting the cost of services provided under the waiver. Methods of financial accountability are specified in Appendix I.

C. **Evaluation of Need:** The State assures that it provides for an initial evaluation (and periodic reevaluations, at least annually) of the need...
for a level of care specified for this waiver, when there is a reasonable indication that an individual might need such services in the near future (one month or less) but for the receipt of home and community-based services under this waiver. The procedures for evaluation and reevaluation of level of care are specified in Appendix B.

D. Choice of Alternatives: The State assures that when an individual is determined to be likely to require the level of care specified for this waiver and is in a target group specified in Appendix B, the individual (or, legal representative, if applicable) is:

1. Informed of any feasible alternatives under the waiver; and,

2. Given the choice of either institutional or home and community-based waiver services. Appendix B specifies the procedures that the State employs to ensure that individuals are informed of feasible alternatives under the waiver and given the choice of institutional or home and community-based waiver services.

E. Average Per Capita Expenditures: The State assures that, for any year that the waiver is in effect, the average per capita expenditures under the waiver will not exceed 100 percent of the average per capita expenditures that would have been made under the Medicaid State plan for the level(s) of care specified for this waiver had the waiver not been granted. Cost-neutrality is demonstrated in Appendix J.

F. Actual Total Expenditures: The State assures that the actual total expenditures for home and community-based waiver and other Medicaid services and its claim for FFP in expenditures for the services provided to individuals under the waiver will not, in any year of the waiver period, exceed 100 percent of the amount that would be incurred in the absence of the waiver by the State's Medicaid program for these individuals in the institutional setting(s) specified for this waiver.

G. Institutionalization Absent Waiver: The State assures that, absent the waiver, individuals served in the waiver would receive the appropriate type of Medicaid-funded institutional care for the level of care specified for this waiver.

H. Reporting: The State assures that annually it will provide CMS with information concerning the impact of the waiver on the type, amount and cost of services provided under the Medicaid State plan and on the health and welfare of waiver participants. This information will be consistent with a data collection plan designed by CMS.

I. Habilitation Services. The State assures that prevocational, educational, or supported employment services, or a combination of these services, if provided as habilitation services under the waiver are: (1) not otherwise available to the individual through a local educational agency under the Individuals with Disabilities Education Act (IDEA) or the Rehabilitation Act of 1973; and, (2) furnished as part of expanded habilitation services.

J. Services for Individuals with Chronic Mental Illness. The State assures that federal financial participation (FFP) will not be claimed in expenditures for waiver services including, but not limited to, day treatment or partial hospitalization, psychosocial rehabilitation services, and clinic services provided as home and community-based services to individuals with chronic mental illnesses if these individuals, in the absence of a waiver, would be placed in an IMD and are: (1) age 22 to 64; (2) age 65 and older and the State has not included the optional Medicaid benefit cited in 42 CFR §440.140; or (3) age 21 and under and the State has not included the optional Medicaid benefit cited in 42 CFR § 440.160.

6. Additional Requirements

Note: Item 6-1 must be completed.

A. Service Plan. In accordance with 42 CFR §441.301(b)(1)(i), a participant-centered service plan (of care) is developed for each participant employing the procedures specified in Appendix D. All waiver services are furnished pursuant to the service plan. The service plan describes: (a) the waiver services that are furnished to the participant, their projected frequency and the type of provider that furnishes each service and (b) the other services (regardless of funding source, including State plan services) and informal supports that complement waiver services in meeting the needs of the participant. The service plan is subject to the approval of the Medicaid agency. Federal financial participation (FFP) is not claimed for waiver services furnished prior to the development of the service plan or for services that are not included in the service plan.

B. Inpatients. In accordance with 42 CFR §441.301(b)(1)(ii), waiver services are not furnished to individuals who are in-patients of a hospital, nursing facility or ICF/IID.

C. Room and Board. In accordance with 42 CFR §441.310(a)(2), FFP is not claimed for the cost of room and board except when: (a) provided as part of respite services in a facility approved by the State that is not a private residence or (b) claimed as a portion of the rent and food that may be reasonably attributed to an unrelated caregiver who resides in the same household as the participant, as provided in Appendix I.

D. Access to Services. The State does not limit or restrict participant access to waiver services except as provided in Appendix C.

E. Free Choice of Provider. In accordance with 42 CFR §431.151, a participant may select any willing and qualified provider to furnish https://wms-mmdl.cdservc.com/WMS/faces/protected/35/print/PrintSelector.jsp
F. **FFP Limitation.** In accordance with 42 CFR §433 Subpart D, FFP is not claimed for services when another third-party (e.g., another third party health insurer or other federal or state program) is legally liable and responsible for the provision and payment of the service. FFP also may not be claimed for services that are available without charge, or as free care to the community. Services will not be considered to be without charge, or free care, when (1) the provider establishes a fee schedule for each service available and (2) collects insurance information from all those served (Medicaid, and non-Medicaid), and bills other legally liable third party insurers. Alternatively, if a provider certifies that a particular legally liable third party insurer does not pay for the service(s), the provider may not generate further bills for that insurer for that annual period.

G. **Fair Hearing:** The State provides the opportunity to request a Fair Hearing under 42 CFR §431 Subpart E, to individuals: (a) who are not given the choice of home and community-based waiver services as an alternative to institutional level of care specified for this waiver; (b) who are denied the service(s) of their choice or the provider(s) of their choice; or (c) whose services are denied, suspended, reduced or terminated. Appendix F specifies the State's procedures to provide individuals the opportunity to request a Fair Hearing, including providing notice of action as required in 42 CFR §431.210.

H. **Quality Improvement.** The State operates a formal, comprehensive system to ensure that the waiver meets the assurances and other requirements contained in this application. Through an ongoing process of discovery, remediation and improvement, the State assures the health and welfare of participants by monitoring: (a) level of care determinations; (b) individual plans and services delivery; (c) provider qualifications; (d) participant health and welfare; (e) financial oversight and (f) administrative oversight of the waiver. The State further assures that all problems identified through its discovery processes are addressed in an appropriate and timely manner, consistent with the severity and nature of the problem. During the period that the waiver is in effect, the State will implement the Quality Improvement Strategy specified in Appendix H.

I. **Public Input.** Describe how the State secures public input into the development of the waiver: The Arkansas General Assembly convened a legislative task force on autism in 2008 as a result of Act 1198 of the 2007 Legislative Session. The purpose of this task force was to review the services available in the state for children with autism and determine needed steps for remediation of any identified gaps. All Task Force meetings were open to the public and public comment was always solicited from attendees. The development of this Autism Waiver was the #1 priority from this group and was submitted in its official report to the General Assembly in August of 2009. Subsequently, as part of the development of this waiver community meetings were held with parents, professionals and service providers in fourteen sites across the state between January and April of 2010. Two meetings were held in each site, one during business hours and one in the evening, to maximize participation from parents and community members. Additionally, there were input sessions held with experts and an electronic survey was disseminated to those currently providing this service in Arkansas and bordering states. Status reports on the ongoing development of this waiver have been provided to the current Legislative Task Force on Autism at its meetings upon request. The minutes of the presentations and subsequent discussion has been made available to the public via the Task Force section of the website for the Arkansas General Assembly. The Legislative Task Force on Autism continues to monitor implementation of the waiver and its outcomes.

- Regulations, policies, rules and procedures are promulgated in accordance with the Arkansas Administrative Procedures Act. This act allows for another opportunity for public comment. Promulgation includes review and advice from the Arkansas Legislative Subcommittee, which is open to the public, and the opportunity is given to those wanting to speak in support of or in opposition to the rule. After review and advice from the subcommittee, the regulations, policies, rules and procedures are adopted and incorporated into the appropriate policy manuals. All provider manuals containing program rules are available to all providers and the general public via the Division of Medical Services (DMS) website. Toll-free numbers are also available for the public to call with input regarding the waiver.

- Updates and revisions to the waiver are posted on the DMS website to allow general public comment. Notices of updates and revisions are also published in a statewide newspaper for 30 days to allow for public review and comment.

Federally-recognized Tribal Governments do not exist in Arkansas.

J. **Notice to Tribal Governments.** The State assures that it has notified in writing all federally-recognized Tribal Governments that maintain a primary office and/or majority population within the State of the State's intent to submit a Medicaid waiver request or renewal request to CMS at least 60 days before the anticipated submission date is provided by Presidential Executive Order 13175 of November 6, 2000. Evidence of the applicable notice is available through the Medicaid Agency.

K. **Limited English Proficient Persons.** The State assures that it provides meaningful access to waiver services by Limited English Proficient persons in accordance with: (a) Presidential Executive Order 13166 of August 11, 2000 (65 FR 50121) and (b) Department of Health and Human Services "Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons" (68 FR 47311 - August 8, 2003). Appendix B describes how the State assures meaningful access to waiver services by Limited English Proficient persons.

7. Contact Person(s)

A. The Medicaid agency representative with whom CMS should communicate regarding the waiver is:
B. If applicable, the State operating agency representative with whom CMS should communicate regarding the waiver is:

Last Name: Burnette
First Name: Karan
Title: Associate Director
Agency: UAF, Partners for Inclusive Communities (Partners)
Address: 322 Main Street, Suite 501
City: Little Rock
State: Arkansas
Zip: 72201
Phone: (501) 301-1100
Fax: (501) 374-2640
E-mail: kbburnet@uark.edu

8. Authorizing Signature

This document, together with Appendices A through J, constitutes the State's request for a waiver under §1915(c) of the Social Security Act. The State assures that all materials referenced in this waiver application (including standards, licensure and certification requirements) are readily available in print or electronic form upon request to CMS through the Medicaid agency or, if applicable, from the operating agency specified in Appendix A. Any proposed changes to the waiver will be submitted by the Medicaid agency to CMS in the form of waiver amendments. Upon approval by CMS, the waiver application serves as the State's authority to provide home and community-based waiver services to the specified target groups. The State attests that it will abide by all provisions of the approved waiver and will continuously operate the waiver in accordance with the assurances specified in Section 5 and the additional requirements specified in Section 6 of the request.

Attachments

Attachment #1: Transition Plan
Check the box next to any of the following changes from the current approved waiver. Check all boxes that apply.

- Replacing an approved waiver with this waiver.
- Combining waivers.
- Splitting one waiver into two waivers.
- Eliminating a service.
- Adding or decreasing an individual cost limit pertaining to eligibility.
- Adding or decreasing limits to a service or a set of services, as specified in Appendix C.
- Reducing the unduplicated count of participants (Factor C).
- Adding new, or decreasing, a limitation on the number of participants served at any point in time.
- Making any changes that could result in some participants losing eligibility or being transferred to another waiver under 1915(c) or another Medicaid authority.
- Making any changes that could result in reduced services to participants.

Specify the transition plan for the waiver:

N/A

Attachment #2: Home and Community-Based Settings Waiver Transition Plan
Specify the state's process to bring this waiver into compliance with federal home and community-based (HCB) settings requirements at 42 CFR 441.301(c)(4)-(5), and associated CMS guidance.

Consult with CMS for instructions before completing this item. This field describes the status of a transition process at the point in time of submission. Relevant information in the planning phase will differ from information required to describe attainment of milestones.

To the extent that the state has submitted a statewide HCB settings transition plan to CMS, the description in this field may reference that statewide plan. The narrative in this field must include enough information to demonstrate that this waiver complies with federal HCB settings requirements, including the compliance and transition requirements at 42 CFR 441.301(c)(6), and that this submission is consistent with the portions of the statewide HCB settings transition plan that are germane to this waiver. Quote or summarize germane portions of the statewide HCB settings transition plan that are germane to this waiver.

https://wms-nmddl.cds.vdc.com/WMS/faces/protected/35/print/PrintSelector.jsp

04/30/2015
HCB settings transition plan as required.
Note that Appendix C-5 HCB Settings describes settings that do not require transition: the settings listed there meet federal HCB setting requirements as of the date of submission. Do not duplicate that information here.
Update this field and Appendix C-5 when submitting a renewal or amendment to this waiver for other purposes. It is not necessary for the state to amend the waiver solely for the purpose of updating this field and Appendix C-5. At the end of the state's HCB settings transition process for this waiver, when all waiver settings meet federal HCB setting requirements, enter "Completed" in this field, and include in Section C-5 the information on all HCB settings in the waiver.

Additional Needed Information (Optional)
Provide additional needed information for the waiver (optional):

Appendix A: Waiver Administration and Operation

1. State Line of Authority for Waiver Operation. Specify the state line of authority for the operation of the waiver (select one):

○ The waiver is operated by the State Medicaid agency.

Specify the Medicaid agency division/unit that has line authority for the operation of the waiver program (select one):

○ The Medical Assistance Unit.

Specify the unit name:

(Do not complete item A-2)

○ Another division/unit within the State Medicaid agency that is separate from the Medical Assistance Unit.

Specify the division/unit name. This includes administrations/divisions under the umbrella agency that has been identified as the Single State Medicaid Agency.

(Complete item A-2-a).

○ The waiver is operated by a separate agency of the State that is not a division/unit of the Medicaid agency.

Specify the division/unit name:

University of Arkansas at Fayetteville (UAF) - Partners for Inclusive Communities (Partners)

In accordance with 42 CFR §431.10, the Medicaid agency exercises administrative discretion in the administration and supervision of the waiver and issues policies, rules and regulations related to the waiver. The interagency agreement or memorandum of understanding that sets forth the authority and arrangements for this policy is available through the Medicaid agency to CMS upon request. (Complete item A-2-b).

Appendix A: Waiver Administration and Operation

2. Oversight of Performance.

a. Medicaid Director Oversight of Performance When the Waiver is Operated by another Division/Unit within the State Medicaid Agency. When the waiver is operated by another division/administration within the umbrella agency designated as the Single State Medicaid Agency. Specify (a) the functions performed by that division/administration (i.e., the Developmental Disabilities Administration within the Single State Medicaid Agency), (b) the document utilized to outline the roles and responsibilities related to waiver operation, and (c) the methods that are employed by the designated State Medicaid Director (in some instances, the head of umbrella agency) in the oversight of these activities.
As indicated in section 1 of this appendix, the waiver is not operated by another division/unit within the State Medicaid agency. Thus this section does not need to be completed.

b. **Medicaid Agency Oversight of Operating Agency Performance.** When the waiver is not operated by the Medicaid agency, specify the functions that are expressly delegated through a memorandum of understanding (MOU) or other written document, and indicate the frequency of review and update for that document. Specify the methods that the Medicaid agency uses to ensure that the operating agency performs its assigned waiver operational and administrative functions in accordance with waiver requirements. Also specify the frequency of Medicaid agency assessment of operating agency performance.

The Medicaid Agency, Division of Medical Services (DMS) and the Operating Agency, University of Arkansas at Fayetteville (UAF) Partners for Inclusive Communities (Partners) have a Memorandum of Understanding (MOU) to ensure an collaborative partnership between agencies regarding the operation and administration of the Autism Waiver. The MOU delineates the waiver will be operated by Partners under the authority of DMS, who will exercise administrative authority, as well as, approve waiver policies, rules and regulations. DMS has the final authority regarding administrative matters.

DMS and PARTNERS have a common and concurrent interest in providing eligible Medicaid recipients with access to waiver services through qualified providers, while ensuring that the integrity of the Medicaid Program is maintained. The agencies will administer the waiver so as to meet the following assurances:

- For the health and welfare of waiver participants;
- For plans of care responsive to waiver participant needs;
- That only qualified providers serve waiver participants;
- That the State conducts level of care need determinations consistent with the need for institutionalization;
- That the State Medicaid Agency retains administrative authority over the waiver program; and
- That the State provides financial accountability for the waiver.

DMS monitors this agreement to assure that the provisions specified are executed. Both DMS and PARTNERS will provide information and data needed to carry out the interagency agreement. DMS and PARTNERS will conduct routine, ongoing oversight of the Waiver Programs.

Provisions of the MOU are as follows:

**DMS Responsibilities**

A. DMS is responsible for all policy decisions regarding the waiver, as well as monitoring their implementation by PARTNERS. DMS will review and approve all policies and procedures prior to implementation.

B. DMS will reimburse for authorized waiver services provided to eligible Medicaid recipients by certified providers who are enrolled in the Arkansas Medicaid Program:

1. DMS will promulgate the following documents to provide the rules and regulations for participation in the Arkansas Medicaid Program. DMS will update these documents as necessary: Autism Intervention Waiver Provider Manual;

2. DMS has final authority with regard to all functions related to the waiver providers’ participation in the Arkansas Medicaid Program.

3. DMS or its agent will train providers in the proper procedures to follow in submitting claims to the Medicaid Program. As participative changes occur in the Arkansas Medicaid Program, notices of these changes will be disseminated to PARTNERS and to the providers for incorporation into their provider manual. DMS or its fiscal agent will handle all questions concerning the submission of claims for Title XIX funding.

4. DMS is responsible for ensuring that waiver providers remain in compliance with all rules and regulations required for participation in the Medicaid Program. The following procedures will govern the approval of providers requesting to participate in the program.

- PARTNERS has authority for certification of any provider requesting to render waiver services. This information will be provided to DMS, as needed. All certification requirements will be reviewed and approved by DMS prior to implementation.

- Each provider applicant must complete an application and sign a contract for participation in the Arkansas Medicaid Program.

- DMS, after reviewing all information, will make the determination whether to enroll the provider into the Arkansas Medicaid Program.

- DMS through its fiscal agent will assign each new enrolled provider a unique Medicaid provider number.

- PARTNERS will complete at least annual recertification of all waiver providers to verify continued compliance with certification requirements.

- DMS will conduct at least annual reviews of waiver providers to verify the certification of the providers and will notify

https://wms-nmddl.cdsvdc.com/WMS/faces/protected/35/print/PrintSelector.jsp
PARTNERS in writing of the findings.

• DMS will notify PARTNERS in the event any waiver provider is removed from the active Medicaid provider files. This notification will include the effective date of the closure and the reason.

C. DMS is responsible for providing PARTNERS relevant information pertaining to the Medicaid Program and any federal requirement governing applicable waiver programs.
D. DMS will conduct quarterly team meetings with PARTNERS staff to discuss compliance with the performance measures in the waiver applications, results of chart reviews performed by both DMS and PARTNERS, corrective action plans, remediation and systems improvements so as to maintain an efficient administration of the waiver.
E. DMS will monitor compliance with this interagency agreement.

PARTNERS Responsibilities

A. PARTNERS will develop and implement policies and procedures to operate the waiver in compliance with Attachments A and B of this agreement. PARTNERS will submit policies and procedures to DMS for review and approval prior to implementation.
B. PARTNERS will provide training to waiver providers regarding the certification procedures/requirements set forth by that division and provide DMS with documentation indicating the date(s) of the training and a list of attendees within 5 working days from the date of the training.
C. PARTNERS will conduct at least annual recertification of waiver providers to verify the certification of the providers and will notify DMS in writing in the event any provider is decertified. This notification will occur within one week after the effective date of the decertification.
D. PARTNERS is responsible for establishing and/or monitoring the individual service plan requirements governing the provision of all waiver services. PARTNERS is responsible to staff and monitor qualified professionals to conduct the service plan development, implementation, and monitoring process. As required by federal regulation, all plans of care are subject to approval by DMS and must be submitted for periodic re-approval annually. PARTNERS is responsible for establishing a mechanism to ensure a specified number of service plans are reviewed by DMS or their designated representatives and are re-approved annually. PARTNERS is responsible for ensuring at least annual updating of individual service plans.
E. PARTNERS is responsible for ensuring that waiver providers remain in compliance with all rules and regulations required for participation in the Home and Community-Based waiver programs operated by PARTNERS. The following procedures will govern the approval of providers requesting to participate in the program.

• PARTNERS has authority for certification of any provider requesting to render waiver services. This information will be provided to DMS, as needed.
• Each provider applicant must complete an application and sign a contract for participation in the waiver programs. Participation is program and waiver service specific.
• PARTNERS, after reviewing all information, will make the determination whether to certify the provider as a waiver provider.
• PARTNERS will conduct at least annual reviews of waiver providers to verify the certification of the providers and will notify DMS in writing in the event any provider is decertified. This notification will occur within one week after the effective date of the decertification and will include the effective date of the decertification and the reason.

Reporting:

A. CMS requires annual reports for 1915(c) home and community-based services waivers (HCBS) providing information on the waiver’s impact on the type, amount, and cost of services provided under the State Plan as well as the health and welfare of waiver participants. DMS is responsible for the completion of the CMS-372 Annual Report. PARTNERS will coordinate with DMS on the collection of data and issuances of reports through the MMIS and ACES as needed to complete the report, and review each report prior to submission.
B. PARTNERS will provide to DMS quarterly reports of the results of its monitoring activities.
C. PARTNERS will produce reports to document quality assurance reviews and to comply with the performance measures in the waiver application.
D. PARTNERS will provide DMS access to any data necessary for DMS to perform quality assurance reviews and to comply with the performance measures in the waiver application.

Effective Date, Changes, and Duration of Agreement:

A. This agreement becomes effective October 1, 2015 after designated parties sign the agreement.
B. Changes made during its effective life will be added as formal amendments which all parties must acknowledge by signature.

C. DMS and PARTNERS will review the MOU annually and to determine if revisions are required.

D. This agreement continues in effect until terminated by DMS or PARTNERS. No renewal action is necessary unless either party requests revisions.

Attachments A and B:

By signing this MOU, PARTNERS commits to meeting all requirements contained in Attachments A, Quality Assurance Protocol, and Attachment B, Financial Accountability.

Non-compliance with Interagency Agreement:

If DMS discovers that PARTNERS is not complying with the terms of the interagency agreement, including attachments, DMS will require corrective action within timeframes designated by DMS and suited to the area of non-compliance. DMS reserves the right to terminate the Interagency Agreement and the Medicaid waiver at any time depending on the severity and nature of non-compliance.

DMS quality assurance staff continuously evaluates the operating agency’s quality management processes to ensure compliance. The following describes the roles of each entity:

DMS quality assurance staff conducts 100% review of initial level of care determinations performed by Partners. Monthly reports are produced and shared with Partners, who is responsible to remedial actions as necessary in a timely manner. Quarterly summary reports are also created with trending and analysis of data, and recommendations for improvement.

DMS and Partners quality assurance staff conducts 100% review of participant case records and provider certification files. These reviews focus on the CMS quality assurance framework and performance measures. After each review, a report of findings is transmitted to Partners, who is required to develop and implement a remediation plan, if applicable within a designated timeframe.

DMS quality assurance staff utilized other systems such as Medicaid Management Information Systems (MMIS) and the Division of County Operations eligibility system ANSWER to monitor quality and compliance with waiver standards.

Other DMS staff such as Program Integrity conducts utilization reviews, investigates potential fraud, and other requested focused reviews of the operating agency as warranted. A report of findings is produced and transmitted to Partners for remedial action as necessary.

Appendix A: Waiver Administration and Operation

3. Use of Contracted Entities. Specify whether contracted entities perform waiver operational and administrative functions on behalf of the Medicaid agency and/or the operating agency (if applicable) (select one):

☐ Yes. Contracted entities perform waiver operational and administrative functions on behalf of the Medicaid agency and/or operating agency (if applicable).

Specify the types of contracted entities and briefly describe the functions that they perform. Complete Items A-5 and A-6.:

☐ No. Contracted entities do not perform waiver operational and administrative functions on behalf of the Medicaid agency and/or the operating agency (if applicable).

Appendix A: Waiver Administration and Operation

4. Role of Local/Regional Non-State Entities. Indicate whether local or regional non-state entities perform waiver operational and administrative functions and, if so, specify the type of entity (Select One):

☐ Not applicable

☐ Applicable - Local/regional non-state agencies perform waiver operational and administrative functions.

Check each that applies:

☐ Local/Regional non-state public agencies perform waiver operational and administrative functions at the local or regional level. There is an interagency agreement or memorandum of understanding between the State and these agencies that sets forth responsibilities and performance requirements for these agencies that is available through the Medicaid agency.

https://wms-mmdl.cdsvdc.com/WMS/faces/protected/35/print/PrintSelector.jsp
Specify the nature of these agencies and complete items A-5 and A-6:

Local/Regional non-governmental non-state entities conduct waiver operational and administrative functions at the local or regional level. There is a contract between the Medicaid agency and/or the operating agency (when authorized by the Medicaid agency) and each local/regional non-state entity that sets forth the responsibilities and performance requirements of the local/regional entity. The contract(s) under which private entities conduct waiver operational functions are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Specify the nature of these entities and complete items A-5 and A-6:

Appendix A: Waiver Administration and Operation

5. Responsibility for Assessment of Performance of Contracted and/or Local/Regional Non-State Entities. Specify the state agency or agencies responsible for assessing the performance of contracted and/or local/regional non-state entities in conducting waiver operational and administrative functions:

Appendix A: Waiver Administration and Operation

6. Assessment Methods and Frequency. Describe the methods that are used to assess the performance of contracted and/or local/regional non-state entities to ensure that they perform assigned waiver operational and administrative functions in accordance with waiver requirements. Also specify how frequently the performance of contracted and/or local/regional non-state entities is assessed:

Appendix A: Waiver Administration and Operation

7. Distribution of Waiver Operational and Administrative Functions. In the following table, specify the entity or entities that have responsibility for conducting each of the waiver operational and administrative functions listed (check each that applies):

# Quality Improvement: Administrative Authority of the Single State Medicaid Agency

As a distinct component of the State’s quality improvement strategy, provide information in the following fields to detail the State’s methods for discovery and remediation.

### a. Methods for Discovery: Administrative Authority

The Medicaid Agency retains ultimate administrative authority and responsibility for the operation of the waiver program by exercising oversight of the performance of waiver functions by other state and local/regional non-state agencies (if appropriate) and contracted entities.

#### i. Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance, complete the following. Performance measures for administrative authority should not duplicate measures found in other appendices of the waiver application. As necessary and applicable, performance measures should focus on:

- Uniformity of development/execution of provider agreements throughout all geographic areas covered by the waiver
- Equitable distribution of waiver openings in all geographic areas covered by the waiver
- Compliance with HCB settings requirements and other new regulatory components (for waiver actions submitted on or after March 17, 2014)

*Where possible, include numerator/denominator.*

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

**Performance Measure:**

Number and percent of participant service plans completed by PARTNERS in the time frame specified in the agreement with the Medicaid Agency. Numerator: Number of service plans plan completed by PARTNERS in time frame; Denominator: Number of service plans reviewed.

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.
N/A

b. Methods for Remediation/Fixing Individual Problems
i. Describe the State’s method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.
DMS QA staff conducts chart reviews on 100% of the waiver participant’s records and produces reports of the results. These reports include issues such as untimely level of care re-evaluations, incomplete service plans, and incorrect billings to Medicaid. These reports are shared with the Partners. Partners is responsible for implementing remedial action to prevent future occurrences of the same issues and if necessary, developing a corrective action plan to address any issues not resolved through remediation. The corrective action plan may include training, policy corrections, and provider billing adjustments. In cases where the numbers of active participants and unduplicated participants served in the waiver are not within approved limits, remediation may include waiver amendments and possibly implementing a waiting list.

Partners and DMS participate in quarterly team meetings to discuss and address individual problems associated with administrative authority, as well as problem correction and remediation. PARTNERS and DMS a Memorandum of Understanding (MOU) for measures related to administrative authority of the waiver.

DMS reviews and approves all policies and procedures (including waiver amendments) developed by PARTNERS prior to implementation, as part of the MOU. In cases where policies or procedures were not reviewed and approved by DMS, remediation includes DMS review of the policy or procedure upon discovery, and approving or removing the policy or procedure.

Remediation to address participants not receiving at least two waiver services per month in accordance with the service plan and the agreement with DMS includes case closure, conducting monitoring visits, revising a plan of care to add a service, checking provider billing and providing training. Remediation associated with provider certifications that are not current according to the MOU include closing provider numbers, recouping payments for services and recertifying providers upon discovery, if appropriate. PARTNERS conducts remediation efforts in these efforts and the transmittal tool used for case record reviews documents and tracks remediation.

ii. Remediation Data Aggregation
Remediation-related Data Aggregation and Analysis (including trend identification)

c. Timelines
When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for
discovery and remediation related to the assurance of Administrative Authority that are currently non-operational.

☐ No
☐ Yes

Please provide a detailed strategy for assuring Administrative Authority, the specific timeline for implementing identified strategies,
and the parties responsible for its operation.

Appendix B: Participant Access and Eligibility

B-1: Specification of the Waiver Target Group(s)

a. Target Group(s). Under the waiver of Section 1902(a)(10)(B) of the Act, the State limits waiver services to one or more groups or
subgroups of individuals. Please see the instruction manual for specifics regarding age limits. In accordance with 42 CFR §441.301(b)
(6), select one or more waiver target groups, check each of the subgroups in the selected target group(s) that may receive services under
the waiver, and specify the minimum and maximum (if any) age of individuals served in each subgroup:

<table>
<thead>
<tr>

b. Additional Criteria. The State further specifies its target group(s) as follows:

1. children who have been diagnosed with Autism Spectrum Disorder (ASD) diagnosis, as defined by the most recent edition of the
Diagnostic and Statistical Manual of Mental Disorders (DSM) of the American Psychiatric Association, and who meet the ICF-MR
level of care criteria
2. the diagnosis of ASD must have been provided by multiple professionals, including a physician, psychologist and speech-language
pathologist, either individually or as a team.
3. waiver participants will be terminated from the waiver after either a total of three consecutive years of service or upon reaching their
seventh birthday; participants must enter the program on or before their fifth birthday to allow the two-year minimum treatment to
occur.

Parents or the legal guardian(s) will be provided information about other services, supports and appropriate referrals available (i.e., state
plan services, other waiver alternatives, and programs available through the Local Education Agency). The Autism Waiver Coordinator
will be responsible for coordinating the transition to other services.

The three year maximum service limitation is specified in Arkansas Act 1008 of 2015 enacted in the 90th Session of the Arkansas
General Assembly.

PROPOSED
may be served in the waiver, describe the transition planning procedures that are undertaken on behalf of participants affected by the age limit (select one):

- Not applicable. There is no maximum age limit
- The following transition planning procedures are employed for participants who will reach the waiver's maximum age limit.

Specify:

The State's transition planning procedures will be implemented three months prior to the end of the participant's waiver program end date or if the waiver participant fails to meet the level of care criteria before the 2-year minimum is met. Parents or the legal guardian(s) will be provided information about other services, supports and appropriate referrals available (i.e., state plan services, other waiver alternatives, and programs available through the Local Education Agency). The Autism Waiver Coordinator will be responsible for coordinating the transition to other services. If requested by the parent, the child's consultant may participate in a transition conference with the agency who will be providing services following waiver termination.

Appendix B: Participant Access and Eligibility

B-2: Individual Cost Limit (1 of 2)

a. **Individual Cost Limit.** The following individual cost limit applies when determining whether to deny home and community-based services or entrance to the waiver to an otherwise eligible individual (select one). Please note that a State may have only ONE individual cost limit for the purposes of determining eligibility for the waiver:

- **No Cost Limit.** The State does not apply an individual cost limit. Do not complete Item B-2-b or item B-2-c.
- **Cost Limit in Excess of Institutional Costs.** The State refuses entrance to the waiver to any otherwise eligible individual when the State reasonably expects that the cost of the home and community-based services furnished to that individual would exceed the cost of a level of care specified for the waiver up to an amount specified by the State. Complete Items B-2-b and B-2-c.

The limit specified by the State is (select one)

- A level higher than 100% of the institutional average.
  
  Specify the percentage: __________

- Other
  
  Specify:

- **Institutional Cost Limit.** Pursuant to 42 CFR 441.301(a)(3), the State refuses entrance to the waiver to any otherwise eligible individual when the State reasonably expects that the cost of the home and community-based services furnished to that individual would exceed 100% of the cost of the level of care specified for the waiver. Complete Items B-2-b and B-2-c.

- **Cost Limit Lower Than Institutional Costs.** The State refuses entrance to the waiver to any otherwise qualified individual when the State reasonably expects that the cost of home and community-based services furnished to that individual would exceed the following amount specified by the State that is less than the cost of a level of care specified for the waiver.

  Specify the basis of the limit, including evidence that the limit is sufficient to assure the health and welfare of waiver participants. Complete Items B-2-b and B-2-c.

The cost limit specified by the State is (select one):

- The following dollar amount:
  
  Specify dollar amount: __________
The dollar amount (select one)

- Is adjusted each year that the waiver is in effect by applying the following formula:
  
  Specify the formula:

- May be adjusted during the period the waiver is in effect. The State will submit a waiver amendment to CMS to adjust the dollar amount:
  
  The following percentage that is less than 100% of the institutional average:

  Specify percent: [ ]

- Other:
  
  Specify:

Appendix B: Participant Access and Eligibility

B-2: Individual Cost Limit (2 of 2)

Answers provided in Appendix B-2-a indicate that you do not need to complete this section.

b. Method of Implementation of the Individual Cost Limit. When an individual cost limit is specified in Item B-2-a, specify the procedures that are followed to determine in advance of waiver entrance that the individual's health and welfare can be assured within the cost limit:

c. Participant Safeguards. When the State specifies an individual cost limit in Item B-2-a and there is a change in the participant's condition or circumstances post-entry to the waiver that requires the provision of services in an amount that exceeds the cost limit in order to assure the participant's health and welfare, the State has established the following safeguards to avoid an adverse impact on the participant (check each that applies):

- The participant is referred to another waiver that can accommodate the individual's needs.
- Additional services in excess of the individual cost limit may be authorized.

Specify the procedures for authorizing additional services, including the amount that may be authorized:

- Other safeguard(s)

Specify:

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (1 of 4)

a. Unduplicated Number of Participants. The following table specifies the maximum number of unduplicated participants who are served in each year that the waiver is in effect. The State will submit a waiver amendment to CMS to modify the number of participants specified for any year(s), including when a modification is necessary due to legislative appropriation or another reason. The number of
unduplicated participants specified in this table is basis for the cost-neutrality calculations in Appendix J:

<table>
<thead>
<tr>
<th>Waiver Year</th>
<th>Unduplicated Number of Participants</th>
</tr>
</thead>
<tbody>
<tr>
<td>Year 1</td>
<td>200</td>
</tr>
<tr>
<td>Year 2</td>
<td>200</td>
</tr>
<tr>
<td>Year 3</td>
<td>200</td>
</tr>
<tr>
<td>Year 4</td>
<td>200</td>
</tr>
<tr>
<td>Year 5</td>
<td>200</td>
</tr>
</tbody>
</table>

b. Limitation on the Number of Participants Served at Any Point in Time. Consistent with the unduplicated number of participants specified in Item B-3-a, the State may limit to a lesser number the number of participants who will be served at any point in time during a waiver year. Indicate whether the State limits the number of participants in this way: (select one):

- The State does not limit the number of participants that it serves at any point in time during a waiver year.
- The State limits the number of participants that it serves at any point in time during a waiver year.

The limit that applies to each year of the waiver period is specified in the following table:

<table>
<thead>
<tr>
<th>Waiver Year</th>
<th>Maximum Number of Participants Served At Any Point During the Year</th>
</tr>
</thead>
<tbody>
<tr>
<td>Year 1</td>
<td>150</td>
</tr>
<tr>
<td>Year 2</td>
<td>150</td>
</tr>
<tr>
<td>Year 3</td>
<td>150</td>
</tr>
<tr>
<td>Year 4</td>
<td>150</td>
</tr>
<tr>
<td>Year 5</td>
<td>150</td>
</tr>
</tbody>
</table>

Appendix B: Participant Access and Eligibility

B-3: Number of Individuals Served (2 of 4)

c. Reserved Waiver Capacity. The State may reserve a portion of the participant capacity of the waiver for specified purposes (e.g., provide for the community transition of institutionalized persons or furnish waiver services to individuals experiencing a crisis) subject to CMS review and approval. The State (select one):

- Not applicable. The state does not reserve capacity.
- The State reserves capacity for the following purpose(s).

d. Scheduled Phase-In or Phase-Out. Within a waiver year, the State may make the number of participants who are served subject to a phase-in or phase-out schedule (select one):

- The waiver is not subject to a phase-in or a phase-out schedule.
- The waiver is subject to a phase-in or phase-out schedule that is included in Attachment #1 to Appendix B-3. This schedule constitutes an intra-year limitation on the number of participants who are served in the waiver.

e. Allocation of Waiver Capacity.

Select one:

- Waiver capacity is allocated/managed on a statewide basis.
- Waiver capacity is allocated to local/regional non-state entities.

Specify: (a) the entities to which waiver capacity is allocated; (b) the methodology that is used to allocate capacity and how often the methodology is reevaluated; and, (c) policies for the reallocation of unused capacity among local/regional non-state entities:
f. **Selection of Entrants to the Waiver.** Specify the policies that apply to the selection of individuals for entrance to the waiver:

Partners has been accepting applications throughout the waiver and currently maintains a waiting list for services. Upon approval of this waiver renewal the waiting lists will be opened and services will be provided to children identified as program eligible. Partners will continue accepting applications and children will be moved into services on a first come, first serve basis. Once all slots are filled, a waiting list will be maintained until an available slot opens. Any child who reaches his/her fifth birthday while still on the waiting list will be removed from the waiting list as ineligible. Notice will be sent to the parents/guardians that such action is occurring with information regarding other resources and/or services available.

**Appendix B: Participant Access and Eligibility**

**B-3: Number of Individuals Served - Attachment #1 (4 of 4)**

Answers provided in Appendix B-3-d indicate that you do not need to complete this section.

**Appendix B: Participant Access and Eligibility**

**B-4: Eligibility Groups Served in the Waiver**

a. **State Classification.** The State is a (select one):
- §1634 State
- SSI Criteria State
- 209(b) State

b. **Miller Trust State.** Indicate whether the State is a Miller Trust State (select one):
- No
- Yes

c. **Medicaid Eligibility Groups Served in the Waiver.** Individuals who receive services under this waiver are eligible under the following eligibility groups contained in the State plan. The State applies all applicable federal financial participation limits under the plan. **Check all that apply:**

<table>
<thead>
<tr>
<th>Eligibility Groups Served in the Waiver (excluding the special home and community-based waiver group under 42 CFR §435.217)</th>
</tr>
</thead>
<tbody>
<tr>

</tr>
<tr>
<td>☐ % of FPL, which is lower than 100% of FPL.</td>
</tr>
</tbody>
</table>

Specify percentage:

- Working individuals with disabilities who buy into Medicaid (BBA working disabled group as provided in §1902(a)(10)(A) (ii)(XIII) of the Act)
- Working individuals with disabilities who buy into Medicaid (TWWIA Basic Coverage Group as provided in §1902(a)(10) (A)(ii)(XV) of the Act)
- Working individuals with disabilities who buy into Medicaid (TWWIA Medical Improvement Coverage Group as provided in §1902(a)(10)(A)(ii)(XVI) of the Act)
- Disabled individuals age 18 or younger who would require an institutional level of care (TEFRA 134 eligibility group as provided in §1902(e)(3) of the Act)
- Medically needy in 209(b) States (42 CFR §435.330)
- Medically needy in 1634 States and SSI Criteria States (42 CFR §435.320, §435.322 and §435.324)
Other specified groups (include only statutory/regulatory reference to reflect the additional groups in the State plan that may receive services under this waiver)

Specify:

Title IV-E Children.

Special home and community-based waiver group under 42 CFR §435.217 Note: When the special home and community-based waiver group under 42 CFR §435.217 is included, Appendix B-5 must be completed

- No. The State does not furnish waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217. Appendix B-5 is not submitted.
- Yes. The State furnishes waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217.

Select one and complete Appendix B-5.

- All individuals in the special home and community-based waiver group under 42 CFR §435.217
- Only the following groups of individuals in the special home and community-based waiver group under 42 CFR §435.217

Check each that applies:

- A special income level equal to:
  - 300% of the SSI Federal Benefit Rate (FBR)
  - A percentage of FBR, which is lower than 300% (42 CFR §435.236)
    Specify percentage: 
  - A dollar amount which is lower than 300%.
    Specify dollar amount: 

- Aged, blind and disabled individuals who meet requirements that are more restrictive than the SSI program (42 CFR §435.121)
- Medically needy without spenddown in States which also provide Medicaid to recipients of SSI (42 CFR §435.320, §435.322 and §435.324)
- Medically needy without spend down in 209(b) States (42 CFR §435.330)
- Aged and disabled individuals who have income at:
  - 100% of FPL
  - % of FPL, which is lower than 100%.
    Specify percentage amount: 

- Other specified groups (include only statutory/regulatory reference to reflect the additional groups in the State plan that may receive services under this waiver)
  Specify:
In accordance with 42 CFR §441.303(e), Appendix B-5 must be completed when the State furnishes waiver services to individuals in the special home and community-based waiver group under 42 CFR §435.217, as indicated in Appendix B-4. Post-eligibility applies only to the 42 CFR §435.217 group.

**a. Use of Spousal Impoverishment Rules.** Indicate whether spousal impoverishment rules are used to determine eligibility for the special home and community-based waiver group under 42 CFR §435.217:

Note: For the five-year period beginning January 1, 2014, the following instructions are mandatory. The following box should be checked for all waivers that furnish waiver services to the 42 CFR §435.217 group effective at any point during this time period.

☐ Spousal impoverishment rules under §1924 of the Act are used to determine the eligibility of individuals with a community spouse for the special home and community-based waiver group. In the case of a participant with a community spouse, the State uses spousal post-eligibility rules under §1924 of the Act.

Complete Items B-5-e (if the selection for B-4-a-i is SSI State or §1634) or B-5-f (if the selection for B-4-a-i is 209b State) and Item B-5-g unless the state indicates that it also uses spousal post-eligibility rules for the time periods before January 1, 2014 or after December 31, 2018.

Note: The following selections apply for the time periods before January 1, 2014 or after December 31, 2018 (select one).

☐ Spousal impoverishment rules under §1924 of the Act are used to determine the eligibility of individuals with a community spouse for the special home and community-based waiver group.

In the case of a participant with a community spouse, the State elects to (select one):

- Use spousal post-eligibility rules under §1924 of the Act.
  (Complete Item B-5-b (SSI State) and Item B-5-d)

- Use regular post-eligibility rules under 42 CFR §435.726 (SSI State) or under §435.735 (209b State)
  (Complete Item B-5-b (SSI State). Do not complete Item B-5-d)

☐ Spousal impoverishment rules under §1924 of the Act are not used to determine eligibility of individuals with a community spouse for the special home and community-based waiver group. The State uses regular post-eligibility rules for individuals with a community spouse.
  (Complete Item B-5-b (SSI State). Do not complete Item B-5-d)

---

**Appendix B: Participant Access and Eligibility**

**B-5: Post-Eligibility Treatment of Income (2 of 7)**

**b. Regular Post-Eligibility Treatment of Income: SSI State.**

The State uses the post-eligibility rules at 42 CFR 435.726. Payment for home and community-based waiver services is reduced by the amount remaining after deducting the following allowances and expenses from the waiver participant's income:

**i. Allowance for the needs of the waiver participant (select one):**

- The following standard included under the State plan

  **Select one:**

  - SSI standard
  - Optional State supplement standard
  - Medically needy income standard
  - The special income level for institutionalized persons

  *(select one):*

  - 300% of the SSI Federal Benefit Rate (FBR)
  - A percentage of the FBR, which is less than 300%

  Specify the percentage: ______
A dollar amount which is less than 300%.

Specify dollar amount:

A percentage of the Federal poverty level

Specify percentage:

Other standard included under the State Plan

Specify:

The following dollar amount

Specify dollar amount: If this amount changes, this item will be revised.

The following formula is used to determine the needs allowance:

Specify:

The maintenance needs allowance is equal to the individual's total income as determined under the post-eligibility process which includes income that is placed in a Miller trust.

Other

Specify:

ii. Allowance for the spouse only (select one):

- Not Applicable (see instructions)
- SSI standard
- Optional State supplement standard
- Medically needy income standard
- The following dollar amount:

Specify dollar amount: If this amount changes, this item will be revised.

The amount is determined using the following formula:

Specify:

iii. Allowance for the family (select one):

- Not Applicable (see instructions)
- AFDC need standard
- Medically needy income standard
- The following dollar amount:

Specify dollar amount: The amount specified cannot exceed the higher of the need standard for a family of the same size used to determine eligibility under the State's approved AFDC plan or the medically needy income standard established under 42 CFR §435.811 for a family of the same size. If this amount changes, this item will be revised.

The amount is determined using the following formula:
iv. Amounts for incurred medical or remedial care expenses not subject to payment by a third party, specified in 42 §CFR 435.726:

a. Health insurance premiums, deductibles and co-insurance charges
b. Necessary medical or remedial care expenses recognized under State law but not covered under the State's Medicaid plan, subject to reasonable limits that the State may establish on the amounts of these expenses.

Select one:

- **Not Applicable (see instructions)** Note: If the State protects the maximum amount for the waiver participant, not applicable must be selected.
- The State does not establish reasonable limits.
- The State establishes the following reasonable limits

Specify:

Answers provided in Appendix B-5-a indicate that you do not need to complete this section and therefore this section is not visible.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (6 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

Answers provided in Appendix B-5-a indicate that you do not need to complete this section and therefore this section is not visible.

Appendix B: Participant Access and Eligibility

B-5: Post-Eligibility Treatment of Income (7 of 7)

Note: The following selections apply for the five-year period beginning January 1, 2014.

The State uses the post-eligibility rules of §1924(d) of the Act (spousal impoverishment protection) to determine the contribution of a participant with a community spouse toward the cost of home and community-based care. There is deducted from the participant's monthly income a personal needs allowance (as specified below), a community spouse's allowance and a family allowance as specified in the State Medicaid Plan. The State must also protect amounts for incurred expenses for medical or remedial care (as specified below).

Answers provided in Appendix B-5-a indicate that you do not need to complete this section and therefore this section is not visible.

Appendix B: Participant Access and Eligibility

B-6: Evaluation/Reevaluation of Level of Care

As specified in 42 CFR §441.302(c), the State provides for an evaluation (and periodic reevaluations) of the need for the level(s) of care specified for this waiver, when there is a reasonable indication that an individual may need such services in the near future (one month or less), but for the availability of home and community-based waiver services.

a. Reasonable Indication of Need for Services. In order for an individual to be determined to need waiver services, an individual must require: (a) the provision of at least one waiver service, as documented in the service plan, and (b) the provision of waiver services at least monthly or, if the need for services is less than monthly, the participant requires regular monthly monitoring which must be documented in the service plan. Specify the State's policies concerning the reasonable indication of the need for services:

i. Minimum number of services.

The minimum number of waiver services (one or more) that an individual must require in order to be determined to need waiver services is: 2

ii. Frequency of services. The State requires (select one):

- The provision of waiver services at least monthly
- Monthly monitoring of the individual when services are furnished on a less than monthly basis

If the State also requires a minimum frequency for the provision of waiver services other than monthly (e.g., quarterly), specify the frequency:

b. Responsibility for Performing Evaluations and Reevaluations. Level of care evaluations and reevaluations are performed (select one):
c. Qualifications of Individuals Performing Initial Evaluation: Per 42 CFR §441.303(c)(1), specify the educational/professional qualifications of individuals who perform the initial evaluation of level of care for waiver applicants:

Employees of PARTNERS will be a licensed Registered Nurse or have a master's degree in psychology, speech-language-pathology, occupational therapy, education or related field plus a minimum of two years experience with services for young children with autism. Results of this evaluation will be documented on the DHS 703.

d. Level of Care Criteria. Fully specify the level of care criteria that are used to evaluate and reevaluate whether an individual needs services through the waiver and that serve as the basis of the State's level of care instrument/tool. Specify the level of care instrument/tool that is employed. State laws, regulations, and policies concerning level of care criteria and the level of care instrument/tool are available to CMS upon request through the Medicaid agency or the operating agency (if applicable), including the instrument/tool utilized.

Children served in this waiver will be diagnosed with Autism Spectrum Disorder (ASD), based on the diagnostic criteria set out in the most recent edition of the DSM (Diagnostic and Statistical Manual). The initial determination of eligibility will be determined utilizing the same criteria used for a child with ASD being admitted to the state's ICF/MR facilities. These include the DHS-703 form (The Evaluation of Medical Need), social history and psychological assessments. The Autism Waiver Team at Partners will be responsible for determining both initial and continuing eligibility for the autism waiver. The Autism Waiver Team at Partners will include a multidisciplinary team of master's level professionals with experience working with children with autism. Supporting documentation required for Partners to complete the 703 form include appropriate assessments of intelligence and adaptive behavior. Any standardized assessment of intellect and adaptive behavior deemed appropriate by the licensed professionals completing the evaluation will be considered. Additionally, the presence of ASD must be identified by delineation of the DSM Criteria present or through the use of a formalized instrument such as the CARS, ADOS or ADI-R. Assessments submitted must be administered by appropriately licensed professionals as required for the administration of the particular instruments utilized. It should be noted that these evaluations, resulting in a diagnosis of ASD, can be completed by any clinical or developmental center or private vendor of the parent's choice, so long as appropriately licensed professionals conduct the assessment. This information will be submitted to Partners and will be reviewed prior to the initial on-site meeting between the Autism Waiver Coordinator (Partners) and the parent/guardian of the child. If additional information is needed, the family will be notified in writing prior to the scheduling of the first on-site meeting. This is the same process that is currently used by the State for determining eligibility for other waiver programs and for ICF/MR admission.

On-site refers to in-home and community settings. The location will be primarily the child's home but other community locations, identified by the parent, such as the park, grocery store, church, etc. might be included. Specific locations will be selected based on the skills and behaviors of the child that need to be targeted.

Once the diagnosis of ASD is confirmed by the Autism Waiver Team at Partners, the initial contact will be scheduled. During this on-site visit, the level of care determination will be made by the Autism Waiver Coordinator (Partners) based on significant deficits in adaptive functioning and/or the presence of significant behavioral challenges. A child will be found to meet the LOC eligibility with a score of 70 or less in any two of the Vineland II Survey Interview domains.

Scores above 70 that fall within the confidence interval of the Vineland II will not preclude a child's eligibility for the waiver. For example, a child diagnosed with ASD with a score of 74 for the Communication Domain where the confidence level is 5 points for the child's developmental age, would be eligible for the waiver.

A Maladaptive Behavior Index Score between 21 and 24 indicates the presence of significant behavioral challenges. Children with a Maladaptive Behavior Index Score in this range are considered eligible for the waiver, if the child also has a Vineland II Domain score for two of the three adaptive behavior domains (Communication, Daily Living Skills, Socialization) of 85 or less. Scores falling within the range of the test's confidence interval for the child's developmental age in this case will also qualify as eligible for the waiver.

For children under the age of 3, a Temperament Atypical Behavior Scale (TABS) assessment must be used to assess for the presence of significant behavioral challenges. A TABS score of 8 and above would indicate a child has significant dysfunctional behaviors, and would qualify a child for the waiver if the score is coupled with qualifying adaptive scores from the Vineland II.

It should be noted that the Autism Waiver Coordinator (Partners) may be administering the Vineland II and the TABS or interpreting
results of instruments already included in the child's assessment battery if the instruments have been administered within the past six months for initial eligibility.

The LOC assessment is completed by the Partners Waiver Team using the DHS Evaluation of Medical Need Criteria Form 703. The completed DHS Form 703 is submitted to the Division of Medical Services, Office of Long Term Care (OLTC). OLTC will complete the Decision for Nursing Home/Waiver Placement Form 704. Once the LOC determination is made, the Plan of Care will be developed with the family.

e. Level of Care Instrument(s). Per 42 CFR §441.303(c)(2), indicate whether the instrument/tool used to evaluate level of care for the waiver differs from the instrument/tool used to evaluate institutional level of care (select one):

- The same instrument is used in determining the level of care for the waiver and for institutional care under the State Plan.
- A different instrument is used to determine the level of care for the waiver than for institutional care under the State Plan.

Describe how and why this instrument differs from the form used to evaluate institutional level of care and explain how the outcome of the determination is reliable, valid, and fully comparable.

f. Process for Level of Care Evaluation/Reevaluation: Per 42 CFR §441.303(c)(1), describe the process for evaluating waiver applicants for their need for the level of care under the waiver. If the reevaluation process differs from the evaluation process, describe the differences:

Children with ASD ages 18 months to age 5 are referred for the Arkansas Autism Waiver by physicians, county health nurses, Developmental Disabilities Services case managers, staff of provider agencies, or parents/family members who have become aware of the program through promotional activities. These activities may include distribution of programmatic brochures, notifications distributed via list-serves, postings on websites or blogs, notices in hard copy and electronic newsletters, newspaper notices, public service announcements and other efforts of service providers, advocacy and State Agency staff.

The determination of a child's eligibility for the Arkansas Autism Waiver requires multiple components. The first is the medical eligibility determination that the child has a qualifying diagnosis of ASD and is within the specified age range (18 months to age 5 years). Once enrolled in the program, the child may remain in the program until he/she reaches his 7th birthday or until the child has received 3 years of services, whichever comes first. A child must be admitted to the program on or before his 5th birthday in order to allow time for 2 years of treatment prior to aging out.

The second is the determination that the child meets the financial eligibility required for participation in the Medicaid program.

The third is the determination that the child meets the Level of Care eligibility which is based on significant delays in adaptive functioning in activities of daily living, socialization and communication; or moderate delays in adaptive functioning coupled with a clinically significant Maladaptive Behavior Index score.

The initial phase of medical eligibility determination is conducted through a "desk audit" with documentation of the qualifying diagnosis and age submitted by the parent/guardian to the Autism Waiver Coordinator (Partners). Once the documentation is received it will be reviewed by the multidisciplinary waiver team at Partners for confirmation that the child meets the diagnostic and age requirements for participation. The LOC determination is completed through direct contact with the parent/guardian and the child by the Autism Waiver Coordinator (Partners). This direct contact may include telephone conversations, for preliminary data collection on adaptive functioning, as well as an on-site visit, for completion of data collection, confirmation of parental choice, confirmation of parental agreement to participation requirements (Parent/Guardian Participation Agreement), and development of the Plan of Care. Financial eligibility is conducted by eligibility specialists in the DHS County Office and may occur simultaneously with LOC determination.

On-site refers to in-home and community settings. The location will be primarily the child's home but other community locations, identified by the parent, such as the park, grocery store, church, etc. might be included. Specific locations will be selected based on the skills and behaviors of the child that need to be targeted.

The Evaluation of Medical Need Criteria (DHS form 703) is completed by PARTNERS. The Decision for Nursing Home Waiver Placement form (DHS form 704) is completed by the Division of Medical Services, Office of Long Term Care (OLTC). All steps will be completed prior to any child's approval for admission to the program or initiation of services.

g. Reevaluation Schedule. Per 42 CFR §441.303(c)(4), reevaluations of the level of care required by a participant are conducted no less frequently than annually according to the following schedule (select one):

- Every three months
- Every six months
- Every twelve months
- Other schedule

Specify the other schedule:
h. Qualifications of Individuals Who Perform Reevaluations. Specify the qualifications of individuals who perform reevaluations (select one):

- The qualifications of individuals who perform reevaluations are the same as individuals who perform initial evaluations.
- The qualifications are different.
  Specify the qualifications:

i. Procedures to Ensure Timely Reevaluations. Per 42 CFR §441.303(c)(4), specify the procedures that the State employs to ensure timely reevaluations of level of care (specify):

A tickler file is created for level of care reassessments. Ninety days prior to the expiration of the level of care, the process for reevaluation is triggered and will be completed by PARTNERS and forwarded to the OLTC.

j. Maintenance of Evaluation/Reevaluation Records. Per 42 CFR §441.303(c)(3), the State assures that written and/or electronically retrievable documentation of all evaluations and reevaluations are maintained for a minimum period of 3 years as required in 45 CFR §92.42. Specify the location(s) where records of evaluations and reevaluations of level of care are maintained:

A waiver participant's record, including initial evaluation and all reevaluation documentation will be maintained by Partners for the duration of the participant's participation in the waiver program plus a five-year period.

Appendix B: Evaluation/Reevaluation of Level of Care

Quality Improvement: Level of Care

As a distinct component of the State’s quality improvement strategy, provide information in the following fields to detail the State’s methods for discovery and remediation.

a. Methods for Discovery: Level of Care Assurance/Sub-assurances

The state demonstrates that it implements the processes and instrument(s) specified in its approved waiver for evaluating/reevaluating an applicant’s/waiver participant’s level of care consistent with level of care provided in a hospital, NF or ICF/IID.

i. Sub-Assurances:
   a. Sub-assurance: An evaluation for LOC is provided to all applicants for whom there is reasonable indication that services may be needed in the future.

   Performance Measures

   For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

   For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

   Performance Measure:
   Number and percent of applicants who had an initial LOC determination indicating the need for ICF/MR LOC prior to receipt of services. Numerator: number of applicants who received LOC determinations prior to services; Denominator: Total number of applicants.

   Data Source (Select one):
   Other
   If 'Other' is selected, specify:

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

The state currently implements a system of monitoring that assures timeliness, accuracy, appropriateness and quality. Data is collected from individual participant assessments, aggregated to produce summation reports, and compared with periodic randomly sampled chart reviews and sampled field audit reviews.

Participant records undergo chart reviews performed by PARTNERS staff. Monthly activity reports track assessment activity and quality of information reporting from monthly chart reviews produced by clinical staff, submitted to PARTNERS for analysis of timeliness and accuracy. Individual assessments are also used as the base data for a 45 Day Report, which track all waiver applications and flags any due for assessment at or within 45 days. In addition, PARTNERS maintains a daily log of assessments and reassessments sent to the DMS Office of Long Term Care for medical determination. Data from all assessment and review activity is aggregated to produce an annual Chart Review Summary, Level of Care Monthly Report and Annual Accuracy Report. Periodic chart reviews on randomly sampled cases are performed throughout the year, as well as field audits of records sampling. Results are submitted to the DMS QA Administrator.

Level of Care is provided to all applicants for whom there is a reasonable indication that services may be needed in the future. PARTNERS involves medical personnel in the process and determination by performing record reviews of individual participants and synthesizing data from monthly reports. Chart audits are performed regularly and results are aggregated for the Chart Review Summary Report.

Enrolled participants are re-evaluated at least annually. PARTNERS implements a system which generates notices of cases due for re-evaluation. PARTNERS staff record the number of re-assessments due on the Monthly Activity Report. The same chart review process described above is utilized for the re-evaluation process. Cases are identified for re-evaluation through a manual tickler system and through electronically generated reports.
b. Methods for Remediation/Fixing Individual Problems
   i. Describe the State’s method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.

   PARTNERS and DMS participate in quarterly team meetings to discuss and address individual problems associated with level of care determinations and system improvement, as well as problem correction and resolution. PARTNERS and DMS have an Memorandum of Understanding (MOU) that includes measures related to level of care determinations and redeterminations for the waiver.

   The system currently in place for new applicants to enter the waiver program does not allow for services to be delivered prior to an initial level of care determination. Therefore, performance measures related to these processes will always result in 100% compliance and not allow for the possibility of remediation.

   Level of care redeterminations are required annually using the DHS-703 and applying the ICF/MR level of care criteria. Remediation in these areas includes ongoing training by PARTNERS for staff who perform the level of care determinations to ensure that the proper ICF/MR admission criteria is applied and that the initial and annual re-evaluations are completed within required time frames.

   ii. Remediation Data Aggregation

   Remediation-related Data Aggregation and Analysis (including trend identification)

   c. Timelines

   When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Level of Care that are currently non-operational.

   ◯ No
   ◯ Yes

   Please provide a detailed strategy for assuring Level of Care, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix B: Participant Access and Eligibility

B-7: Freedom of Choice

Freedom of Choice. As provided in 42 CFR §441.302(d), when an individual is determined to be likely to require a level of care for this waiver, the individual or his or her legal representative is:

https://wms-nmml.cdsvd.com/WMS/faces/protected/35/print/PrintSelector.jsp
The choice between institutional care or waiver services will be offered each participant's parent/legal guardian by the Autism Waiver Coordinator employed by PARTNER during a face-to-face visit. The Freedom of Choice Form will document the decision of the parent/guardian. The choice will remain in effect until such time as the parent/guardian changes his/her mind and notified the Autism Waiver Coordinator.

b. **Maintenance of Forms.** Per 45 CFR §92.42, written copies or electronically retrievable facsimiles of Freedom of Choice forms are maintained for a minimum of three years. Specify the locations where copies of these forms are maintained.

The Freedom of Choice form is maintained in the participant's record at PARTNERS.

**Appendix C: Participant Services**

**C-1/C-3: Service Specification**

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

**Service Type:**

Select **Other Service**

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

**Service Title:**

Consultative Clinical and Therapeutic Services

**HCBS Taxonomy:**

**Category 1:**

**Sub-Category 1:**

**Category 2:**

**Sub-Category 2:**
Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
- Service is not included in the approved waiver.

**Service Definition (Scope):**

Therapeutic services to assist unpaid caregivers (parents/guardians) and paid support staff (staff involved in the intensive intervention services) in carrying out the Individual Treatment Plan as necessary to improve the child's independence and inclusion in their family and community. These highly qualified professionals will provide technical assistance to carry out the Individual Treatment Plan and will review the child's progress toward the established treatment goals and objectives to determine efficacy of the treatment strategies being utilized. If review of treatment data on a specific child does not show progress or does not seem to be consistent with the skill level/behaviors of the child, as observed by the Clinical Services Specialist, the Clinical Services Specialist will either provide additional technical assistance to the parents and staff implementing the intervention or contact the Operating Agency's (Partners) Autism Waiver Coordinator responsible for the child to schedule a conference to determine if the Intervention Plan needs to be modified. Since the Clinical Services Specialists are independent of the provider agency hiring the consultant and other staff, this service provides a safeguard for the child regarding the intervention. This service will be delivered in the child's home or community location, based on the Individual Treatment Plan, or via telephone as appropriate.

**Specify applicable (if any) limits on the amount, frequency, or duration of this service:**

Limited to 36 hours per year/144 Units per year.

The services proposed in this waiver are not provided under the IDEA Parts B or C. These services are provided through an intensive, one-on-one model in the child's home by highly qualified interventionists. Additionally, these treatment interventions do not address educational goals and objectives.

**Service Delivery Method (check each that applies):**

- [ ] Participant-directed as specified in Appendix E
- [x] Provider managed

**Specify whether the service may be provided by (check each that applies):**

License (specify):
Certificate (specify):

Other Standard (specify):
An Institution of Higher Education (4 year program) with the capacity to conduct research specific to Autism Spectrum Disorders. Staffed by professionals from multiple disciplines with a minimum of a master’s degree in psychology, special education, speech-language pathology or a related field and 3 years of experience in providing interventions to young children with Autism Spectrum Disorders. Must have a central/home office located within the state and have the capacity to provide services in all areas of the state. Must have a graduate level curriculum developed and a minimum of 3 years of experience in providing training toward a graduate certificate in Autism Spectrum Disorders, recognized by the Arkansas Department of Higher Education. An institution with experience in providing a graduate level certificate (autism certificate) for individuals to work with children with autism. These waiver services will be provided by multi-disciplinary professionals with a minimum of a master's degree in psychology, special education, speech-language pathology or related field and experience in providing/overseeing intervention with young children with autism.

Verification of Provider Qualifications
Entity Responsible for Verification:
The Operating Agency (Partners) will recertify providers using the same process as used for the initial certification.
Frequency of Verification:
Annually

Appendix C: Participant Services
C-1/C-3: Service Specification

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:
Other Service
As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:
Individual Assessment/ Treatment Development/ Monitoring

HCBS Taxonomy:

Category 1: Sub-Category 1:

Category 2: Sub-Category 2:

Category 3: Sub-Category 3:

Category 4: Sub-Category 4:

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:
- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
- Service is not included in the approved waiver.
**Service Definition (Scope):**
Assess each waiver participant to determine a comprehensive clinical profile, documenting skills deficits across multiple domains including language/communication, cognition, socialization, self-care and behavior. The instruments used will be individualized to the child’s presenting symptoms as determined by the Consultant and may include tools such as the Verbal Behavior Milestones Assessment and Placement Program (VB-MAPP) or the Assessment of Basic Language and Learning Skills-Revised (ABLLS-R). Other instruments and clinical judgment of the Consultant may also be utilized so long as they render a detailed profile of the child’s skills and deficits across multiple domains. This detailed clinical profile will provide the basis for the development of an individualized treatment plan that will guide the day-to-day deliver of evidence-based interventions and the daily data collection. It will be the use of this data by the Consultant that determines the clinical progress of each child and the need for adjustments to the individualized treatment approach. The Consultant will develop an Individual Treatment Plan based on the assessment utilizing exclusively evidence-based practices (as outlined in the provider manual) and will train key personnel to implement the intervention(s) and collect detailed data regarding the child's progress. Training will be offered to Lead and Line Therapists and parents/guardians.

Oversight of implementation of evidence-based intervention strategies by the Lead therapist, the Line therapist and the family; ongoing education of family members and key staff regarding treatment; monthly on-site (in-home and community settings) monitoring of treatment effectiveness and implementation fidelity; modification of treatment plan as necessary; and modification of assessment information as necessary. The monitoring under this service will be for the purpose of modifying the design of the Treatment Plan and is conducted monthly by the Consultant.

On-site refers to in-home and community settings. The location will be primarily the child's home but other community locations, identified by the parent, such as the park, grocery store, church, etc. might be included. Specific locations will be selected based on the skills and behaviors of the child that need to be targeted.

**Specify applicable (if any) limits on the amount, frequency, or duration of this service:**
Limited to 90 hours/360 units per year at a rate of $104.40 per hour.

The services proposed in this waiver are not provided under the IDEA Parts B or C. These services are provided through an intensive, one-on-one model in the child’s home by highly qualified interventionists. Additionally, these treatment interventions do not address educational goals and objectives.

**Service Delivery Method (check each that applies):**
- Participant-directed as specified in Appendix E
- Provider managed

**Specify whether the service may be provided by (check each that applies):**

**Appendix C: Participant Services**

**C-1/C-3: Provider Specifications for Service**

**Service Type:** Other Service
**Service Name:** Individual Assessment/ Treatment Development/ Monitoring

**Provider Category:**
- Agency

**Provider Type:**
- Community-based organizations

**Provider Qualifications**
- **License (specify):** Licensed by the State of Arkansas to provide Developmental Day Treatment Clinic Services (DDTCS) to children OR
- **Certificate (specify):** Certified by the State of Arkansas to provide services under the Developmental Disabilities Services (DDS) Home and Community-Based Waiver program
- **Other Standard (specify):** Must have a minimum of three years experience providing services to individuals with autism

Includes any non-profit organization formed as a collaborative organization made up of a group of licensed/certified
providers as described above. In the case of a collaborative, the individual experience of its members will be considered to qualify the organization to participate in the program.

Additionally: the personnel hired by these non-profit providers to render the Intensive Autism Intervention Services must meet the following standards to be considered qualified professionals/paraprofessionals:

• Hold a certificate from the Behavior Analyst Certification Board (BCAB) as a BCBA (Board Certified Behavior Analyst) or BCaBA (Board Certified Assistant Behavior Analyst) plus have a minimum of 2 years of experience developing/providing intensive intervention or overseeing the intensive intervention program for children with autism, or
• Hold a minimum of a master's degree in Psychology, Speech-Language Pathology, Occupational Therapy or Special Education or related field plus experience with children.

Verification of Provider Qualifications
Entity Responsible for Verification:
Partners will be responsible for certifying providers as eligible to participate in the Autism Waiver Program.

Certified provider agencies will be responsible for hiring qualified personnel to implement the programs. Partners and the Consultative Clinical and Therapeutic Services provider will both monitor that personnel meet applicable standard. Partners will also maintain a data-base of qualified personnel involved in the program for the purpose of referrals as new children are added to the program and for the purpose of monitoring supply and demand across the state.

The Operating Agency (Partners) will recertify providers using the same process as used for the initial certification.

Frequency of Verification:
Annually

Appendix C: Participant Services

State laws, regulations and policies referenced in the specification are readily available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Service Type:
Other Service

As provided in 42 CFR §440.180(b)(9), the State requests the authority to provide the following additional service not specified in statute.

Service Title:
Lead Therapy Intervention

HCBS Taxonomy:

Category 1: Sub-Category 1:

Category 2: Sub-Category 2:

Category 3: Sub-Category 3:

Category 4: Sub-Category 4:

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
Service Definition (Scope):
Assurance that the treatment plan is implemented as designed; weekly monitoring of implementation and effectiveness of treatment plan; reviewing all recorded data collected by the Line Therapist and the parent/guardian; providing guidance and support to the Line Therapist(s); receiving parent/guardian feedback and responding to concerns or forwarding to appropriate person; and notifying the Consultant when issues arise. The monitoring under this service is conducted for the purpose of determining implementation fidelity. Any problems noted by the Lead Therapist will be reported to the Consultant who will make any necessary adjustments in the Individual Treatment Plan.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:
6 hours/24 units per week

The services proposed in this waiver are not provided under the IDEA Parts B or C. These services are provided through an intensive, one-on-one model in the child’s home by highly qualified interventionists. Additionally, these treatment interventions do not address educational goals and objectives.

Service Delivery Method (check each that applies):

C-1/C-3: Provider Specifications for Service

Service Type: Other Service
Service Name: Lead Therapy Intervention

Provider Category: Agency
Provider Type: Community-based organizations

Provider Qualifications

License (specify):
Licensed by the State of Arkansas to provide Developmental Day Treatment Clinic Services (DDTCS) to children OR

Certificate (specify):
Certified by the State of Arkansas to provide services under the Developmental Disabilities Services (DDS) Home and Community-Based Waiver program. Certified by the Operating Agency (Partners) to provide Autism Waiver Services.

Other Standard (specify):
Must have a minimum of three years experience providing services to individuals with ASD

Includes any organization formed as a collaborative organization made up of a group of licensed/certified providers as described above. In the case of a collaborative, the individual experience of its members will be considered to qualify the organization to participate in the program.

Additionally: the personnel hired by these providers to render the Intensive Autism Intervention Services must meet the following standards to be considered qualified professionals/paraprofessionals:

• Hold a minimum of a bachelor's degree in education/special education, psychology, speech-language pathology, occupational therapy or related field, and
• Have completed 120 hours of specified autism training (training content specified in the provider manual)* or have completed the Autism Certificate offered by the University of Arkansas, and
• Have a minimum of 2 years experience in programing for children with disabilities.
*Note: In a hardship situation, Partners may issue a provisional certification to enable services to be delivered in a timely manner. A hardship situation exists when a child is in need of services and staff is not available who meet all training/experience requirements. Provisional certification of a particular staff person requires that the total number of training hours be completed within the first year of service.

**Verification of Provider Qualifications**

**Entity Responsible for Verification:**
Partners will be responsible for certifying providers as eligible to participate in the Autism Waiver Program.

Certified provider agencies will be responsible for hiring qualified personnel to implement the programs. Partners and the Consultative Clinical and Therapeutic Services provider will both monitor that personnel meet applicable standard. Partners will also maintain a data-base of qualified personnel involved in the program for the purpose of referrals as new children are added to the program and for the purpose of monitoring supply and demand across the state.

The Operating Agency (Partners) will recertify providers using the same process as used for the initial certification.

**Frequency of Verification:**
Annually

*Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
- Service is not included in the approved waiver.

**Service Definition (Scope):**
On-site (in-home and community settings) implementation of the interventions according to the treatment plan; recording of data according to the treatment plan; and reporting progress/concerns to the Lead Therapist/Consultant.

**Specify applicable (if any) limits on the amount, frequency, or duration of this service:**
30 hours per week

https://wms-nmndl.cdsyvc.com/WMS/faces/protected/35/print/PrintSelector.jsp
The services proposed in this waiver are not provided under the IDEA Parts B or C. These services are provided through an intensive, one-on-one model in the child’s home by highly qualified interventionists. Additionally, these treatment interventions do not address educational goals and objectives.

Service Delivery Method (check each that applies):

C-1/C-3: Provider Specifications for Service

Service Type: Other Service  
Service Name: Line Therapy Intervention

Provider Category:

| Agency | Community-based organizations |

Provider Type:
Community-based organizations

Provider Qualifications

License (specify):
Licensed by the State of Arkansas to provide Developmental Day Treatment Clinic Services (DDTCS) to children OR

Certificate (specify):
Certified by the State of Arkansas to provide services under the Developmental Disabilities Services (DDS) Home and Community-Based Waiver program. Certified by the Operating Agency (Partners) to provide Autism Waiver Services.

Other Standard (specify):
Must have a minimum of three years experience providing services to individuals with ASD

Includes any organization formed as a collaborative organization made up of a group of licensed/certified providers as described above. In the case of a collaborative, the individual experience of its members will be considered to qualify the organization to participate in the program.

Additionally: the personnel hired by these providers to render the Intensive Autism Intervention Services must meet the following standards to be considered qualified professionals/paraprofessionals:

• Hold a high school diploma or GED, and
• Have completed 80 hours of specified autism training (training content specified in the provider manual)*, and
• Have a minimum of 2 years experience with children.

*Note: In a hardship situation, Partners may issue a provisional certification to enable services to be delivered in a timely manner. A hardship situation exists when a child is in need of services and staff is not available who meet all training/experience requirements. Provisional certification of a particular staff person requires that the total number of training hours be completed within the first year of service.

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:
- Service is included in approved waiver. There is no change in service specifications.
- Service is included in approved waiver. The service specifications have been modified.
- Service is not included in the approved waiver.

Service Definition (Scope):
Provision of necessary therapeutic aides and behavioral reinforcers in the home. If the provider determines that availability is insufficient for implementation of the Individual Treatment Plan, the provider (Consultant) will determine what therapeutic aides are needed and provide those therapeutic aides for use in improving the child's language, cognition, social and self-regulatory behavior.

Examples of items that might be provided include: picture cards, games selected for social interaction, stickers, tokens, books, cause-effect toys, blocks or other building materials, crayons/markers, age-appropriate toys for pretend play, behavioral reinforcers, etc..

Specify applicable (if any) limits on the amount, frequency, or duration of this service:
Limited to a one-time maximum of $1,000.00 per participant; only in situations where insufficient materials are available. Items provided will remain with the child at the conclusion of the program so long as satisfactory participation requirements are met. Satisfactory participation is not connected to the child’s progress but rather compliance with attending the treatment sessions, assisting with the intervention, data collection, etc. If the child does not complete the program as required, the therapeutic aides will be retained by the provider for use with another child in the program.

The services proposed in this waiver are not provided under the IDEA Parts B or C. These services are provided through an intensive, one-on-one model in the child’s home by highly qualified interventionists. Additionally, these treatment interventions do not address educational goals and objectives.

Appendix C: Participant Services

C-2: General Service Specifications (1 of 3)

a. **Criminal History and/or Background Investigations.** Specify the State's policies concerning the conduct of criminal history and/or background investigations of individuals who provide waiver services (select one):

- Not applicable - Case management is not furnished as a distinct activity to waiver participants.
- Applicable - Case management is furnished as a distinct activity to waiver participants.  
  Check each that applies:
  - As a waiver service defined in Appendix C-3. Do not complete item C-1-c.
  - As a Medicaid State plan service under §1915(i) of the Act (HCBS as a State Option). Complete item C-1-c.
  - As a Medicaid State plan service under §1915(g)(1) of the Act (Targeted Case Management). Complete item C-1-c.
  - As an administrative activity. Complete item C-1-c.

b. **Provision of Case Management Services to Waiver Participants.** Indicate how case management is furnished to waiver participants (select one):

- Not applicable - Case management is not furnished as a distinct activity to waiver participants.
- Applicable - Case management is furnished as a distinct activity to waiver participants.

Specify: (a) the types of positions (e.g., personal assistants, attendants) for which such investigations must be conducted; (b) the scope of such investigations (e.g., state, national); and, (c) the process for ensuring that mandatory investigations have been conducted. State laws, regulations and policies referenced in this description are available to CMS upon request through the Medicaid or the operating agency (if applicable):

All Autism waiver providers employing persons providing direct services shall not knowingly employ a person who has been found guilty or has pled guilty or nolo contendere to any disqualifying criminal offense.

Each Autism waiver provider must obtain from each employee and from each applicant for employment a signed authorization permitting disclosures to the Autism provider of criminal history information as defined in Ark. Code Ann., Section 12-12-1001.

Each Autism waiver provider receiving payment under the Autism program must, as a condition of continued participation in the Autism program, comply with this rule requiring criminal history checks for new employees, and requiring periodic (at least annually) criminal history checks for all employees. The scope of the criminal background checks is national. This requirement applies to any employee who in the course of employment may have direct contact with an Autism participant. At the time of initial certification and annual re-certification, providers must submit a list of all direct care of services staff and the dates of their last criminal background check.

Before making a temporary or permanent offer of employment, an Autism waiver provider shall inform applicants and employees that continued employment is contingent upon the results of periodic criminal record checks and that the applicant or employee has the right to obtain a copy of the report from the Identification Bureau of the Department of Arkansas State Police.

When a person applies for a position as an employee of an Autism waiver provider and if the Autism provider intends to make an offer of employment to the applicant, the applicant shall complete a criminal history check form furnished by the Autism provider and shall submit the form to the Autism provider as part of the application process. If the Autism provider intends to make an offer of employment to the applicant, the Autism provider shall, within five (5) days of such decision, forward the criminal history check form to the Bureau accompanied by appropriate payment and request the Bureau to review the Bureau's index of criminal history checks on persons caring for the elderly or persons with disabilities. An Autism provider may make an offer of temporary employment to an applicant pending receipt of notification from the Bureau.

If the results of the criminal history check establish that the applicant was found guilty of, or pled nolo contendere (no contest) to a disqualifying offense under Ark. Code. Ann., Section 20-33-205 ("disqualifying offense"), then the Autism waiver provider may not employ, or continue to employ, the applicant. Disqualifying offenses do not include misdemeanors that did not involve exploitation of an adult, abuse of a person, neglect of a person, theft, or sexual contact.

In addition, the Arkansas Medicaid Program requires criminal background checks on all Medicaid providers, regardless of provider type, prior to Medicaid enrollment. This process is accomplished through the state's claims processing contractor.

b. **Abuse Registry Screening.** Specify whether the State requires the screening of individuals who provide waiver services through a State-maintained abuse registry (select one):
No. The State does not conduct abuse registry screening.

Yes. The State maintains an abuse registry and requires the screening of individuals through this registry.

Specify: (a) the entity (entities) responsible for maintaining the abuse registry; (b) the types of positions for which abuse registry screenings must be conducted; and, (c) the process for ensuring that mandatory screenings have been conducted. State laws, regulations and policies referenced in this description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable):

Abuse registry screening of all Autism waiver providers providing intensive intervention services are monitored at initial certification and annual re-certification. This is a required part of the certification and re-certification process. In addition, agency providers must submit a list of all direct care of services staff and dates of their last criminal background checks. Each year, agency providers are recertified and must sign Provider Assurances stating the criminal background checks are performed on their employees. This signed assurance form is maintained in the provider's file.

A central registry check of both the Child Maltreatment and Adult Maltreatment and criminal background checks will be reviewed by Partners during the certification and recertification process.

As part of the provider certification review, the DMS Waiver QA Unit verifies that the provider file contains the list of direct care staff and the dates the criminal background checks were completed.

Appendix C: Participant Services

C-2: General Service Specifications (2 of 3)

c. Services in Facilities Subject to §1616(e) of the Social Security Act. Select one:

- No. Home and community-based services under this waiver are not provided in facilities subject to §1616(e) of the Act.
- Yes. Home and community-based services are provided in facilities subject to §1616(e) of the Act. The standards that apply to each type of facility where waiver services are provided are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Appendix C: Participant Services

C-2: General Service Specifications (3 of 3)

d. Provision of Personal Care or Similar Services by Legally Responsible Individuals. A legally responsible individual is any person who has a duty under State law to care for another person and typically includes: (a) the parent (biological or adoptive) of a minor child or the guardian of a minor child who must provide care to the child or (b) a spouse of a waiver participant. Except at the option of the State and under extraordinary circumstances specified by the State, payment may not be made to a legally responsible individual for the provision of personal care or similar services that the legally responsible individual would ordinarily perform or be responsible to perform on behalf of a waiver participant. Select one:

- No. The State does not make payment to legally responsible individuals for furnishing personal care or similar services.
- Yes. The State makes payment to legally responsible individuals for furnishing personal care or similar services when they are qualified to provide the services.

Specify: (a) the legally responsible individuals who may be paid to furnish such services and the services they may provide; (b) State policies that specify the circumstances when payment may be authorized for the provision of extraordinary care by a legally responsible individual and how the State ensures that the provision of services by a legally responsible individual is in the best interest of the participant; and, (c) the controls that are employed to ensure that payments are made only for services rendered. Also, specify in Appendix C-1/C-3 the personal care or similar services for which payment may be made to legally responsible individuals under the State policies specified here.

e. Other State Policies Concerning Payment for Waiver Services Furnished by Relatives/Legal Guardians. Specify State policies concerning making payment to relatives/legal guardians for the provision of waiver services over and above the policies addressed in Item C-2-d. Select one:

- The State does not make payment to relatives/legal guardians for furnishing waiver services.
- The State makes payment to relatives/legal guardians under specific circumstances and only when the relative/guardian is
qualified to furnish services.

Specify the specific circumstances under which payment is made, the types of relatives/legal guardians to whom payment may be made, and the services for which payment may be made. Specify the controls that are employed to ensure that payments are made only for services rendered. Also, specify in Appendix C-1/C-3 each waiver service for which payment may be made to relatives/legal guardians.

- Relatives/legal guardians may be paid for providing waiver services whenever the relative/legal guardian is qualified to provide services as specified in Appendix C-1/C-3.

Specify the controls that are employed to ensure that payments are made only for services rendered.

- Other policy.

Specify:

f. Open Enrollment of Providers. Specify the processes that are employed to assure that all willing and qualified providers have the opportunity to enroll as waiver service providers as provided in 42 CFR §431.51:

Autism provider enrollment is open and continuous. Any individual or agency interested in becoming an Autism provider can contact PARTNERS for information and to obtain certification materials. There are no restrictions applicable to requesting this information.

The provider certification process is open and available to any interested party. All providers must meet the state's certification requirements and the Arkansas Medicaid enrollment criteria. Requirements for certification by PARTNERS are detailed in all provider certification applications. Medicaid enrollment requirements are detailed in the Medicaid provider contact, which is included in the application packet.

Potential providers are allotted as much time as needed to complete the certification materials. Once the provider certification application packet is complete and correct, PARTNERS processes applications and forwards them to the Medicaid fiscal agent responsible for provider enrollment functions, for Medicaid enrollment. Providers must be recertified each year.

Appendix C: Participant Services

Quality Improvement: Qualified Providers

As a distinct component of the State’s quality improvement strategy, provide information in the following fields to detail the State’s methods for discovery and remediation.

a. Methods for Discovery: Qualified Providers

The state demonstrates that it has designed and implemented an adequate system for assuring that all waiver services are provided by qualified providers.

i. Sub-Assurances:

a. **Sub-Assurance: The State verifies that providers initially and continually meet required licensure and/or certification standards and adhere to other standards prior to their furnishing waiver services.**

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance, complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.  

PARTNERS issues provider certifications for one year; providers must be recertified annually. Providers must supply a copy of all applicable licenses and certificates as proof of certification. Chart reviews assure that certification remains current. All providers must be certified by PARTNERS and enrolled as Medicaid providers.

The state identifies and rectifies situations where providers do not meet requirements. Through monitoring certification expiration dates within MMIS and continuing communication with the Medicaid fiscal agent responsible for provider enrollment functions, monthly reports are reviewed to identify providers whose participation is terminated for inactivity or violations. Participation in provider training is documented and monitored with monthly activity reports.

The state verifies that providers meet required certification standards and adhere to other state standards periodically. PARTNERS staff maintains a database to trace certification dates of all participating and active providers.

Each month the provider choice list is updated to identify providers who are new, continuing or who have been reinstated in the Autism waiver program. The parents will be presented with a provider choice list for Intensive Autism Intervention services providers at each assessment and reassessment to give clients a free choice of providers for each service included in the plan of care. This choice will remain in place until such time as the parent chooses to change. A parent can change providers at any point. Since there is only one provider for the Consultative Clinical and Therapeutic Services, the parent will be made aware of who will provide this service and advised that there is no choice available.

Training requirements are explained in the provider assurances and signed by each provider. In addition, PARTNERS staff is responsible for contacting new providers within the first 30 days of new enrollment to provide information regarding proper referrals, eligibility criteria, documentation requirements, forms, reporting, general information about the Autism waiver, Section II of the Autism Medicaid provider manual, claims processing problems, etc. Within three months of appearing on the provider choice list, PARTNERS staff must meet with each new provider face-to-face to discuss all of the above and any problems noted by the provider within the first three months of program participation.

PARTNERS staff must contact each established provider twice per year, either face-to-face or via telephone, to discuss any problems, program policy or general information.

PARTNERS must schedule at least two in-services per year with all new and established providers. The in-service must be a scheduled meeting with an agenda, sign-in sheet, evaluation, etc. that discusses at a minimum all of the information above.

The Medicaid fiscal agent provides PARTNERS access to Provider Certification Status. This data is reviewed monthly and compared with PARTNERS provider database and provides a second monitoring tool for compliance.

The Medicaid contract signed by each waiver provider states compliance with required enrollment criteria is mandatory. Failure to maintain required certification results in loss of their Medicaid provider activity. Each provider is notified in writing at least two months and again 30 days prior to the certification expiration date that renewal is due and failure to maintain proper certification will result in loss of Medicaid enrollment.

Provider assurances signed by each provider prior to certification and at each recertification includes quality controls regarding orientations. The provider agrees to require staff to attend orientation training prior to allowing the employee to deliver any waiver service. This orientation shall include, but not be limited to, descriptions of the purpose and philosophy of the Autism Waiver program; discussion and distribution of the provider agency’s written code of ethics; activities which shall and shall not be performed by the employee; instructions regarding Autism Waiver record keeping requirements; the importance of the plan of care; procedures for reporting changes to the client’s condition; discussion, including potential legal ramifications of the client’s right to confidentiality.
All waiver providers are responsible for all provider requirements as detailed in Sections II of the Autism Waiver Medicaid Provider Manual. Section I of the Autism Waiver Medicaid Provider Manual (specifically Sections 140 and 150) details all provider participation requirements, and penalties/sanctions applicable for non-compliance that are applicable to all provider types.

The Division of Medical Services (DMS) QA audit reflects internal review of the billing process by Medicaid providers of the Autism Waiver. The DMS performs 100% review of all active providers.

b. Methods for Remediation/Fixing Individual Problems
   i. Describe the State’s method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.

   PARTNERS and DMS participate in quarterly team meetings to discuss and address individual problems related to qualified providers, as well as problem correction and remediation. PARTNERS and DMS have an Interagency Agreement that includes measures related to the qualified providers that are certified to provide services under the waiver.

   PARTNERS requires that all providers obtain recertification annually in order to continue providing services. In cases where providers are not recertified, PARTNERS remediation includes certifying the provider upon discovery that the provider was not recertified, closing the provider, recouping payment for services provided after certification expired and allowing the client to choose another provider.

   Upon certification and recertification, providers are required to sign Provider Assurances, which include assurances that the agency will provide to its employees the required amount and type of training needed to provide Autism Waiver services. If the provider neglects to sign this form, PARTNERS will deny the provider's certification or recertification. In some cases, DMS will impose provider sanctions on those failing to meet this requirement.

   ii. Remediation Data Aggregation
       Remediation-related Data Aggregation and Analysis (including trend identification)

Appendix C: Participant Services

C-3: Waiver Services Specifications

Section C-3 'Service Specifications' is incorporated into Section C-1 'Waiver Services.'
Appendix C: Participant Services

C-4: Additional Limits on Amount of Waiver Services

a. **Additional Limits on Amount of Waiver Services.** Indicate whether the waiver employs any of the following additional limits on the amount of waiver services (*select one*).

- **Not applicable** - The State does not impose a limit on the amount of waiver services except as provided in Appendix C-3.
- **Applicable** - The State imposes additional limits on the amount of waiver services.

When a limit is employed, specify: (a) the waiver services to which the limit applies; (b) the basis of the limit, including its basis in historical expenditure/utilization patterns and, as applicable, the processes and methodologies that are used to determine the amount of the limit to which a participant's services are subject; (c) how the limit will be adjusted over the course of the waiver period; (d) provisions for adjusting or making exceptions to the limit based on participant health and welfare needs or other factors specified by the state; (e) the safeguards that are in effect when the amount of the limit is insufficient to meet a participant's needs; (f) how participants are notified of the amount of the limit. (*check each that applies*)

- **Limit(s) on Set(s) of Services.** There is a limit on the maximum dollar amount of waiver services that is authorized for one or more sets of services offered under the waiver.

  Furnish the information specified above.

- **Prospective Individual Budget Amount.** There is a limit on the maximum dollar amount of waiver services authorized for each specific participant.

  Furnish the information specified above.

- **Budget Limits by Level of Support.** Based on an assessment process and/or other factors, participants are assigned to funding levels that are limits on the maximum dollar amount of waiver services.

  Furnish the information specified above.

- **Other Type of Limit.** The State employs another type of limit.

  Describe the limit and furnish the information specified above.

  The services are limited to 3 years.
  (a) the waiver services to which the limit applies
  • Consultative Clinical and Therapeutic Services
  • Individual Assessment/ Treatment Development/ Training/ Monitoring
  • Lead Therapy Intervention
  • Line Therapy Intervention

  (b) the basis of the limit, including its basis in historical expenditure/utilization patterns and, as applicable, the processes and methodologies that are used to determine the amount of the limit to which a participant’s services are subject

  The services are limited to 3 years because research indicates that when young children receive 2 – 3 years of intensive services, as designed in this waiver program, the gains are significant. A review of existing programs in Wisconsin, Colorado, South Carolina and Montana and research by the Operating Agency (Partners) found that early, intense intervention programs with children 18 months through 6 years of age provided the best outcomes and would prevent or lessen the need for future Medicaid services. The overwhelming body of research on intensive intervention for children with autism indicates that these services are most effective when provided to preschool age children and that intensive treatment produced a significant increase in new skill acquisition for children between 2 and 7 years of age.

  (c) how the limit will be adjusted over the course of the waiver period

  At the end of the initial 3-year waiver program period, the Operating Agency (Partners) and the Medicaid Agency (DMS) will determine the feasibility of renewing the waiver program based on the results of the initial 3-year period.

  (d) provisions for adjusting or making exceptions to the limit based on participant health and welfare needs or other factors specified by the state

  If at the end of the 3-year limit on the waiver services, the child needs additional services, the child will be transitioned to a different model of services provided through the educational system and provided information regarding application to the DDS-ACS waiver.

https://wms-mmdl.cdsvdc.com/WMS/faces/protected/35/print/PrintSelector.jsp
Appendix C: Participant Services

C-5: Home and Community-Based Settings

Explain how residential and non-residential settings in this waiver comply with federal HCB Settings requirements at 42 CFR 441.301(c)(4)-(5) and associated CMS guidance. Include:

1. Description of the settings and how they meet federal HCB Settings requirements, at the time of submission and in the future.

2. Description of the means by which the state Medicaid agency ascertains that all waiver settings meet federal HCB Setting requirements, at the time of this submission and ongoing.

Note instructions at Module 1, Attachment #2, HCB Settings Waiver Transition Plan for description of settings that do not meet requirements at the time of submission. Do not duplicate that information here.

This waiver utilizes no residential settings. All of the non-residential settings meet the new definition because they are all natural community settings that provide inclusive opportunities for the children with Autism served by this waiver. The settings include locations such as the child’s home, his church, places where the family shops, restaurants, ball parks, etc. There are no segregated settings utilized in this program.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (1 of 8)

State Participant-Centered Service Plan Title:
Autism Waiver Plan of Care

a. Responsibility for Service Plan Development. Per 42 CFR §441.301(b)(2), specify who is responsible for the development of the service plan and the qualifications of these individuals (select each that applies):

- Registered nurse, licensed to practice in the State
- Licensed practical or vocational nurse, acting within the scope of practice under State law
- Licensed physician (M.D. or D.O)
- Case Manager (qualifications specified in Appendix C-1/C-3)
- Case Manager (qualifications not specified in Appendix C-1/C-3).

Specify qualifications:

- Social Worker

Specify qualifications:

- Other

Specify the individuals and their qualifications:

Autism Waiver Coordinators, employed by PARTNERS, will have a minimum of a master's degree in Psychology, Nursing, Speech-Language Pathology, Education or related field plus two years experience associated with provision of services to children with autism
Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (2 of 8)

b. Service Plan Development Safeguards. Select one:

- Entities and/or individuals that have responsibility for service plan development may not provide other direct waiver services to the participant.
- Entities and/or individuals that have responsibility for service plan development may provide other direct waiver services to the participant.

The State has established the following safeguards to ensure that service plan development is conducted in the best interests of the participant. Specify:

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (3 of 8)

c. Supporting the Participant in Service Plan Development. Specify: (a) the supports and information that are made available to the participant (and/or family or legal representative, as appropriate) to direct and be actively engaged in the service plan development process and (b) the participant's authority to determine who is included in the process.

During the planning process, the parent/guardian of the child, caregivers, professional service providers and others of the parent/guardian's choosing may provide input. The information obtained will be used by the Autism Waiver Coordinator, employed by PARTNERS, to develop the Plan of Care (POC) in collaboration with the parent/guardian. The parent/guardian will receive a copy of the POC upon completion. Copies will be provided to others who participated in its development at the parent/guardian's request. Copies will also be provided to the provider agency selected by the parent/guardian to implement the services and to the Consultative Clinical and Therapeutic Services provider.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (4 of 8)

d. Service Plan Development Process. In four pages or less, describe the process that is used to develop the participant-centered service plan, including: (a) who develops the plan, who participates in the process, and the timing of the plan; (b) the types of assessments that are conducted to support the service plan development process, including securing information about participant needs, preferences and goals, and health status; (c) how the participant is informed of the services that are available under the waiver; (d) how the plan development process ensures that the service plan addresses participant goals, needs (including health care needs), and preferences; (e) how waiver and other services are coordinated; (f) how the plan development process provides for the assignment of responsibilities to implement and monitor the plan; and, (g) how and when the plan is updated, including when the participant's needs change. State laws, regulations, and policies cited that affect the service plan development process are available to CMS upon request through the Medicaid agency or the operating agency (if applicable):

The Plan of Care (POC) is developed by the Autism Waiver Coordinator in collaboration with the parent/guardian based on the assessment of the waiver participant's strengths/needs and the parent/guardian's preferences. The strengths/needs of the participant will be assessed through use of instruments such as the Vineland Adaptive Behavior Scales, Second Edition (Vineland-II) and the Temperament and Atypical Behavior Scale (TABS) both of which will be a part of the child's assessment battery for determining Level of Care eligibility. The Vineland-II provides detailed information regarding the child's strengths and weaknesses in areas including communication, daily living skills, socialization, motor skills and maladaptive behavior. The TABS provides additional detail regarding atypical behavior by assessing four categories of behavior: detached, hypersensitive-active, under reactive and dysregulated. Since the parent/guardian is the primary informant for completion of these assessments, the parent/guardian's perspective and concerns will be central to the discussion with the Autism Waiver Coordinator during plan development.

The POC is developed prior to the delivery of a waiver service and must be updated at least annually.

Parents/guardians are informed at the time of enrollment of the services offered through the autism waiver. If there are amendments to the waiver that impact the services available, the updated information will be provided to all participants at such time as amendments are approved and ready for implementation.

Participation by parents/guardians, knowledgeable professionals, and others of the parent/guardian's choosing in the planning process assures that the POC addresses the individualized needs of the child. The plan will include a statement of the child's need, the service(s) to meet the need, the amount, frequency and duration of the service and the type of provider who will furnish the service.

The POC will include roles and responsibilities of the Autism Waiver Coordinator, the Consultative Clinical and Therapeutic Services

https://wms-mmdl.cdsyvc.com/WMS/faces/protected/35/print/PrintSelector.jsp
Specialist (also referred to as the Clinical Services Specialist), and the parent/guardian for the services included in the plan. The Autism Waiver Coordinator will have primary responsibility for coordinating the services but must rely on the parent/guardian to choose a service provider from among those available and participate fully in the intervention by complying with the terms of the Parent/Guardian Participation Agreement. This agreement will outline specific participation requirements to be fulfilled by the parent/guardian with a minimum of fourteen hours per week required as a condition of participation in the program. The Clinical Services Specialist will be primarily responsible for providing independent review of implementation of the Individual Treatment Plan developed by the Consultant.

Parents will be required to complete at a minimum 14 hours of participation in the therapy services. The 14 hours required of parents includes times and routines that will be agreed upon between the parent and the provider and delineated specifically as part of the intervention plan. The specific activities/strategies will be individualized for each child and outlined in the plan. Training will be provided to the parents by the provider to equip the parent to fulfill this requirement.

At a minimum, the Autism Waiver Coordinator (Partners) will have monthly contact with a member of the intervention team (Consultant, Lead Therapist, Line Therapist, and/or parent/guardian) either face-to-face or by phone. At a minimum, the Clinical Services Specialist will conduct fidelity reviews to determine appropriate implementation of the strategies included in the child's POC. Ongoing contact will be scheduled as appropriate given the needs of the team. Teams who are struggling to meet fidelity will have more frequent contact. On-site refers to in-home and community settings. The location will be primarily the child’s home but other community locations, identified by the parent, such as the park, grocery store, church, etc. might be included. Specific locations will be selected based on the skills and behaviors of the child that need to be targeted. If either of these individuals determine that there are problems with the treatment, contact will be made with the Consultant who designed the treatment plan and the intervention team members as appropriate. If any members of the team report that the Parent/Guardian Participation Agreement is not being followed, a meeting with the parent/guardian will be scheduled to review the terms for participation in the program, explain the consequences of failing to comply with the terms of participation, and develop a plan detailing the deadline for compliance with the terms of participation. This meeting will be documented as an attachment to the Parent/Guardian Participation Agreement. If the parent/guardian fails to meet the deadline for compliance or chooses not to participate according to the terms of the agreement, the child will be removed from the program following a 10 day notice.

Participants may be involuntarily disenrolled in cases where failure to participate in the program occurs since without parental participation there is a risk of ineffective treatment and potential jeopardy for health and welfare of the waiver participant. Each case will be evaluated on a case-by-case basis. This decision will be made as a joint decision by the Autism Waiver Coordinator and the Clinical Services Specialist only after the parent/guardian has been counseled and offered an opportunity for corrective action. This counseling will occur during an on-site visit with the parent/guardian and will be documented on the Parental Participation Agreement Form. If the treatment plan or schedule for delivery of services can be modified to better facilitate program participation, the Autism Waiver Coordinator and parent/guardian will make such adjustments. The Autism Waiver Coordinator will then forward the modifications to the agency providing the child’s services.

The following circumstances may result in involuntary disenrollment:
• Failure to provide information on the child that is needed for development of the treatment plan (strengths, weaknesses, behaviors, etc.)
• Failure to attend training on the child’s treatment plan provided by the Consultant
• Failure to meet scheduled appointments for delivery of therapy
• Failure to implement treatment strategies in accordance with the treatment plan

Changes to the POC will be made as needed by the Autism Waiver Coordinator when the results of the monitoring or when information obtained from the parent/guardian or members of the treatment team indicates the need for a change. A copy of the revised POC will be provided to the parent/guardian, the Consultant, and the Clinical Services Specialist.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (5 of 8)

e. Risk Assessment and Mitigation. Specify how potential risks to the participant are assessed during the service plan development process and how strategies to mitigate risk are incorporated into the service plan, subject to participant needs and preferences. In addition, describe how the service plan development process addresses backup plans and the arrangements that are used for backup.

The child's needs, including potential risks, will be assessed during the planning process and considered during the development of the Plan or Care and the subsequent Individual Treatment Plan. The Treatment Plan will include a section for emergency intervention as well as preventive strategies to avoid emergencies and deescalate behaviors that could potentially lead to emergencies. These intervention strategies will focus on positive approaches to supporting appropriate behavior, thus avoiding the use of restraint, seclusion and other punitive practices. Since the parent/guardian will be present and actively involved in the treatment provided through this waiver, his/her relationship and intimate knowledge of the child will be utilized to avoid emergency situations.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (6 of 8)

f. Informed Choice of Providers. Describe how participants are assisted in obtaining information about and selecting from among

https://wms-mmml.cdsytc.com/WMS/faces/protected/35/print/PrintSelector.jsp
Parents/guardians will be provided a list of all available waiver providers from which they will be able to select the provider of their choice. The list will include contact person's names and telephone numbers. In situations where there are multiple providers available, parents/guardians will be encouraged to contact providers or further research the experience/reputation of these providers to make an informed choice. The parent/guardian's choice of provider will be documented on the Plan of Care.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (7 of 8)

g. Process for Making Service Plan Subject to the Approval of the Medicaid Agency. Describe the process by which the service plan is made subject to the approval of the Medicaid agency in accordance with 42 CFR §441.301(b)(1)(i):

The plan of care document and description of the planning process will be approved by the Medicaid agency prior to implementation. Copies of individual plans will be available upon request.

Appendix D: Participant-Centered Planning and Service Delivery

D-1: Service Plan Development (8 of 8)

h. Service Plan Review and Update. The service plan is subject to at least annual periodic review and update to assess the appropriateness and adequacy of the services as participant needs change. Specify the minimum schedule for the review and update of the service plan:

- Every three months or more frequently when necessary
- Every six months or more frequently when necessary
- Every twelve months or more frequently when necessary
- Other schedule
  Specify the other schedule:

i. Maintenance of Service Plan Forms. Written copies or electronic facsimiles of service plans are maintained for a minimum period of 3 years as required by 45 CFR §92.42. Service plans are maintained by the following (check each that applies):

- Medicaid agency
- Operating agency
- Case manager
- Other
  Specify:

Appendix D: Participant-Centered Planning and Service Delivery

D-2: Service Plan Implementation and Monitoring

a. Service Plan Implementation and Monitoring. Specify: (a) the entity (entities) responsible for monitoring the implementation of the service plan and participant health and welfare; (b) the monitoring and follow-up method(s) that are used; and, (c) the frequency with which monitoring is performed.

At a minimum, the Autism Waiver Coordinator will have monthly contact with a member of the intervention team (Consultant, Lead Therapist, Line Therapist, and/or parent/guardian) either face-to-face or by phone. If there are problems identified, contact will be made with the Consultant who designed the intervention plan to address the issue(s). All contacts will be documented as case notes in the child's file maintained at PARTNERS.

Additionally, the Individual Treatment Plan will be monitored by the Clinical Services Specialist, a professional independent of both the provider agency delivering the intensive intervention and the administrative agency. This professional will review for programmatic fidelity, data accuracy, use of evidence-based interventions and child progress. If the Clinical Services Specialist identifies problems with the implementation of the treatment plan, those issues will be addressed with the appropriate member(s) of the intervention team. If the identified issues are related to program compliance (for example, lack of provision of services identified in the plan, use of unqualified providers, failure to cooperate with terms of Parent/Guardian Participation Agreement) the Clinical Services Specialist will

https://wms-nmddl.cdsvdcc.com/WMS/faces/protected/35/print/PrintSelector.jsp
The plan of care (service plan) and the treatment plan are two different documents. The plan of care (POC) will be developed by the Operating Agency’s Autism Waiver Coordinators and will address issues around the provision of services such as amount, frequency and duration of both waiver services and state plan services; client’s risks and goals; client’s choice of services and providers; contact person and emergency backup plans and appropriate signatures. The plan of care is focused on the services and who will provide them.

The individual treatment plan will be developed by the Consultant following a thorough evaluation of the child and will include the following: specific treatment goals and objectives in domains such as communication/language, socialization, self-care/self-regulation, and cognition as well as detailed instructions for implementation and data collection. Additionally the treatment plan will include the results of a functional analysis of behavior, a positive behavior supports plan for maladaptive behavior, and a behavioral reinforcer survey, if needed. It will also include the good(s) to be implemented by the parent/guardian. This plan is focused on the specifics of the treatment/intervention for the child that comes as a result of the POC.

Since the parent will be present during the intervention in this program, there is no risk that the child will be unattended if there is an emergency that prevents the Line Therapist from keeping the appointment for the treatment. Also, since this is a tiered service, the Lead Therapist could be scheduled to cover for the Line Therapist if situations where the Line Therapist is unable to maintain an appointment time. As an additional back-up strategy, the parent is required to participate in this program with a minimum of 14 hours of intervention per week. This intervention could occur during a time when the Line Therapist is unavailable so the child continues to receive the treatment. Since the Line Therapist, Lead Therapist and parent are all trained in implementation of the treatment by the Consultant, substitution of personnel will still allow the child to receive appropriate intervention.

Participants’ needs, including potential risks associated with their situations, are assessed during the planning process and considered during plan development. The Plan includes a section for a description of the plan to be implemented during an emergency or natural disaster and a description for how care will be provided in the unexpected absence of a caregiver/supporter.

b. Monitoring Safeguards. Select one:

- Entities and/or individuals that have responsibility to monitor service plan implementation and participant health and welfare may not provide other direct waiver services to the participant.
- Entities and/or individuals that have responsibility to monitor service plan implementation and participant health and welfare may provide other direct waiver services to the participant.

The State has established the following safeguards to ensure that monitoring is conducted in the best interests of the participant. Specify:

Appendix D: Participant-Centered Planning and Service Delivery

Quality Improvement: Service Plan

As a distinct component of the State’s quality improvement strategy, provide information in the following fields to detail the State’s methods for discovery and remediation.

a. Methods for Discovery: Service Plan Assurance/Sub-assurances

The state demonstrates it has designed and implemented an effective system for reviewing the adequacy of service plans for waiver participants.

i. Sub-Assurances:

a. Sub-assurance: Service plans address all participants’ assessed needs (including health and safety risk factors) and personal goals, either by the provision of waiver services or through other means.

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.
Performance Measure:  
Number and percent of participants reviewed who had service plans that addressed risk factors.  
Numerator: number of participants service plans that address risk factors; Denominator: number of records reviewed.

c. **Sub-assurance:** Service plans are updated/revised at least annually or when warranted by changes in the waiver participant’s needs.

**Performance Measures**

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

**Performance Measure:**
Number and percent of service plans that were reviewed and revised as warranted on or before waiver participant's annual review date. Numerator: number of participant's service plans that were reviewed and revised before annual review date; Denominator: number of records reviewed.

**Data Source** (Select one):

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

The state currently operates a system of review that assures completeness, appropriateness, accuracy and freedom of choice. This system focuses on client-centered service planning and delivery, client rights and responsibilities, and client outcomes and satisfaction.

Individual charts are reviewed by PARTNERS for completeness and accuracy and resulting data is made available for the production of the Chart Review Summary Report. A DMS QA audit is also conducted from a review of a random sampling of reports, to confirm that service plans are updated and revised as warranted by changes in the client's needs.

The state also uses billing data from MMIS to compare with the random review of approved individualized plans of care to check for amount, duration and frequency of services rendered.

Charts are reviewed to assure that a Freedom of Choice form was presented to the client, that provider assurances against coercion and solicitation have been signed, and that a complete list of providers has been made available to the client.

Chart reviews of the overall program files are thorough and include a review of all required documentation regarding compliance with the plan of care development assurance and plan of care delivery. Reviews include, but are not limited to completeness of the plan of care; timeliness of the plan of care developments process; appropriateness of all medical and non-medical services; consideration of clients in the plan of care development process; clarity and consistency; compliance with program policy regarding all aspects of plan of care development, changes and renewal.

Some measures have multiple factors that are reviewed to determine if the area is in compliance. These measures are directly related to the CMS waiver assurance areas.

PARTNERS staff monitor 25% of their active caseload on an annual basis. This process also provides an additional level of service plan review for compliance and service delivery. PARTNERS reviews the recipient profiles from MMIS on a quarterly basis. This profile is compared to the plan of care and reviewed for lack of service billing, under utilization or overpayment, and appropriate provider of services. The Quarterly Recipient Profiles process is a completely separate process from the chart review process reflected in the Annual Report. It provides an additional monitoring tool utilized to verify plan of care compliance and appropriate billing practices. Discrepancies are identified, changes are made as necessary and proper action is taken.

The State Medicaid Agency, DMS, assures compliance with the service plan subassurances through a review of random sample of all active waiver participants' case records. Reference performance measures three and four under Appendix A, under administrative authority.

b. Methods for Remediation/Fixing Individual Problems
i. Describe the State’s method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items. PARTNERS and DMS participate in quarterly team meetings to discuss and address individual problems related to plan of care, as well as problem correction and remediation. PARTNERS and DMS have an Interagency Agreement that includes measures related to the plans of care as part of the waiver.

In cases where clients' plans of care are inadequate or inappropriate, do not address clients' personal goals or risk factors, are not completed as described in the waiver application, and are not reviewed or revised as needed, PARTNERS remediation includes revising the plan of care accordingly and providing additional training to staff who complete plans of care. This remediation also applies when clients do not receive the type, scope, frequency and duration of services as specified in the plan of care, or when clients are not offered choice between institutional care and waiver services and among waiver services when the plan of care is developed. In addition, the plan of care form includes information on the client's personal goals, risks and choices (between and among institutional care and waiver services, and among waiver services), and completeness of this form is checked during the chart review process.

If a client's record does not include a completed and signed Freedom of Choice form indicating that a choice of providers was offered, PARTNERS remediation includes completing the Freedom of Choice form accordingly and additional staff training in this area.

The tool used to review waiver client's record captures and tracks remediation in these areas.

c. Timelines
When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Service Plans that are currently non-operational.

☐ No
Yes

Please provide a detailed strategy for assuring Service Plans, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix E: Participant Direction of Services

Applicability (from Application Section 3, Components of the Waiver Request):

- Yes. This waiver provides participant direction opportunities. Complete the remainder of the Appendix.
- No. This waiver does not provide participant direction opportunities. Do not complete the remainder of the Appendix.

CMS urges states to afford all waiver participants the opportunity to direct their services. Participant direction of services includes the participant exercising decision-making authority over workers who provide services, a participant-managed budget or both. CMS will confer the Independence Plus designation when the waiver evidences a strong commitment to participant direction.

Indicate whether Independence Plus designation is requested (select one):

- Yes. The State requests that this waiver be considered for Independence Plus designation.
- No. Independence Plus designation is not requested.
Answers provided in Appendix E-0 indicate that you do not need to submit Appendix E.

Appendix F: Participant Rights

Appendix F-1: Opportunity to Request a Fair Hearing

The State provides an opportunity to request a Fair Hearing under 42 CFR Part 431, Subpart E to individuals: (a) who are not given the choice of home and community-based services as an alternative to the institutional care specified in Item 1-F of the request; (b) are denied the service(s) of their choice or the provider(s) of their choice; or, (c) whose services are denied, suspended, reduced or terminated. The State provides notice of action as required in 42 CFR §431.210.

Procedures for Offering Opportunity to Request a Fair Hearing. Describe how the individual (or his/her legal representative) is informed of the opportunity to request a fair hearing under 42 CFR Part 431, Subpart E. Specify the notice(s) that are used to offer individuals the opportunity to request a Fair Hearing. State laws, regulations, policies and notices referenced in the description are available to CMS upon request through the operating or Medicaid agency.

Waiver participants are advised on the DCO-700 (Notice of Action) or the system-generated Notice of Action of their right to appeal when adverse action is taken to deny, suspend, reduce or terminate services. The notice is issued by the Division of County Operations (DCO). The notice explains the participant's right to a fair hearing, how to file for a hearing, and the participant's right to representation. Notices of adverse actions and the opportunity to request a fair hearing are kept in the participant's eligibility case record. If the participant files for a fair hearing during the advanced notice period, services may continue at the participant's request until a decision is made on the appeal. If the findings of the appeal are not in the participant’s favor, and the participant had elected the continuation of benefits, the participant will owe the State of Arkansas restitution through an overpayment.

During the initial and annual recertification process, PARTNERS explains to the participant the choice of home and community-based services vs. institutional services, the waiver participant is provided with a program brochure which also includes instructions for filing an appeal.

Assistance in the fair hearing process is available via the HCBS Ombudsman, targeted case manager, representative, if applicable, and legal aide.

Appendix F: Participant-Rights

Appendix F-2: Additional Dispute Resolution Process

a. Availability of Additional Dispute Resolution Process. Indicate whether the State operates another dispute resolution process that offers participants the opportunity to appeal decisions that adversely affect their services while preserving their right to a Fair Hearing. Select one:

- ☐ No. This Appendix does not apply
- ☑ Yes. The State operates an additional dispute resolution process

b. Description of Additional Dispute Resolution Process. Describe the additional dispute resolution process, including: (a) the State agency that operates the process; (b) the nature of the process (i.e., procedures and timeframes), including the types of disputes addressed through the process; and, (c) how the right to a Medicaid Fair Hearing is preserved when a participant elects to make use of the process: State laws, regulations, and policies referenced in the description are available to CMS upon request through the operating or Medicaid agency.
a. **Operation of Grievance/Complaint System. Select one:**

- ☐ No. This Appendix does not apply
- ☐ Yes. The State operates a grievance/complaint system that affords participants the opportunity to register grievances or complaints concerning the provision of services under this waiver

b. **Operational Responsibility.** Specify the State agency that is responsible for the operation of the grievance/complaint system:

The operating agency, Partners is responsible for complaints pertaining to the Autism waiver.

c. **Description of System.** Describe the grievance/complaint system, including: (a) the types of grievances/complaints that participants may register; (b) the process and timelines for addressing grievances/complaints; and, (c) the mechanisms that are used to resolve grievances/complaints. State laws, regulations, and policies referenced in the description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Complaints are resolved expeditiously as received by the appropriate party. The type of complaint determines how the complaint is handled. Complaints concerning abuse and neglect are routed to the Child Protective Services Unit immediately for appropriate action. Complaints about provider staff not providing the services required and complaints about how the waiver operates are reviewed by the PARTNERS administrative staff to determine if there is a problem and whether the issue can be resolved based on laws, regulations and policies. Complaints are recorded by the party receiving the information.

Every effort is made to resolve the issue as quickly as possible, but must be resolved within 30 business days from the date the complaint was made. A follow-up call or correspondence is made with the reporter, if appropriate, to discuss how the issue was resolved without violating confidentiality rules. The participant or his/her representative is informed of his/her right to appeal any decision and that filing a complaint is not a prerequisite or substitute for a fair hearing.

A complaint database is designed to register any type of complaint, related to the waiver, from any source. Waiver participants and others may register complaints by calling a toll-free number or in writing to PARTNERS.

Based on the data entered, the complaint can be 1.) tracked by type of complaint (service, provider, etc.); 2.) tracked by complaint source (participant, county office, family, etc.); and 3.) monitored for trends, action taken to address complaint, access, quality of care, health and welfare. The complaint database provides a means to address any type complaint filed by any source.

PARTNERS staff enters information pertaining to complaints made by participants against providers providing services to them, against DHS county offices pertaining to their financial eligibility determination, against waiver operating agency staff or targeted case managers working with them, or participants’ complaints pertaining to their medical need/level of care eligibility determination. Information that is entered into the database includes the complaint source and his/her contact information, participant information, person or provider for whom the complaint is being made against, the person who received the complaint, the person to whom the complaint is assigned for investigation, the complaint being made, and the action taken relative to investigation findings. The following reports can be generated from this database:

1.) Complaint Report for each complaint received;

2.) Completed complaint processing form for each complaint received.

3.) Complaints received listing person/provider names sorted by date received;

4.) Listing of complaints received for specific providers sorted by date received;

5.) Total counts per provider of complaints received sorted alphabetically by provider name;

6.) Total counts of complaints received grouped by month/year;

7.) Total counts of complaints received by county;

8.) Total counts of complaints received for waiver providers grouped by service name;

9.) Total counts of complaints received for specific providers;

10.) Complaints completed listing names/providers for whom/which the complaints have been made grouped by waiver service name;

11.) Provider totals of complaints completed sorted alphabetically by provider name;

12.) Total counts of complaints completed grouped by month/year.

The complaint database was developed for tracking complaints; providing trends; and monitoring access, quality of care, health, and welfare.
Appendix G-1: Response to Critical Events or Incidents

a. Critical Event or Incident Reporting and Management Process. Indicate whether the State operates Critical Event or Incident Reporting and Management Process that enables the State to collect information on sentinel events occurring in the waiver program. Select one:

- Yes. The State operates a Critical Event or Incident Reporting and Management Process (complete Items b through e)
- No. This Appendix does not apply (do not complete Items b through e)

If the State does not operate a Critical Event or Incident Reporting and Management Process, describe the process that the State uses to elicit information on the health and welfare of individuals served through the program.

b. State Critical Event or Incident Reporting Requirements. Specify the types of critical events or incidents (including alleged abuse, neglect and exploitation) that the State requires to be reported for review and follow-up action by an appropriate authority, the individuals and/or entities that are required to report such events and incidents and the timelines for reporting. State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

The focal point for incident management in Arkansas is Child Protective Services (CPS), which is located in the Division of Children and Family Services (DCFS). CPS works with a legislatively mandated to accept reports, investigate, substantiate and resolve incidents of abuse, neglect and exploitation of children in Arkansas. All waiver staff, providers and their staff and anyone receiving reimbursement for work with a Medicaid participant are identified in the law at Arkansas Code Title 12 Chapter 18, the Child Maltreatment Act, as mandatory reporters. Mandatory reporters are required by the law to report incidents immediately.

The Department of Human Services (DHS) has a department-wide database to report incidents throughout the ten Divisions (including the Division of Developmental Disabilities Services, Division of Medical Services, Division of Children and Family Services, Division of County Operations and others) that affect the health and welfare of program participants. This Incident Reporting System (IRIS) is used to document incidents in real time and has the ability to generate management reports quickly and efficiently. Incidents that have, or are expected to, receive media attention are to be reported via telephone to the DHS Communications Director within one hour, regardless of the hour. Incidents regarding suicide, death from adult abuse, maltreatment or exploitation, or serious injury are to be reported to the DHS Chief Counsel via telephone within one hour, regardless of the hour. An investigation must begin within two business days of the incident following DHS Policy 11060. A formal report on IRIS must be submitted no later than the end of the second business day following the incident.

The Arkansas Child Maltreatment Hotline must accept reports of alleged maltreatment. If the nature of a child maltreatment report (Priority I or II) suggests that a child is in immediate risk, the investigation will begin immediately or as soon as possible. DCFS has jurisdiction to investigate all cases of child maltreatment in conjunction with Arkansas State Police Crimes Against Children Division (CACD) who is responsible to assess most Priority I allegations of child maltreatment. DCFS is responsible for ensuring the health and safety of the children even if the primary responsibility for the investigation belongs to CACD. The DHS County Supervisor/designee assigns the report to a Family Service Worker(s) or a Unit Group who will conduct the assessment. The Family Service Worker will begin the Child Maltreatment Assessment immediately and no later than 24 hours after receipt of report by the Hotline, if severe maltreatment (Priority I) is indicated. All other Child Maltreatment Assessments must be within 72 hours of the report. A Health and Safety Assessment is completed in conjunction with the Child Maltreatment Assessment. An investigative determination shall be made within thirty days. If the circumstances of the child present an immediate danger of severe maltreatment, the Family Service Worker will take the child into protective custody for up to 72 hours. The Operating Agency (Partners) reviews and evaluates all incident reports involving a participant in the Autism Waiver to ensure correct procedures and time frames are followed. In the event DHS provider staff has failed to notify proper authorities such as the Child Abuse Hotline, or the police department, the Operating Agency (Partners) will ensure the notifications are made immediately. If an incident warrants investigation, the Operating Agency (Partners) will investigate and submit findings of the review to the DMS. The Operating Agency (Partners) notifies the Autism Waiver Provider involved.

The provider is required to submit a plan of correction to the Operating Agency (Partners), and the DMS Quality Assurance staff. The Operating Agency (Partners) and DMS will perform necessary follow-up to monitor progress toward compliance.

Deaths and critical incidents are reported as received by the Operating Agency (Partners) to the DMS Quality Assurance.

Incidents are reported using the IRIS system, the Child Abuse Hotline or the Incident Report Form DHS 1910. The Incident Report Form DHS 1910 is used in the absence of computer transmission capability. The forms are transmitted to the appropriate Division contact (for Autism waiver participants that will be Partners) for entry into IRIS.

Incidents of child abuse called into the Child Abuse Hotline are investigated by the Arkansas State Police Crimes Against Children Division.

Incidents of child maltreatment reported using the IRIS system or the Incident Report Form DHS 1910 are investigated by the Division.
of Children and Family Services (DCFS) with some information shared between DCFS and Partners if the report involves a Autism waiver participant.

Any other incidents that may affect the health and safety of Autism Waiver participants and occurrences that interrupt or prevent the delivery of DHS services must be reported to Partners and the DHS Director’s Office.

Partners will be given access to IRIS to query incidents reported for Autism waiver participants. Partners will use the IRIS database to monitor incidents for participants in the Autism waiver program and will address any concerns according to the following timeframes:

As soon as the incident report is received by Partners, it is reviewed and prioritized. DHS Policy 1090 requires that investigations begin within 24 hours (next business day) from time of receipt.

Within five working days from the start of the investigation, telephone contact with the complainant is required. If unable to contact by telephone and the complainant is known, a certified letter is sent to the complainant requesting the complainant contact Partners within three working days of the date of the letter.

Within ten working days of receipt of the report, Partners gathers information and completes their investigation. If timely contact with the involved parties is not possible, the process may be extended an additional ten days.

Within fifteen working days of completion of the investigation, Partners will submit a written report to the affected entity (if applicable) and DMS.

With five working days of receipt of the written report, the affected entity may request a meeting with Partners to discuss the findings. If the Partners determines there is credible evidence to support the complaint, Partners will request a time bound plan of correction and ensure necessary follow-up to monitor progress toward compliance.

All critical incidents reported to Partners (regardless of type) are reviewed, triaged and prioritized by Partners within 24 working hours. In instances of alleged abuse or neglect, there is immediate referral to the applicable Arkansas Protective Services Agencies with referral to these constraining requirements (in accordance with their policies). Specific to critical internal incidents, the completion time frame is within 10 working days. Exceptions may occur if circumstances justify an extension. All extensions will be monitored with the annual report to identify any system problems that may require policy changes. All internal issues are investigated by Partners with a report to DMS for final approval.

c. **Participant Training and Education.** Describe how training and/or information is provided to participants (and/or families or legal representatives, as appropriate) concerning protections from abuse, neglect, and exploitation, including how participants (and/or families or legal representatives, as appropriate) can notify appropriate authorities or entities when the participant may have experienced abuse, neglect or exploitation.

A brochure developed and provided by the Child Protective Services (CPS) Unit is provided to the waiver applicant and his/her family by PARTNERS when initial contact is made. Duplicate copies of the brochure are available should additional copies be needed to provide to the applicant/participant's other family members or friends. The brochure includes information on what constitutes abuse, the signs and symptoms of abuse, the persons required to report abuse, and how reports should be made.

PARTNERS reviews the information in the CPS brochure with participants/family members in annual contacts after participation in the Autism waiver program begins. Duplicate copies of the brochure are available.

d. **Responsibility for Review of and Response to Critical Events or Incidents.** Specify the entity (or entities) that receives reports of critical events or incidents specified in item G-1-a, the methods that are employed to evaluate such reports, and the processes and timeframes for responding to critical events or incidents, including conducting investigations.

The DHS Client Advocate reviews all incidents in the IRIS database and generates reports. Partners will have access to the IRIS database. All relevant information about Autism waiver participants is reviewed by PARTNERS waiver staff.

Information from all complaints entered into the complaint database, including information on resolution of the incidents is reviewed by PARTNERS waiver staff. Results of these complaint reviews that identify a situation in which the Autism waiver participant was compromised are further investigated with appropriate action taken, if necessary. The complaint database will generate monthly and annual reports to the Partners Waiver Program Administrator who reviews these reports to identify patterns and make systematic corrections when necessary.

The participant and other relevant parties are informed of investigation results by telephone or written form.

e. **Responsibility for Oversight of Critical Incidents and Events.** Identify the State agency (or agencies) responsible for overseeing the reporting of and response to critical incidents or events that affect waiver participants, how this oversight is conducted, and how frequently.

PARTNERS as the operating agency for the waiver, will assume responsibility for compiling all incident reports from all sources into a single source for review and action. PARTNERS waiver staff will review this single source to identify patterns and make systematic corrections when necessary. Critical incidents and events are reviewed on a case by case basis by administrative staff. A monthly report is compiled based on incidents and events keyed into the Complaint Database.
Appendix G: Participant Safeguards

Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (1 of 3)

a. Use of Restraints. (Select one): (For waiver actions submitted before March 2014, responses in Appendix G-2-a will display information for both restraints and seclusion. For most waiver actions submitted after March 2014, responses regarding seclusion appear in Appendix G-2-c.)

- The State does not permit or prohibits the use of restraints

Specify the State agency (or agencies) responsible for detecting the unauthorized use of restraints and how this oversight is conducted and its frequency:

Both the Autism Waiver Coordinator, the Clinical Services Specialist, and the Consultant will be responsible for monitoring for unauthorized use of restraints or seclusion as treatment/intervention strategies during regular contact with participants. Autism Waiver Coordinators will have monthly contact with participants and Clinical Services Specialists will have quarterly contact with the participants. Information about the prohibition of restraints and seclusion will be included in the training of all providers and in the program description provided to parents/guardians. If there is any report of the use of these unauthorized techniques, an immediate investigation will be conducted by the Autism Waiver Coordinator and appropriate action taken to ensure that their use is immediately discontinued.

The only use of any physical intervention allowable under this program is as an emergency intervention to protect the safety of the child. An "emergency" is defined as a situation which poses imminent risk of injury to the child or another person. Physical intervention is allowable only during the context of the emergency and only for the duration of that emergency. It cannot be used as a contingent punitive consequence for non-cooperative or non-compliant behavior.

Prevention of unauthorized use of physical intervention is a top priority for the Medicaid Agency (DMS) and the Operating Agency (Partners) in this waiver program. The documentation regarding this issue will be reviewed during 100% of the administrative on-site contacts. Additionally, any reports via telephone of such use will be followed with an on-site visit to discuss the situation, address the regulations of the program, and develop a strategy to prevent future occurrence. This will be documented in the case notes and possibly in the individual treatment plan, if the situation reflects a need for modification of the plan.

- The use of restraints is permitted during the course of the delivery of waiver services. Complete Items G-2-a-i and G-2-a-ii.

  i. Safeguards Concerning the Use of Restraints. Specify the safeguards that the State has established concerning the use of each type of restraint (i.e., personal restraints, drugs used as restraints, mechanical restraints). State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

  ii. State Oversight Responsibility. Specify the State agency (or agencies) responsible for overseeing the use of restraints and ensuring that State safeguards concerning their use are followed and how such oversight is conducted and its frequency:

Appendix G: Participant Safeguards

Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (2 of 3)

b. Use of Restrictive Interventions. (Select one):

- The State does not permit or prohibits the use of restrictive interventions

Specify the State agency (or agencies) responsible for detecting the unauthorized use of restrictive interventions and how this oversight is conducted and its frequency:

Both the Autism Waiver Coordinator, the Clinical Services Specialist, and the Consultant will be responsible for monitoring for unauthorized use of restrictive interventions during regular contact with participants. Information about the prohibition of the use of restrictive interventions will be included in the training of all providers and in the program description provided to parents/guardians. If there is any report of the use of these unauthorized techniques, an immediate investigation will be conducted by the Autism Waiver Coordinator and appropriate action taken to ensure that their use is immediately discontinued.

- The use of restrictive interventions is permitted during the course of the delivery of waiver services Complete Items G-2-b-i and G-2-b-ii.
i. **Safeguards Concerning the Use of Restrictive Interventions.** Specify the safeguards that the State has in effect concerning the use of interventions that restrict participant movement, participant access to other individuals, locations or activities, restrict participant rights or employ aversive methods (not including restraints or seclusion) to modify behavior. State laws, regulations, and policies referenced in the specification are available to CMS upon request through the Medicaid agency or the operating agency.

ii. **State Oversight Responsibility.** Specify the State agency (or agencies) responsible for monitoring and overseeing the use of restrictive interventions and how this oversight is conducted and its frequency:

---

**Appendix G: Participant Safeguards**

**Appendix G-2: Safeguards Concerning Restraints and Restrictive Interventions (3 of 3)**

c. **Use of Seclusion.** (Select one): *This section will be blank for waivers submitted before Appendix G-2-c was added to WMS in March 2014, and responses for seclusion will display in Appendix G-2-a combined with information on restraints.*

- The State does not permit or prohibits the use of seclusion

  Specify the State agency (or agencies) responsible for detecting the unauthorized use of seclusion and how this oversight is conducted and its frequency:

  Both the Autism Waiver Coordinator, the Clinical Services Specialist, and the Consultant will be responsible for monitoring for unauthorized use of seclusion during regular contact with participants. Information about the prohibition of the use of restrictive interventions will be included in the training of all providers and in the program description provided to parents/guardians. If there is any report of the use of these unauthorized techniques, an immediate investigation will be conducted by the Autism Waiver Coordinator and appropriate action taken to ensure that their use is immediately discontinued.

- The use of seclusion is permitted during the course of the delivery of waiver services. Complete Items G-2-c-i and G-2-c-ii.

  i. **Safeguards Concerning the Use of Seclusion.** Specify the safeguards that the State has established concerning the use of each type of seclusion. State laws, regulations, and policies that are referenced are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

  ii. **State Oversight Responsibility.** Specify the State agency (or agencies) responsible for overseeing the use of seclusion and ensuring that State safeguards concerning their use are followed and how such oversight is conducted and its frequency:

---

**Appendix G: Participant Safeguards**

**Appendix G-3: Medication Management and Administration (1 of 2)**

*This Appendix must be completed when waiver services are furnished to participants who are served in licensed or unlicensed living arrangements where a provider has round-the-clock responsibility for the health and welfare of residents. The Appendix does not need to be completed when waiver participants are served exclusively in their own personal residences or in the home of a family member.*

a. **Applicability.** Select one:

- ☐ No. This Appendix is not applicable *(do not complete the remaining items)*
- ☐ Yes. This Appendix applies *(complete the remaining items)*

b. **Medication Management and Follow-Up**

  i. **Responsibility.** Specify the entity (or entities) that have ongoing responsibility for monitoring participant medication regimens, the methods for conducting monitoring, and the frequency of monitoring.
ii. Methods of State Oversight and Follow-Up. Describe: (a) the method(s) that the State uses to ensure that participant medications are managed appropriately, including: (a) the identification of potentially harmful practices (e.g., the concurrent use of contraindicated medications); (b) the method(s) for following up on potentially harmful practices; and, (c) the State agency (or agencies) that is responsible for follow-up and oversight.

Appendix G: Participant Safeguards
Appendix G-3: Medication Management and Administration (2 of 2)

c. Medication Administration by Waiver Providers

Answers provided in G-3-a indicate you do not need to complete this section

i. Provider Administration of Medications. Select one:

- Not applicable. (do not complete the remaining items)
- Waiver providers are responsible for the administration of medications to waiver participants who cannot self-administer and/or have responsibility to oversee participant self-administration of medications. (complete the remaining items)

ii. State Policy. Summarize the State policies that apply to the administration of medications by waiver providers or waiver provider responsibilities when participants self-administer medications, including (if applicable) policies concerning medication administration by non-medical waiver provider personnel. State laws, regulations, and policies referenced in the specification are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

iii. Medication Error Reporting. Select one of the following:

- Providers that are responsible for medication administration are required to both record and report medication errors to a State agency (or agencies). Complete the following three items:

  (a) Specify State agency (or agencies) to which errors are reported:

  (b) Specify the types of medication errors that providers are required to record:

  (c) Specify the types of medication errors that providers must report to the State:

- Providers responsible for medication administration are required to record medication errors but make information about medication errors available only when requested by the State.

  Specify the types of medication errors that providers are required to record:

iv. State Oversight Responsibility. Specify the State agency (or agencies) responsible for monitoring the performance of waiver providers in the administration of medications to waiver participants and how monitoring is performed and its frequency.
Appendix G: Participant Safeguards

Quality Improvement: Health and Welfare

As a distinct component of the State’s quality improvement strategy, provide information in the following fields to detail the State’s methods for discovery and remediation.

The state demonstrates it has designed and implemented an effective system for assuring waiver participant health and welfare. (For waiver actions submitted before June 1, 2014, this assurance read “The State, on an ongoing basis, identifies, addresses, and seeks to prevent the occurrence of abuse, neglect and exploitation.”)

i. Sub-Assurances:

Sub-assurance: The state demonstrates on an ongoing basis that it identifies, addresses and seeks to prevent instances of abuse, neglect, exploitation and unexplained death. (Performance measures in this sub-assurance include all Appendix G performance measures for waiver actions submitted before June 1, 2014.)

Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

Performance Measure:
Number and percent of participant records reviewed where the participant and/or family or legal guardian received information about how to report abuse, neglect, exploitation and other critical incidents as specified in the waiver application. Numerator: Number of participants receiving information on abuse, neglect, exploitation and critical incidents; Denominator: Number of records reviewed.

b. **Sub-assurance: The state demonstrates that an incident management system is in place that effectively resolves those incidents and prevents further similar incidents to the extent possible.**

**Performance Measures**

*For each performance measure, the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.*

*For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.*

c. **Sub-assurance: The state policies and procedures for the use or prohibition of restrictive interventions (including restraints and seclusion) are followed.**

**Performance Measures**

*For each performance measure, the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.*

*For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.*

d. **Sub-assurance: The state establishes overall health care standards and monitors those standards based on the responsibility of the service provider as stated in the approved waiver.**

**Performance Measures**

*For each performance measure, the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.*

*For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.*

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.

Arkansas addresses this assurance with a three-step process that involves chart review, ongoing communication with Child Protective Services (CPS), and DMS audits of waiver participants' records. Monthly chart reviews are performed by
PARTNERS staff to assure that report incidences of abuse or neglect, that safety and protection are addressed at initial assessment and periodic reassessment, and reported in the Chart Review Summary Report. CPS reports specific cases of abuse and neglect affecting waiver participants to waiver staff. And finally, findings are reported to DMS QA Administrator.

PARTNERS complaint database was designed to track complaints of all types, including abuse and neglect reports. The IRIS system is used by PARTNERS to report incidents involving state staff, including incidents that involve abuse and neglect of waiver participants.

PARTNERS staff are required to review the CPS information with participants and other parties of interest during each assessment and reassessment process. Compliance with this requirement is documented on plan of care in each chart. Compliance is a part of the chart review and annual reporting process.

The process for reporting child maltreatment as established in Arkansas Code Title 12 Chapter 18, the Child Maltreatment Act. (Child Abuse/Neglect) is that anyone who has reasonable cause to suspect that a child has been subjected to abuse, sexual abuse, neglect, sexual exploitation or abandonment by the caregiver of the child (a parent, guardian, custodian, or foster parent) is responsible for making a report to the Arkansas Child Abuse Hotline at 1-800-482-5964. Mandatory reporters under state law include such individuals as physicians, nurses, social workers, psychologists, therapists, teachers, counselors, etc. In addition to those persons and officials required to report suspected child maltreatment, any other person may make a report if the person has reasonable cause to suspect that a child has been abused or neglected.

Policy requires compliance and mandates DHS staff report alleged abuse to Child Protective Services. All reports of alleged abuse, follow-ups and all actions taken to investigate the alleged abuse, along with all reports to CPS must be documented in the participant's chart. Chart reviews include verification of this requirement and are included on the annual report.

The Division of Medical Services (DMS) QA audit reflects internal review of the billing process by Medicaid providers of the Autism waiver. The DMS QA audit completes a 100% review.

**b. Methods for Remediation/Fixing Individual Problems**

i. Describe the State’s method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.

PARTNERS and DMS meet quarterly to discuss and address problems related to client health and welfare, as well as problem correction and remediation. PARTNERS and DMS have an Interagency Agreement that includes measures related to client health and welfare for the waiver.

PARTNERS remediation efforts in cases where clients or their family members or legal guardians have not received information about how to report abuse, neglect, exploitation or critical incidents include providing the appropriate information to the client and family member or legal guardian upon discovery that this information has not previously been provided and providing additional training for PARTNERS staff.

In cases where critical incidents were not reported within required time frames, PARTNERS provides remediation, including reporting the critical incident immediately upon discovery, and providing additional training and counseling to staff.

If critical incident reviews and investigations are not initiated and completed according to program policy and state law, PARTNERS remediation includes initiating and completing the investigation immediately upon discovery and providing additional training and counseling to staff. When appropriate follow-up to critical incidents is not conducted according to methods discussed in the waiver application, PARTNERS will provide immediate follow-up to the incident and staff training as remediation.

PARTNERS provides remediation in cases of investigation and review of unexplained, suspicious and untimely deaths that did not result in identification of preventable and unpreventable causes to include staff and provider training, implementing additional services and imposing provider sanctions. PARTNERS plans a review of the Unexpected Death report to ensure that remediation of preventable deaths is captured and that remediation data is collected appropriately.

PARTNERS remediation for complaints that were not addressed during required time frames includes PARTNERS addressing the complaint immediately upon discovery and providing additional staff training.

The case record review tool captures and tracks remediation in all of these areas.

ii. **Remediation Data Aggregation**

c. Timelines

When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Health and Welfare that are currently non-operational.

- No
- Yes

Please provide a detailed strategy for assuring Health and Welfare, the specific timeline for implementing identified strategies, and the parties responsible for its operation.

Appendix H: Quality Improvement Strategy (1 of 2)

Under §1915(c) of the Social Security Act and 42 CFR §441.302, the approval of an HCBS waiver requires that CMS determine that the State has made satisfactory assurances concerning the protection of participant health and welfare, financial accountability and other elements of waiver operations. Renewal of an existing waiver is contingent upon review by CMS and a finding by CMS that the assurances have been met. By completing the HCBS waiver application, the State specifies how it has designed the waiver’s critical processes, structures and operational features in order to meet these assurances.

- Quality Improvement is a critical operational feature that an organization employs to continually determine whether it operates in accordance with the approved design of its program, meets statutory and regulatory assurances and requirements, achieves desired outcomes, and identifies opportunities for improvement.

CMS recognizes that a state’s waiver Quality Improvement Strategy may vary depending on the nature of the waiver target population, the services offered, and the waiver’s relationship to other public programs, and will extend beyond regulatory requirements. However, for the purpose of this application, the State is expected to have, at the minimum, systems in place to measure and improve its own performance in meeting six specific waiver assurances and requirements.

It may be more efficient and effective for a Quality Improvement Strategy to span multiple waivers and other long-term care services. CMS recognizes the value of this approach and will ask the state to identify other waiver programs and long-term care services that are addressed in the Quality Improvement Strategy.

Quality Improvement Strategy: Minimum Components

The Quality Improvement Strategy that will be in effect during the period of the approved waiver is described throughout the waiver in the appendices corresponding to the statutory assurances and sub-assurances. Other documents cited must be available to CMS upon request through the Medicaid agency or the operating agency (if appropriate).

In the QIS discovery and remediation sections throughout the application (located in Appendices A, B, C, D, G, and I), a state spells out:

- The evidence based discovery activities that will be conducted for each of the six major waiver assurances;
- The remediation activities followed to correct individual problems identified in the implementation of each of the assurances;

In Appendix H of the application, a State describes (1) the system improvement activities followed in response to aggregated, analyzed discovery and remediation information collected on each of the assurances; (2) the correspondent roles/responsibilities of those conducting assessing and prioritizing improving system corrections and improvements; and (3) the processes the state will follow to continuously assess the effectiveness of the OIS and revise it as necessary and appropriate.
If the State's Quality Improvement Strategy is not fully developed at the time the waiver application is submitted, the State may provide a work plan to fully develop its Quality Improvement Strategy, including the specific tasks the State plans to undertake during the period the waiver is in effect, the major milestones associated with these tasks, and the entity (or entities) responsible for the completion of these tasks.

When the Quality Improvement Strategy spans more than one waiver and/or other types of long-term care services under the Medicaid State plan, specify the control numbers for the other waiver programs and/or identify the other long-term services that are addressed in the Quality Improvement Strategy. In instances when the QIS spans more than one waiver, the State must be able to stratify information that is related to each approved waiver program. Unless the State has requested and received approval from CMS for the consolidation of multiple waivers for the purpose of reporting, then the State must stratify information that is related to each approved waiver program, i.e., employ a representative sample for each waiver.

Appendix H: Quality Improvement Strategy (2 of 2)

H-1: Systems Improvement

a. System Improvements

i. Describe the process(es) for trending, prioritizing, and implementing system improvements (i.e., design changes) prompted as a result of an analysis of discovery and remediation information.

DMS analyzes all discovery and remediation results to determine if a system improvement is necessary. If a possible system improvement is identified, DMS will meet with PARTNERS to discuss what system or program changes are necessary based on the nature of the problem, complexity of the solution, and financial impact. If it is determined that a system change is needed, a customer service request (CSR) will be submitted to the Medicaid Management Information and Performance Unit (MMIP) within DMS. MMIP prioritizes system changes to MMIS and coordinates implementation with the Medicaid fiscal agency. An action plan is developed and information is shared with the appropriate stakeholders for comments. Implementation of the plan is the final step. The MMIP unit and the DMS QA unit monitor the system changes. An online CSR Management system is used to monitor and track the status of customer service requests.

b. System Design Changes

i. Describe the process for monitoring and analyzing the effectiveness of system design changes. Include a description of the various roles and responsibilities involved in the processes for monitoring & assessing system design changes. If applicable, include the State's targeted standards for systems improvement.

PARTNERS and DMS employ staff to assist in system design. Meetings are held, as needed, to develop needed CSRs, review progress, develop new elements and components and test system changes. The meetings involve participation in current programming activities on an as needed basis with the assigned DSS information technology consulting firm, Medicaid's fiscal agent, the PARTNERS waiver program director, DMS QA staff and others deemed appropriate.

DMS analyzes all discovery and remediation results to determine if a system improvement is necessary. If a possible system improvement is identified, DMS will meet with the operating agency (PARTNERS) to discuss what system or program changes are necessary, if any, based on the nature of the problem (health and safety issue, etc.), complexity of the solution (does it require an amendment to the waiver application), and the financial impact. If it is determined that a system change is needed, a computer service request will be submitted to the Medicaid Management Information and Performance Unit (MMIP) within DMS and a priority status is assigned. MMIP prioritizes system changes to MMIS and coordinates implementation with the State's fiscal agent. An action plan is developed and information is shared with the appropriate stakeholders for comment. Implementation of the plan is the final step. The MMIP unit and the DMS QA unit monitor the system changes. An online CSR Management system is used to monitor and track the status of computer service requests.

https://wms-nmdd.cdsvec.com/WMS/faces/protected/35/print/PrintSelector.jsp 04/30/2015
As a result of the discovery process:
- The interagency agreements may be revised to provide a more visible product to clarify roles and responsibilities between the Division of Medical Services (Medicaid agency) and the Operating Agency (Partners).
- The agreement between the two divisions will review at least annually.
- Medicaid related issues are documented by waiver staff and reviewed by DMS QA staff, and recorded on a monthly report to identify, capture and resolve billing and claims submission problems. Error reports are worked and billing issues are resolved by the Operating Agency (Partners). QA staff reviews reports for proper resolution. These activities occur on a daily basis, and reviews occur monthly by DMS QA staff.
- A separate Quality Assurance Unit was formed within the Division of Medical Services (Medicaid agency) to monitor and advise Home and Community-Based Waiver Program Operating Agencies.

DMS will produce a report of the findings for each quarter and distribute to Partners. DMS and Partners will meet quarterly to discuss and address any issues/findings for that quarter.

In December of each year, DMS runs a report to identify the number of active Autism waiver participants and conducts a review of 100% of the charts. DMS divides the active population number into a monthly review and reviews the participant records. As part of DMS’s review of all active Autism waiver participants’ records, DMS verifies the following:

- Health and welfare
- Plans of care
- Qualified provider
- Level of care
- Financial accountability

DMS and Partners ensures enrollment stays within approved limits by monitoring both the number of active and the number of unduplicated participants served within the approved limits. The monthly ACES Report of Active Cases and queries run from the MMIS are utilized to determine the number of active and the number of unduplicated participants served at any point in time.

Any findings discovered in the review are transmitted to Partners for resolution. Partners will respond to DMS describing the action taken to resolve the finding and submitting any documentation relevant to the resolution. If resolution of the finding requires a systems change or improvement, DMS will work with Partners to implement the change or improvement. Changes or improvements requiring promulgation are published for 30 days to allow stakeholders an opportunity to comment. Any revisions to policy are transmitted to providers utilizing a provider manual update, an official notice or a remittance advice message. If resolution requires additional provider training, Partners will conduct the training and notify DMS.

DMS maintains a Monitoring/Tracking database to document and track findings. DMS will share review results with Partners and will track any necessary remediation and improvement. DMS also reviews quarterly reports of the results of any Partners monitoring activities. DMS and Partners meet quarterly or more often as necessary to discuss findings of the reports and any issues or concerns. At these meetings priorities are established and strategies are developed for any necessary remediation and improvement.

At the end of each waiver year, DMS compiles an annual report based on discovery findings from the reviews. The annual report includes any key findings, including status of remediation and improvement activities.

ii. Describe the process to periodically evaluate, as appropriate, the Quality Improvement Strategy.

PARTNERS and DMS monitor the Quality Improvement Strategy (QIS) on an ongoing basis and review the QIS annually. A review consists of analyzing reports and progress toward stated initiatives, resolution of individual and systematic issues found through discovery and noting desired outcomes. When change in the strategy is indicated, a collaborative effort between PARTNERS and DMS is set in motion to complete a revision to the QIS which may include submission of a waiver amendment. DMS QA staff utilize the QIS during the QA reviews.

Appendix I: Financial Accountability

I-1: Financial Integrity and Accountability

**Financial Integrity.** Describe the methods that are employed to ensure the integrity of payments that have been made for waiver services, including: (a) requirements concerning the independent audit of provider agencies; (b) the financial audit program that the state conducts to ensure the integrity of provider billings for Medicaid payment of waiver services, including the methods, scope and frequency of audits; and, (c) the agency (or agencies) responsible for conducting the financial audit program. State laws, regulations, and policies referenced in the description are available to CMS upon request through the Medicaid agency or the operating agency (if applicable).

Expenditure reports are reviewed monthly for each participant, and data is aggregated by PARTNERS. MMIS claims data are audited periodically for program policy alignment, and claims processing worksheets are audited, processed and returned on a daily basis. Discovery and monitoring also includes an ongoing review of CMS-372 reports and CMS-64 reports. And finally, the DMS Program Integrity Unit includes a review of claims paid in accordance with waiver participants’ service plan.

https://wms-nmml.cdsvdc.com/WMS/faces/protected/35/print/PrintSelector.jsp 04/30/2015
Monitoring is conducted on an on-going basis and is tracked through the monthly activity report and the quarterly participant profiles.

Tracking of the number of monitoring visits is now a part of the monthly activity report.

Monitoring of financial reports is also on-going as reports are produced and reviewed monthly.

An independent audit is required annually of the provider agency when:

- State expenditures are $100,000 or more;
- Federal expenditures are $300,000 or more;
- or
- The contract the Department of Human Services (DHS) has with the provider agency requires an independent audit, regardless of funding level.

If the federal expenditures are $300,000 or more, the audit must be performed in accordance with OMB Circular A-133, which implemented the Single Audit Act as amended. A Government Auditing Standards (GAS) audit must be performed if DHS funding provided is $100,000 or more of federal, state, or federal and state combined. In addition, the DMS Program Integrity Unit conducts an annual random review of HCBS waiver programs. If the review finds errors in billing, and fraud is not suspected, Medicaid recoups the money from the waiver provider. If fraud is suspected, the DMS Program Integrity Unit refers the waiver provider to the Arkansas Attorney General's Office for appropriate action.

The DHS Office of Chief Counsel, Audit Section is responsible for reviewing all independent audits. The provider's audit report is reviewed by the Audit Section to determine whether:

- Requirements of applicable authorities and those contained in agency policy were met;
- Material weaknesses in internal control exist;
- Material noncompliance with the provision of grants, contracts, and agreements occurred; and
- The report included findings, recommendations, and responses thereto by management.

Material weaknesses and non compliance, other findings, recommendations, and responses will be recorded and communicated to DMS, the administrative authority of the Autism waiver. DMS will take appropriate action to resolve audit findings within 90 days of the referral of the finding from the Audit Section.

### Appendix I: Financial Accountability

#### Quality Improvement: Financial Accountability

*As a distinct component of the State’s quality improvement strategy, provide information in the following fields to detail the State’s methods for discovery and remediation.*

*State financial oversight exists to assure that claims are coded and paid for in accordance with the reimbursement methodology specified in the approved waiver. (For waiver actions submitted before June 1, 2014, this assurance read "State financial oversight exists to assure that claims are coded and paid for in accordance with the reimbursement methodology specified in the approved waiver.")*

i. **Sub-Assurances:**

   a. **Sub-assurance: The State provides evidence that claims are coded and paid for in accordance with the reimbursement methodology specified in the approved waiver and only for services rendered.** (Performance measures in this sub-assurance include all Appendix I performance measures for waiver actions submitted before June 1, 2014.)

   **Performance Measures**

   For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

   For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.
Performance Measure:
Number and percent of waiver claims reviewed that were paid using the correct rate as specified in the waiver application. Numerator: Number of claims paid at the correct rate; Denominator: number of claims

  Specify:
b. **Sub-assurance: The state provides evidence that rates remain consistent with the approved rate methodology throughout the five year waiver cycle.**
Performance Measures

For each performance measure the State will use to assess compliance with the statutory assurance (or sub-assurance), complete the following. Where possible, include numerator/denominator.

For each performance measure, provide information on the aggregated data that will enable the State to analyze and assess progress toward the performance measure. In this section provide information on the method by which each source of data is analyzed statistically/deductively or inductively, how themes are identified or conclusions drawn, and how recommendations are formulated, where appropriate.

ii. If applicable, in the textbox below provide any necessary additional information on the strategies employed by the State to discover/identify problems/issues within the waiver program, including frequency and parties responsible.
NA

b. Methods for Remediation/Fixing Individual Problems
i. Describe the State’s method for addressing individual problems as they are discovered. Include information regarding responsible parties and GENERAL methods for problem correction. In addition, provide information on the methods used by the State to document these items.
PARTNERS and DMS participate in quarterly team meetings to discuss and address individual problems related to financial accountability, as well as problem correction and remediation. PARTNERS and DMS have an Interagency Agreement that includes measures related to financial accountability for the waiver.

The performance measure for number and percent of waiver claims paid using the correct rate specified in the waiver application will always result in 100% compliance because the rates for services are already set in MMIS; therefore, claims will not be paid at any other rate.

PARTNERS remediation for failed MMIS checks not corrected to assure appropriate payment includes correcting the issue upon discovery, making system changes and training staff.

PARTNERS remediation for claims for services not specified in the client’s service plan includes revising the client’s plan of care if necessary, recouping payment to the provider, imposing provider sanctions, training providers and conducting a client monitoring visit.

The tool used for case record review captures and tracks remediation in these areas.

ii. Remediation Data Aggregation
Remediation-related Data Aggregation and Analysis (including trend identification)

c. Timelines
When the State does not have all elements of the Quality Improvement Strategy in place, provide timelines to design methods for discovery and remediation related to the assurance of Financial Accountability that are currently non-operational.

☐ No
☐ Yes

Please provide a detailed strategy for assuring Financial Accountability, the specific timeline for implementing identified strategies, and the parties responsible for its operation.
Appendix I: Financial Accountability

I-2: Rates, Billing and Claims (1 of 3)

a. Rate Determination Methods. In two pages or less, describe the methods that are employed to establish provider payment rates for waiver services and the entity or entities that are responsible for rate determination. Indicate any opportunity for public comment in the process. If different methods are employed for various types of services, the description may group services for which the same method is employed. State laws, regulations, and policies referenced in the description are available upon request to CMS through the Medicaid agency or the operating agency (if applicable).

A listing of certified providers for this type service was accessed through the licensure group for providers in Arkansas and bordering states. An electronic survey was then disseminated via Survey Monkey to all these providers with a number of questions, not the least of which was their current rate charged for such services. The rates utilized in this application were set based on the results of this survey in order to ensure that rates were based on the current market value for comparable services provided by similarly qualified professionals.

Rates for the Consultants and Lead therapists were determined by:
- Online survey sent to all certified providers in Arkansas and surrounding states of Louisiana, Texas, Oklahoma, Missouri, Tennessee, and Mississippi who currently provide home-based intensive interventions for children diagnosed with autism. While rates varied a bit between individual providers, most Consultants reported billing $100/hr - $175/hr and most Lead therapists reported billing $50/hr - $65/hr. Of the 7 states surveyed, only one, Louisiana, required insurance coverage for such therapies, and so most of these therapies are funded entirely out of pocket, which would account for the range of fees. We then examined what other funding sources existed for these types of treatments and found that Tricare insurance covers such treatments in Arkansas and nationwide for active duty military personnel at a rate of $100/hr.

A handful of states have similar waiver programs to provide early intervention services for children with autism. Of all these states the two that have been operating such programs longest are Wisconsin (since January 2004) and South Carolina (since June 2007). We contacted the state agency responsible for administering these programs in each state to find out how the programs are structured and to discuss reimbursement for providers. The two programs are similar in the kinds of interventions provided and the number of years children can be served in the waiver (3 years maximum). When asked what problems they have encountered with providing the services under the program both states reported difficulty recruiting and maintaining direct line staff. Based on our discussions with providers in both states, it became clear that reimbursement for direct line staff needed to be set higher to ensure we could attract skilled, motivated individuals to the program. An examination of reimbursement rates for the Tier I and II therapists in each program found significant differences in how the service is reimbursed. In Wisconsin, the rate for all 3 tiered professionals is “bundled”, and usually the top-tier consultant is the employer of the tier II and line therapists. The top-tier consultant takes a percentage of the bundled fee and then pays the tier II and line therapist. The difficulty with such a bundled rate is that (1) there is no assurance that the top-tier consultant is even making contact with the family/child or how often that is happening, and (2) there have been instances of fraudulent billing practices such as billing for travel time, and finally (3) direct line therapists are reimbursed at rates barely above minimum wage and so recruiting and maintaining staff for this position was made extremely difficult. South Carolina, on the other hand, developed a 3-tier/rate service which makes it far easier for the administering agency to review plans of care and billing records to ensure that the top-tier consultant and middle-tier therapist are maintaining contact with the family and are providing appropriate supervision for the line therapist. The reimbursement rates for services in the Arkansas waiver application are most similar to the South Carolina program.

The $1,000 flat rate for behavioral reinforcers was determined through discussions (focus group) with professionals credentialed at the Consultant level an $65/hr. Of the 7 states surveyed, only one, Louisiana, required insurance coverage for such treatments, and so most of these therapies are funded entirely out of pocket, which would account for the range of fees. We then examined what other funding sources existed for these types of treatments and found that Tricare insurance covers such treatments in Arkansas and nationwide for active duty military personnel at a rate of $100/hr.

b. Flow of Billings. Describe the flow of billings for waiver services, specifying whether provider billings flow directly from providers to the state's claims payment system or whether billings are routed through other intermediary entities. If billings flow through other intermediary entities, specify the entities:

Waiver providers bill for the waiver services and are reimbursed directly through the MMIS.

Appendix I: Financial Accountability

I-2: Rates, Billing and Claims (2 of 3)

c. Certifying Public Expenditures (select one):

No. State or local government agencies do not certify expenditures for waiver services.

Yes. State or local government agencies directly expend funds for part or all of the cost of waiver services and certify their State government expenditures (CPE) in lieu of billing that amount to Medicaid.

Select at least one:

https://wms-mmdl.cdsvdc.com/WMS/faces/protected/35/print/PrintSelector.jsp

04/30/2015
Certified Public Expenditures (CPE) of State Public Agencies.

Specify: (a) the State government agency or agencies that certify public expenditures for waiver services; (b) how it is assured that the CPE is based on the total computable costs for waiver services; and, (c) how the State verifies that the certified public expenditures are eligible for Federal financial participation in accordance with 42 CFR §433.51(b). *(Indicate source of revenue for CPEs in Item I-4-a.)*

Certified Public Expenditures (CPE) of Local Government Agencies.

Specify: (a) the local government agencies that incur certified public expenditures for waiver services; (b) how it is assured that the CPE is based on total computable costs for waiver services; and, (c) how the State verifies that the certified public expenditures are eligible for Federal financial participation in accordance with 42 CFR §433.51(b). *(Indicate source of revenue for CPEs in Item I-4-b.)*

Appendix I: Financial Accountability

I-2: Rates, Billing and Claims (3 of 3)

d. **Billing Validation Process.** Describe the process for validating provider billings to produce the claim for federal financial participation, including the mechanism(s) to assure that all claims for payment are made only: (a) when the individual was eligible for Medicaid waiver payment on the date of service; (b) when the service was included in the participant’s approved service plan; and, (c) the services were provided:

The MMIS verifies participant waiver eligibility and current provider Medicaid enrollment for the date of service prior to paying a waiver claim. Waiver staff verifies quarterly services were provided according to the service plan through an internal monthly monitoring system and a review of participant profiles. All waiver claims are processed through the MMIS, using all applicable edits and audits, to assure claims are processed appropriately, timely, and compared to the Medicaid maximum allowable.

e. **Billing and Claims Record Maintenance Requirement.** Records documenting the audit trail of adjudicated claims (including supporting documentation) are maintained by the Medicaid agency, the operating agency (if applicable), and providers of waiver services for a minimum period of 3 years as required in 45 CFR §92.42.

Appendix I: Financial Accountability

I-3: Payment (1 of 7)

a. **Method of payments -- MMIS (select one):**

- Payments for all waiver services are made through an approved Medicaid Management Information System (MMIS).
- Payments for some, but not all, waiver services are made through an approved MMIS.

Specify: (a) the waiver services that are not paid through an approved MMIS; (b) the process for making such payments and the entity that processes payments; (c) and how an audit trail is maintained for all state and federal funds expended outside the MMIS; and, (d) the basis for the draw of federal funds and claiming of these expenditures on the CMS-64:

- Payments for waiver services are not made through an approved MMIS.

Specify: (a) the process by which payments are made and the entity that processes payments; (b) how and through which system(s) the payments are processed; (c) how an audit trail is maintained for all state and federal funds expended outside the MMIS; and, (d) the basis for the draw of federal funds and claiming of these expenditures on the CMS-64:

- Payments for waiver services are made by a managed care entity or entities. The managed care entity is paid a monthly...
Describe how payments are made to the managed care entity or entities:

Appendix I: Financial Accountability

I-3: Payment (2 of 7)

b. Direct payment. In addition to providing that the Medicaid agency makes payments directly to providers of waiver services, payments for waiver services are made utilizing one or more of the following arrangements (select at least one):

- The Medicaid agency makes payments directly and does not use a fiscal agent (comprehensive or limited) or a managed care entity or entities.
- The Medicaid agency pays providers through the same fiscal agent used for the rest of the Medicaid program.
- The Medicaid agency pays providers of some or all waiver services through the use of a limited fiscal agent.

Specify the limited fiscal agent, the waiver services for which the limited fiscal agent makes payment, the functions that the limited fiscal agent performs in paying waiver claims, and the methods by which the Medicaid agency oversees the operations of the limited fiscal agent:

- Providers are paid by a managed care entity or entities for services that are included in the State's contract with the entity.

Specify how providers are paid for the services (if any) not included in the State's contract with managed care entities.

Appendix I: Financial Accountability

I-3: Payment (3 of 7)

c. Supplemental or Enhanced Payments. Section 1902(a)(30) requires that payments for services be consistent with efficiency, economy, and quality of care. Section 1903(a)(1) provides for Federal financial participation to States for expenditures for services under an approved State plan/waiver. Specify whether supplemental or enhanced payments are made. Select one:

- No. The State does not make supplemental or enhanced payments for waiver services.
- Yes. The State makes supplemental or enhanced payments for waiver services.

Describe: (a) the nature of the supplemental or enhanced payments that are made and the waiver services for which these payments are made; (b) the types of providers to which such payments are made; (c) the source of the non-Federal share of the supplemental or enhanced payment; and, (d) whether providers eligible to receive the supplemental or enhanced payment retain 100% of the total computable expenditure claimed by the State to CMS. Upon request, the State will furnish CMS with detailed information about the total amount of supplemental or enhanced payments to each provider type in the waiver.

Appendix I: Financial Accountability

I-3: Payment (4 of 7)

d. Payments to State or Local Government Providers. Specify whether State or local government providers receive payment for the provision of waiver services.
No. State or local government providers do not receive payment for waiver services. Do not complete Item I-3-e.

Yes. State or local government providers receive payment for waiver services. Complete Item I-3-e.

Specify the types of State or local government providers that receive payment for waiver services and the services that the State or local government providers furnish:

An institution of Higher Education, a State agency, will provide the Consultative Clinical and Therapeutic Services specified in this waiver.

Appendix I: Financial Accountability

I-3: Payment (5 of 7)

e. Amount of Payment to State or Local Government Providers.

Specify whether any State or local government provider receives payments (including regular and any supplemental payments) that in the aggregate exceed its reasonable costs of providing waiver services and, if so, whether and how the State recoups the excess and returns the Federal share of the excess to CMS on the quarterly expenditure report. Select one:

- The amount paid to State or local government providers is the same as the amount paid to private providers of the same service.
- The amount paid to State or local government providers differs from the amount paid to private providers of the same service. No public provider receives payments that in the aggregate exceed its reasonable costs of providing waiver services.
- The amount paid to State or local government providers differs from the amount paid to private providers of the same service. When a State or local government provider receives payments (including regular and any supplemental payments) that in the aggregate exceed the cost of waiver services, the State recoups the excess and returns the federal share of the excess to CMS on the quarterly expenditure report.

Describe the recoupment process:

Appendix I: Financial Accountability

I-3: Payment (6 of 7)

f. Provider Retention of Payments. Section 1903(a)(1) provides that Federal matching funds are only available for expenditures made by states for services under the approved waiver. Select one:

- Providers receive and retain 100 percent of the amount claimed to CMS for waiver services.
- Providers are paid by a managed care entity (or entities) that is paid a monthly capitated payment.

Specify whether the monthly capitated payment to managed care entities is reduced or returned in part to the State.

Appendix I: Financial Accountability

I-3: Payment (7 of 7)

g. Additional Payment Arrangements

i. Voluntary Reassignment of Payments to a Governmental Agency. Select one:

- No. The State does not provide that providers may voluntarily reassign their right to direct payments to a governmental agency.
Yes. Providers may voluntarily reassign their right to direct payments to a governmental agency as provided in 42 CFR §447.10(e).

Specify the governmental agency (or agencies) to which reassignment may be made.

ii. Organized Health Care Delivery System. Select one:

No. The State does not employ Organized Health Care Delivery System (OHCDS) arrangements under the provisions of 42 CFR §447.10.

Yes. The waiver provides for the use of Organized Health Care Delivery System arrangements under the provisions of 42 CFR §447.10.

Specify the following: (a) the entities that are designated as an OHCDS and how these entities qualify for designation as an OHCDS; (b) the procedures for direct provider enrollment when a provider does not voluntarily agree to contract with a designated OHCDS; (c) the method(s) for assuring that participants have free choice of qualified providers when an OHCDS arrangement is employed, including the selection of providers not affiliated with the OHCDS; (d) the method(s) for assuring that providers that furnish services under contract with an OHCDS meet applicable provider qualifications under the waiver; (e) how it is assured that OHCDS contracts with providers meet applicable requirements; and, (f) how financial accountability is assured when an OHCDS arrangement is used:

iii. Contracts with MCOs, PIHPs or PAHPs. Select one:

The State does not contract with MCOs, PIHPs or PAHPs for the provision of waiver services.

The State contracts with a Managed Care Organization(s) (MCOs) and/or prepaid inpatient health plan(s) (PIHP) or prepaid ambulatory health plan(s) (PAHP) under the provisions of §1915(a)(1) of the Act for the delivery of waiver and other services. Participants may voluntarily elect to receive waiver and other services through such MCOs or prepaid health plans. Contracts with these health plans are on file at the State Medicaid agency.

Describe: (a) the MCOs and/or health plans that furnish services under the provisions of §1915(a)(1); (b) the geographic areas served by these plans; (c) the waiver and other services furnished by these plans; and, (d) how payments are made to the health plans.

This waiver is a part of a concurrent §1915(b)/§1915(c) waiver. Participants are required to obtain waiver and other services through a MCO and/or prepaid inpatient health plan (PIHP) or a prepaid ambulatory health plan (PAHP). The §1915(b) waiver specifies the types of health plans that are used and how payments to these plans are made.

Appendix I: Financial Accountability

I-4: Non-Federal Matching Funds (1 of 3)

a. State Level Source(s) of the Non-Federal Share of Computable Waiver Costs. Specify the State source or sources of the non-federal share of computable waiver costs. Select at least one:

- Appropriation of State Tax Revenues to the State Medicaid agency
- Appropriation of State Tax Revenues to a State Agency other than the Medicaid Agency.

If the source of the non-federal share is appropriations to another state agency (or agencies), specify: (a) the State entity or agency receiving appropriated funds and (b) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if the funds are directly expended by State agencies as CPEs, as indicated in Item I-2-c:
Other State Level Source(s) of Funds.

Specify: (a) the source and nature of funds; (b) the entity or agency that receives the funds; and, (c) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if funds are directly expended by State agencies as CPEs, as indicated in Item I-2-c:

(a) Tobacco Tax - Arkansas Act 180 of 2009; (b) Department of Human Services, Division of Developmental Disabilities; and (c) Intergovernmental Transfer (IGT).

Appendix I: Financial Accountability

I-4: Non-Federal Matching Funds (2 of 3)

b. Local Government or Other Source(s) of the Non-Federal Share of Computable Waiver Costs. Specify the source or sources of the non-federal share of computable waiver costs that are not from state sources. Select One:

- Not Applicable. There are no local government level sources of funds utilized as the non-federal share.
- Applicable
  Check each that applies:
  - Appropriation of Local Government Revenues.

Specify: (a) the local government entity or entities that have the authority to levy taxes or other revenues; (b) the source(s) of revenue; and, (c) the mechanism that is used to transfer the funds to the Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement (indicate any intervening entities in the transfer process), and/or, indicate if funds are directly expended by local government agencies as CPEs, as specified in Item I-2-c:

Other Local Government Level Source(s) of Funds.

Specify: (a) the source of funds; (b) the local government entity or agency receiving funds; and, (c) the mechanism that is used to transfer the funds to the State Medicaid Agency or Fiscal Agent, such as an Intergovernmental Transfer (IGT), including any matching arrangement, and/or, indicate if funds are directly expended by local government agencies as CPEs, as specified in Item I-2-c:

Appendix I: Financial Accountability

I-4: Non-Federal Matching Funds (3 of 3)

c. Information Concerning Certain Sources of Funds. Indicate whether any of the funds listed in Items I-4-a or I-4-b that make up the non-federal share of computable waiver costs come from the following sources: (a) health care-related taxes or fees; (b) provider-related donations; and/or, (c) federal funds. Select one:

- None of the specified sources of funds contribute to the non-federal share of computable waiver costs
- The following source(s) are used
  Check each that applies:
  - Health care-related taxes or fees
  - Provider-related donations
  - Federal funds

For each source of funds indicated above, describe the source of the funds in detail:

Tobacco tax - Arkansas Act 180 of 2009

Appendix I: Financial Accountability

I-5: Exclusion of Medicaid Payment for Room and Board

https://wms-nmddl.cdssvc.com/WMS/faces/protected/35/print/PrintSelector.jsp
a. Services Furnished in Residential Settings. Select one:

- No services under this waiver are furnished in residential settings other than the private residence of the individual.
- As specified in Appendix C, the State furnishes waiver services in residential settings other than the personal home of the individual.

b. Method for Excluding the Cost of Room and Board Furnished in Residential Settings. The following describes the methodology that the State uses to exclude Medicaid payment for room and board in residential settings:

Do not complete this item.

Appendix I: Financial Accountability

I-6: Payment for Rent and Food Expenses of an Unrelated Live-In Caregiver

Reimbursement for the Rent and Food Expenses of an Unrelated Live-In Personal Caregiver. Select one:

- No. The State does not reimburse for the rent and food expenses of an unrelated live-in personal caregiver who resides in the same household as the participant.
- Yes. Per 42 CFR §441.310(a)(2)(ii), the State will claim FFP for the additional costs of rent and food that can be reasonably attributed to an unrelated live-in personal caregiver who resides in the same household as the waiver participant. The State describes its coverage of live-in caregiver in Appendix C-3 and the costs attributable to rent and food for the live-in caregiver are reflected separately in the computation of factor D (cost of waiver services) in Appendix J. FFP for rent and food for a live-in caregiver will not be claimed when the participant lives in the caregiver’s home or in a residence that is owned or leased by the provider of Medicaid services.

The following is an explanation of: (a) the method used to apportion the additional costs of rent and food attributable to the unrelated live-in personal caregiver that are incurred by the individual served on the waiver and (b) the method used to reimburse these costs:

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (1 of 5)

a. Co-Payment Requirements. Specify whether the State imposes a co-payment or similar charge upon waiver participants for waiver services. These charges are calculated per service and have the effect of reducing the total computable claim for federal financial participation. Select one:

- No. The State does not impose a co-payment or similar charge upon participants for waiver services.
- Yes. The State imposes a co-payment or similar charge upon participants for one or more waiver services.
  i. Co-Pay Arrangement.

Specify the types of co-pay arrangements that are imposed on waiver participants (check each that applies):

Charges Associated with the Provision of Waiver Services (if any are checked, complete Items I-7-a-ii through I-7-a-iv):

- Nominal deductible
- Coinsurance
- Co-Payment
- Other charge

Specify:
Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (2 of 5)

a. Co-Payment Requirements.

ii. Participants Subject to Co-pay Charges for Waiver Services.

Answers provided in Appendix I-7-a indicate that you do not need to complete this section.

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (3 of 5)

a. Co-Payment Requirements.

iii. Amount of Co-Pay Charges for Waiver Services.

Answers provided in Appendix I-7-a indicate that you do not need to complete this section.

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (4 of 5)

a. Co-Payment Requirements.

iv. Cumulative Maximum Charges.

Answers provided in Appendix I-7-a indicate that you do not need to complete this section.

Appendix I: Financial Accountability

I-7: Participant Co-Payments for Waiver Services and Other Cost Sharing (5 of 5)

b. Other State Requirement for Cost Sharing. Specify whether the State imposes a premium, enrollment fee or similar cost sharing on waiver participants. Select one:

☐ No. The State does not impose a premium, enrollment fee, or similar cost-sharing arrangement on waiver participants.

☐ Yes. The State imposes a premium, enrollment fee or similar cost-sharing arrangement.

Describe in detail the cost sharing arrangement, including: (a) the type of cost sharing (e.g., premium, enrollment fee); (b) the amount of charge and how the amount of the charge is related to total gross family income; (c) the groups of participants subject to cost-sharing and the groups who are excluded; and, (d) the mechanisms for the collection of cost-sharing and reporting the amount collected on the CMS 64:

Appendix J: Cost Neutrality Demonstration

J-1: Composite Overview and Demonstration of Cost-Neutrality Formula

Composite Overview. Complete the fields in Cols. 3, 5 and 6 in the following table for each waiver year. The fields in Cols. 4, 7 and 8 are auto-calculated based on entries in Cols 3, 5, and 6. The fields in Col. 2 are auto-calculated using the Factor D data from the J-2-d Estimate of Factor D tables. Col. 2 fields will be populated ONLY when the Estimate of Factor D tables in J-2-d have been completed.

Level(s) of Care: ICF/IID

</tr>
</tbody>
</table>

**Table: J-2-a: Unduplicated Participants**

b. **Average Length of Stay.** Describe the basis of the estimate of the average length of stay on the waiver by participants in item J-2-a.

Most participants in the Autism Waiver will receive services for a three year period, the maximum allowed on this program. In some situations where the child is enrolled in the program later, he/she may only receive two years of service, the minimum required for program participation. Each participant will stay on the waiver for 365 days per year.

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (2 of 9)

b. **Average Length of Stay.** Describe the basis of the estimate of the average length of stay on the waiver by participants in item J-2-a.

Most participants in the Autism Waiver will receive services for a three year period, the maximum allowed on this program. In some situations where the child is enrolled in the program later, he/she may only receive two years of service, the minimum required for program participation. Each participant will stay on the waiver for 365 days per year.

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (3 of 9)

c. **Derivation of Estimates for Each Factor.** Provide a narrative description for the derivation of the estimates of the following factors.

i. **Factor D Derivation.** The estimates of Factor D for each waiver year are located in Item J-2-d. The basis for these estimates is as follows:

Factor D reflects the number of participants the State will be able to serve in the Autism waiver based on the allotted funding.

ii. **Factor D’ Derivation.** The estimates of Factor D’ for each waiver year are included in Item J-1. The basis of these estimates is as follows:

Factor D’ is computed based SFY 2011 Actual Data on children aged 18 months through age 6 in the MMIS system with Autism as their primary or secondary diagnosis and the related member months. The Inflation % was obtained using The Consumer Price Index for medical services averaged over a 5 year period.

iii. **Factor G Derivation.** The estimates of Factor G for each waiver year are included in Item J-1. The basis of these estimates is as follows:

Factor G reflects the average cost of the level of care that would be otherwise furnished to participants. Costs of all indirect services were removed to avoid double accounting of non-waiver expenses. All figures are based on actual expenses experienced in 2010.

iv. **Factor G’ Derivation.** The estimates of Factor G’ for each waiver year are included in Item J-1. The basis of these estimates is as follows:

https://wms-nmdl.cdsvec.com/WMS/faces/protected/35/print/PrintSelector.jsp
Factor G' reflects the average cost of nonfacility services that would be otherwise furnished to participants. Costs of all direct facility services were removed to avoid double accounting of non-waiver expenses. All figures are based on actual expenses experienced in 2010.

Appendix J: Cost Neutrality Demonstration

J-2: Derivation of Estimates (4 of 9)

Component management for waiver services. If the service(s) below includes two or more discrete services that are reimbursed separately, or is a bundled service, each component of the service must be listed. Select “manage components” to add these components.
