NOTICE OF RULE MAKING

The Director of the Division of Medical Services of the Department of Human Services announces for a public comment period of thirty (30) calendar days a notice of rulemaking for the following proposed rule under one or more of the following chapters, subchapters, or sections of the Arkansas Code: §§ 20-76-201, 20-77-107, 20-77-2804, and 25-10-129.

Effective October 1, 2020:

Arkansas Act 969 of 2017 sought to improve the quality and timeliness of medical transports in Arkansas by establishing an ambulance assessment program by ensuring appropriate reimbursement of emergency medical services. The Arkansas Department of Human Services (DHS), Division of Medical Services (DMS), intends to adopt a state plan amendment, revise the Transportation Provider Manual, and issue a new rule to effectuate the Act.

The state plan amendment will state that qualifying medical transportation providers within the State of Arkansas, except for volunteer ambulance services, ambulance services owned by the state, county or a political subdivision, nonemergency ambulance services, air ambulance services, specialty hospital-based ambulance services and ambulance services subject to the state’s assessment on the ambulance revenue of hospitals, shall be eligible to receive emergency medical transportation access payments. The plan establishes payment methodology to be used in establishing the payments, which shall be calculated on an annual basis and paid on a quarterly basis. The annual budget impact associated with this rule change is $11,411,390.00. The assessment will generate the funding for the state share of the budget. The state plan amendment will be effective October 1, 2020, but upon approval, will be retroactive for dates of service on and after April 1, 2020.

DMS revises the Transportation Provider Manual to include the process for transportation providers to receive emergency medical transportation access payments. Also, DMS issues a new rule that will be linked to the Transportation Provider Manual. The Administrative Procedures for the Emergency Medical Transportation Assessment Fee and Access Paymet details definitions, initial year determination, provider revenues and assessment rate, fee assessment, fee billing and collection, administration of fees, sanctions, recoupment provisions, and the emergency medical transportation access payments.

The proposed rule is available for review at the Department of Human Services (DHS) Office of Rules Promulgation, 2nd floor Donaghey Plaza South Building, 7th and Main Streets, P. O. Box 1437, Slot S295, Little Rock, Arkansas 72203-1437. You may also access and download the proposed rule on the Medicaid website at https://medicaid.mmis.arkansas.gov/General/Comment/Comment.aspx. Public comments must be submitted in writing at the above address or at the following email address: ORP@dhs.arkansas.gov. All public comments must be received by DHS no later than July 31, 2020. Please note that public comments submitted in response to this notice are considered public documents. A public comment, including the commenter’s name and any personal information contained within the public comment, will be made publicly available and may be seen by various people.

If you need this material in a different format, such as large print, contact the Office of Rules Promulgation at 501-320-6266.

The Arkansas Department of Human Services is in compliance with Titles VI and VII of the Civil Rights Act and is operated, managed and delivers services without regard to religion, disability, political affiliation, veteran status, age, race, color or national origin. 4501888131

[Signature]
Janet Mann, Director
Division of Medical Services
23. Any other medical care and any other type of remedial care recognized under State law, specified by the Secretary.

a. Transportation (Continued)

(2) Air Ambulance (continued)

Pediatric Hospitals

1. Helicopter Ambulance: Effective for dates of service occurring August 15, 2001 and after, helicopter ambulance services provided by instate pediatric hospitals will be reimbursed based on reasonable costs with interim payments and year-end cost settlement. Interim payments are made at the lesser of the amount billed or the Title XIX (Medicaid) charge allowed. Arkansas Medicaid will use the lesser of the reasonable costs or customary charges as determined from the hospital’s submitted cost report to establish cost settlements. The cost settlements will be calculated using the methods and standards used by the Medicare Program. Methods and standards refer to the allocation of costs on the cost report and do not include any current or future Medicare reimbursement limits for this particular service.

(3) Emergency Medical Transportation Access Payment

1. Effective for dates of service on or after April 1, 2020, qualifying medical transportation providers within the State of Arkansas except for volunteer ambulance services, ambulance services owned by the state or county and political subdivisions, nonemergency ambulance services, air ambulance services, specialty hospital based ambulance services and ambulance services subject to the state’s assessment on the revenue of hospitals; shall be eligible to receive emergency medical transportation access payments. All emergency medical transportation providers that meet this definition will be referred to as Qualified Emergency Medical Transportation (QEMT) providers for purpose of this section.

2. Payment Methodology

A. The emergency medical transportation access payment to each QEMT shall be calculated on an annual basis and paid out quarterly. The access payment shall be comprehensive and will be eighty percent (80%) of the difference between Medicaid payments otherwise made to QEMTs for the provision of emergency medical transportation services and the average amount that would have been paid at the equivalent community rate (hereinafter, average commercial rate or ACR).

(1) The Division shall align the paid Medicaid claims for each QEMT with the Medicare fees (Medicare Fee Schedule – Urban) for each healthcare common procedure coding system (HCPCS) or current procedure terminology (CPT) code and calculate the Medicare payment for those claims.
23. Any other medical care and any other type of remedial care recognized under State law, specified by the Secretary.

a. Transportation (Continued)

(3) Emergency Medical Transportation Access Payment (continued)

(2) The Division shall calculate a separate Medicare equivalent of the ACR for each QEMT that qualifies for the access payment by dividing the total amount of the average commercial payments for the claims by the total Medicare payments for the claims.

(B) The specific payment methodology to be used in establishing the emergency medical transportation access payment for QEMTs is as follows:

(1) The Division shall send emergency medical transportation access payment data collection forms to QEMTs.

(2) For each QEMT who submits the required data, the Division shall identify the emergency medical transportation services for which the provider is eligible to be reimbursed.

(3) For each QEMT who submits the required data, the Division shall calculate the reimbursement paid to the QEMT for the provision of emergency medical ambulance transportation services identified under Section (1) on Attachment 4.19-B Page 8.

(4) For each QEMT, the Division shall calculate the QEMT’s average commercial rate for all services identified under Subparagraph (2) of this Section.

(5) For each QEMT, the Division shall subtract an amount equal to the reimbursement calculation for each of emergency medical transportation service from the amount calculated for each of the emergency medical transportation services. [B (4)-B (3)]
23. Any other medical care and any other type of remedial care recognized under State law, specified by the Secretary.

a. Transportation (Continued)

(3) Emergency Medical Transportation Access Payment (continued)

(6) For each QEMT, the Division shall calculate the sum of each of the amounts calculated for emergency medical transportation services in Subparagraph (B)(5).

(7) For each QEMT, the Division shall calculate the QEMT’s upper payment limit (UPL) by subtracting the QEMT’s total Medicaid payment differential from the sum calculated in Subparagraph (B)(6). [B (B)-B (3)]

(8) The Division shall submit UPL demonstrations in accordance with the State Medicaid Director Letter issued on March 18, 2013 (SMD #13-003).

3. The Division shall reimburse QEMTs the access payment of eighty percent (80%) of their UPL gap.

4. These access payments are considered supplemental payments and do not replace any currently authorized Medicaid payments for emergency medical transportation services.

(34) Early Intervention Day Treatment (EIDT) and Adult Developmental Day Treatment (ADDT) Transportation

Effective for claims with dates of service on or after July 1, 2018, EIDT and ADDT transportation providers will be reimbursed on a per mile basis at the lesser of the billed charges or the maximum Title XIX (Medicaid) charge allowed. Transportation will be covered from the point of pick-up to the EIDT and ADDT facility and from the EIDT and ADDT facility to the point of delivery. If more than one eligible Medicaid recipient is transported at the same time to the same location, Medicaid may be billed only for one recipient. If more than one Medicaid recipient is transported at the same time to different locations, the provider may bill only for the recipient traveling the farthest distance. The route must be planned to ensure that beneficiaries spend the least amount of time being transported. The maximum per mile is based on reasonable cost.

The EIDT—EIDT and ADDT transportation providers will submit annual statements of mileage, revenues and expenses, i.e. salaries, repairs, supplies, rent, indirect overhead costs, etc. The State Agency will review the cost and mileage information at least biennially and adjust the reimbursement rate if necessary. Therefore, an inflation factor will not be automatically applied.
23. Any other medical care and any other type of remedial care recognized under State law, specified by the Secretary.

a. Transportation (Continued)

   (45) Non-Emergency

   (a) Public Transportation

   Effective for dates of service on or after December 1, 2001, the following reimbursement applies to public transportation services:

   Taxi and Wheelchair Van - Reimbursement is based on the lesser of billed charges or the Title XIX maximum allowable. The billed charges must reflect the same charges made to all other passengers for the same service as determined by the local municipality which issues the permit to operate or by the Interstate Commerce Commission. The Title XIX maximum was established utilizing the 1991 Taxicab Fact Book issued by the International Taxicab and Livery Association. The calculations are as follows:

   Wheelchair Van - Must transport six (6) or more passengers comfortably.

   The cost per mile of 1990 plus Market Basket Index of 1991 plus Market Basket Index of 1992 plus 65% = $1.50 per mile (unit). An additional 40% was added to the reimbursement per mile due to the added cost of wheelchair van adaptation for wheelchair accessibility and for additional provider compensation for physically assisting the disabled.

The State Agency will negotiate with the affected provider group representative should recipient access become an issue.
23. Any other medical care and any other type of remedial care recognized under State law, specified by the Secretary.

   a. Transportation (Continued)

   (45) Non-Emergency (Continued)

   (b) Non-Public Transportation

   Effective for dates of service on or after December 1, 2001, Non-Public Transportation Services reimbursement is based on the lesser charges or the Title XIX maximum allowable. The Title XIX maximum is based on the Internal Revenue Service (IRS) reimbursement for private mileage in a business setting, plus an additional allowance for the cost of the driver. The standard mileage private reimbursement is compliant to the 1997 Standard Federal Tax Report, paragraph #8540.011. The calculation of the additional allowance for the cost of the driver is based on the minimum wage per hour, plus 28% of salaries (minimum wage) for fringe benefits, plus a fixed allowance of $2.11 for the provider’s overhead and billings, divided by 30 (average number of miles per trip). The average number of miles was determined by utilizing data from SFY 1996 and dividing the number of miles per trip by the number of trips made.

   The State Agency will negotiate with the affected provider group representatives should recipients access become an issue.

   (56) Volunteer Transportation: Amount of payment is agreed on by County Human Services Office and the Carrier. Medicaid reimburses the County Human Services Office for the agreed amount.

   The rate of reimbursement equals the amount of travel reimbursement per mile for a state employee. Medicaid reimbursement will not be made for services provided free of charge.

   (67) Domiciliary Care: Fixed price set by Assistant Director, Division of Medical Services, based on reasonable cost. The provider submits a statement of expenses, i.e. salaries, repairs, supplies, rent, etc. for their past fiscal year. These costs are reviewed by the State’s auditors for reasonableness. These costs are reviewed annually and adjusted if necessary, therefore, an inflation factor is not applied.

   The cost of meals and lodging are provided only when necessary in connection with transportation of a recipient to and from medical care.

DEFINITIONS
(1) "Accounts Receivable" means the Accounts Receivable Unit of the Office of Finance of the Department of Human Services;

(2) "Air ambulance services" means services authorized and licensed by the Department of Health to provide care and air transportation of patients;

(3) "Ambulance services" means services authorized and licensed by the department to provide care and transportation of patients upon the streets and highways of Arkansas;

(4) "Division" means the Division of Medical Services of the Department of Human Services;

(5) "Medical transportation" means emergency medical services provided through ambulance services and air ambulance services. The term does not include nonemergency ambulance services;

(6) "Medical transportation provider" means a licensed provider of medical transportation;

(7) "Net operating revenue" means the gross revenues earned for providing medical transportation in Arkansas, excluding amounts refunded to or recouped, offset, or otherwise deducted by a patient or payer for medical transportation;

(8) (A) "Nonemergency ambulance services" means the transport in a motor vehicle to or from medical facilities, including without limitation medical transportation providers, nursing homes, physicians' offices, and other healthcare facilities, of persons who are ill or injured and who are transported in a reclining position.

(B) "Nonemergency ambulance services" does not include transportation provided by licensed medical transportation providers that own and operate the ambulance for their own admitted patients;

(9) "Specialty medical transportation provider-based ambulance services" means ambulance services provided by an acute care general medical transportation provider that limits healthcare services primarily to children and qualifies as exempt from the Medicare prospective payment system regulation;

(10) “State plan amendment” means a change or update to the state Medicaid plan;

(11) "Upper payment limit" means the lesser of the customary charges of the medical transportation provider for medical transportation or the prevailing charges in the locality of the medical transportation provider for comparable services under comparable circumstances, calculated according to methodology in an approved state plan amendment for the Arkansas Medicaid Program; and

(12) (A) "Upper payment limit gap" means the difference between the upper payment limit of the medical transportation provider and the Medicaid payments not financed using medical transportation assessment made to all medical transportation providers.
(B) "Upper payment limit gap" is calculated separately for ambulance services and air ambulance services.

INITIAL YEAR DETERMINATION

Upon approval of the State Plan Amendment (SPA) by the Centers for Medicare & Medicaid Services (CMS), the model submitted to CMS as part of the SPA will be used to determine the Fee Assessments and access payments made under this program for the last quarter of State Fiscal Year 2020 and State Fiscal Year 2021. For State Fiscal Years after 2021, the methodology outlined in the following procedures will be used.

PROVIDER REVENUES & ASSESSMENT RATE

An assessment is imposed on each medical transportation provider, except those exempted under Ark Code Ann. § 20-77-2806, for each state fiscal year in an amount calculated as a percentage of the aggregate net operating revenues of the medical transportation providers.

The assessment rate shall be determined annually based upon the percentage of net operating revenue needed to generate 80% of the upper payment limit gap plus the annual fee to be paid to the Arkansas Medicaid Program under § 20-77-2805, but in no case at a rate that would cause the assessment proceeds to exceed the indirect guarantee threshold set forth in 42 C.F.R. § 433.68(f)(3)(i).

For state fiscal year 2022 and following years, the medical transportation provider’s net patient revenue from the most recently ended calendar year will be used.

The assessment rate described in this section shall be determined after consultation with the Arkansas Ambulance Association or its successor association.

FEE ASSESSMENT

Annually, no later than January 31, the Division will send to all licensed medical transportation providers the net operating revenue assessment return. Medical transportation providers shall complete the returns for the previous year and deliver them to the Division or its contractor no later than March 31 of that year. Providers that fail to return the net operating revenue assessment form will have their assessment calculated based on the state per capita average assessment for that year. The Division will send a notice of assessment to each medical transportation provider informing the medical transportation provider of the assessment rate and the estimated assessment amount owed by the medical transportation provider for the applicable fiscal year.

With the exception of the initial notice of assessment, annual notices of assessment will be sent at least forty-five (45) calendar days before the due date for the first quarterly assessment payment of each fiscal year. The first notice of assessment will be sent within forty-five (45) calendar days after the Division has received notification from the Centers for Medicare and Medicaid Services that the payments required under Ark. Code Ann. § 20-77-2809 and, if necessary, the waiver granted under 42 C.F.R. § 433.68 have been approved. The medical transportation provider will have thirty (30) calendar days from the date of its receipt of a notice of assessment to review and verify the assessment rate and the estimated assessment amount.

If a medical transportation provider operates, conducts, or maintains more than one (1) medical transportation provider in the state, the medical transportation provider will pay the assessment for each medical transportation provider separately. However, if the medical transportation
provider operates more than one (1) medical transportation provider under one (1) Medicaid provider number, the medical transportation provider may pay the assessment for all such medical transportation providers in the aggregate.

For a medical transportation provider subject to the assessment imposed under Ark. Code Ann. § 20-77-2803 that ceases to conduct medical transportation provider operations or maintain its state license or did not conduct medical transportation provider operations throughout a state fiscal year, the assessment for the state fiscal year in which the cessation occurs will be adjusted by multiplying the annual assessment computed under Ark. Code Ann. § 20-77-2803 by a fraction, the numerator of which is the number of days during the year that the medical transportation provider operated and the denominator of which is three hundred sixty-five (365). The fraction will be expressed as a percentage rounded to two places (Example – 65.23%).

Immediately upon ceasing to operate, the medical transportation provider will pay the adjusted assessment for that state fiscal year to the extent not previously paid.

The medical transportation provider also shall receive payments under Ark. Code Ann. § 20-77-2809 for the state fiscal year in which the cessation occurs, which will be adjusted by the same fraction as its annual assessment.

A medical transportation provider subject to an assessment under the Ark. Code Ann. § 20-77-2801 et seq. that has not been previously licensed as a medical transportation provider in Arkansas and that commences medical transportation provider operations during a state fiscal year will pay the required assessment computed under Ark. Code Ann. § 20-77-2803 and will be eligible for medical transportation provider access payments under Ark Code Ann. § 20-77-2809. The assessment will be calculated based on the effective date of licensure. The assessment for the state fiscal year in which the change occurs will be adjusted by multiplying the annual assessment computed under Ark. Code Ann. § 20-77-2803 by a fraction, the numerator of which is the number of days during the year that the medical transportation provider is subject to the assessment and the denominator of which is three hundred sixty-five (365). The fraction will be expressed as a percentage rounded to two places (Example – 65.23%). The medical transportation provider also shall receive payments under Ark. Code Ann. § 20-77-2809 for the state fiscal year in which the medical transportation provider is licensed, which will be adjusted by the same fraction as its annual assessment. Access payments and assessment fees will not be reimbursed or collected until enrollment of the new provider has been approved by the Medicaid Provider Enrollment Section.

For new medical transportation providers, the Division will calculate revenue to be assessed based on the population of the county for which the medical transportation provider is licensed. The per capita amount will be assigned and calculated based on the average net operating revenue per capita for all other medical transportation providers in the State that are currently being assessed. Average revenue per capita will be used in this way through the end of the second fiscal year.

A medical transportation provider that is exempted from payment of the assessment under Ark. Code Ann. §20-77-2806 at the beginning of a state fiscal year but during the state fiscal year experiences a change in status so that it becomes subject to the assessment will pay the required assessment computed under Ark. Code Ann. § 20-77-2803 and will be eligible for medical transportation provider access payments under Ark. Code Ann. § 20-77-2809. The assessment will be calculated based on the effective date of status change as determined by the Medicaid Provider Enrollment Section. The assessment for the state fiscal year in which the change occurs will be adjusted by multiplying the annual assessment computed under Ark. Code Ann. § 20-77-2803 by a fraction, the numerator of which is the number of days during the year...
that the medical transportation provider is subject to the assessment and the denominator of which is three hundred sixty-five (365). The fraction will be expressed as a percentage rounded to two places (Example – 65.23%). The medical transportation provider also shall receive payments under Ark. Code Ann. § 20-77-2809 for the state fiscal year in which the medical transportation provider status change occurs as determined by the Medicaid Provider Enrollment Section, which will be adjusted by the same fraction as its annual assessment. Access payments and assessment fees will not be reimbursed or collected until enrollment due to the status change has been approved by the Medicaid Provider Enrollment Section.

A medical transportation provider that is subject to payment of the assessment computed under Ark. Code Ann. § 20-77-2803 at the beginning of a state fiscal year but during the state fiscal year experiences a change in status so that it is no longer subject to payment under Ark. Code Ann. § 20-77-2806 shall be relieved of its obligation to pay the medical transportation provider assessment and shall become ineligible for medical transportation provider access payments under Ark. Code Ann. §20-77-2809. The assessment for the state fiscal year in which the change occurs will be adjusted by multiplying the annual assessment computed under Ark. Code Ann. § 20-77-2803 by a fraction, the numerator of which is the number of days during the year that the medical transportation provider was subject to the assessment and the denominator of which is three hundred sixty-five (365). The fraction will be expressed as a percentage rounded to two places (Example – 65.23%). Immediately upon changing status, the medical transportation provider will pay the adjusted assessment for that state fiscal year to the extent not previously paid. The medical transportation provider also shall receive payments under Ark. Code Ann. § 20-77-2809 for the state fiscal year in which the status change occurs. The amount payable will be adjusted by the same fraction as its annual assessment.

**FEE BILLING AND COLLECTION**

The annual assessment imposed under Ark Code Ann. § 20-77-2803 is due and payable quarterly. However, an installment payment of an assessment imposed by Ark. Code Ann. § 20-77-2803 will not be due and payable until:

(A) The Division issues the written notice required by Ark. Code Ann. § 20-77-2808(a) stating that the payment methodologies to medical transportation providers required under Ark. Code Ann. § 20-77-2809 have been approved by the Centers for Medicare and Medicaid Services and the waiver under 42 C.F.R. § 433.68 for the assessment imposed by Ark. Code Ann. § 20-77-2803, if necessary, has been granted by the Centers for Medicare and Medicaid Services;

(B) The Division receives all needed information, or the thirty-day verification period required by § 20-77-2808(b) has expired, whichever is later; and

(C) The Division has made all quarterly installments of medical transportation provider access payments that were otherwise due under Ark. Code Ann. § 20-77-2809 consistent with the effective date of the approved state plan amendment and waiver.

After the initial installment has been paid under this section, each subsequent quarterly installment payment of an assessment imposed by Ark. Code Ann. § 20-77-2803 will be due and payable within ten (10) business days after the medical transportation provider has received its medical transportation provider access payments due under Ark. Code Ann. § 20-77-2809 for the applicable quarter by Accounts Receivable.
Failure of any medical transportation provider to provide required reports or pay fees on a timely basis may result in the withholding of Medicaid reimbursement, letters of caution, sanctions, or penalty assessment. Penalty assessments are detailed in the Sanctions Section identified below. The penalty assessment and outstanding medical transportation provider assessment fee shall accrue interest at the maximum rate permitted by law from the date the assessment fee is due until payment of the assessment fee and the penalty assessment.

Accounts Receivable will initiate the collection process on the 1st of the month following the due date for payments not received or postmarked by close of business on the 10th day following the notice of assessment due. An outstanding accounts report will be forwarded to the Division for determination of further action.

ADMINISTRATION OF FEES

Fees assessed and collected, and sanctions and interest imposed and collected, will be deposited in a designated account known as the Medical Transportation Assessment Account within the Arkansas Medicaid Program Trust Fund as established under Ark. Code Ann. §20-77-2805.

SANCTIONS

The Division will sanction medical transportation providers that fail to comply with Ark Code Ann. §20-77-2801 et seq., these rules, or both. If a medical transportation provider fails to timely pay the full amount of a quarterly assessment, the Division shall add to the assessment:

(A) A penalty assessment equal to five percent (5%) of the quarterly amount not paid on or before the due date; and

(B) An additional five percent (5%) penalty assessment on any unpaid quarterly and unpaid penalty assessment amounts remaining on the last day of each quarter after the due date until the assessed amount and the penalties are paid in full.

Payments will be credited first to unpaid quarterly amounts, rather than to penalty or interest amounts, beginning with the most delinquent installment.

Any fee or penalty assessment imposed under these rules, as authorized by the Ark. Code Ann. § 20-77-2801 et seq., shall accrue interest at the maximum rate permitted by law from the date the fee or penalty assessment is imposed until the medical transportation provider pays the fee or penalty assessment.

For the purposes of these rules, “postmarked” will mean dated for delivery to the Division and submitted to the appropriate carrier by whatever means designated by the Division, including electronic or other means.

Recoupment Provisions

The Division may withhold from a medical transportation provider’s vendor payment any
amount owed the Medicaid program as a result of an imposed penalty assessment for non-compliance as detailed above, or any assessment fee not paid by the due date. For purposes of this paragraph, a penalty assessment is considered imposed once the Division notifies the medical transportation provider of the penalty assessment and the medical transportation provider has an opportunity to appeal the penalty assessment.

Emergency medical transportation access payments.

To preserve and improve access to medical transportation services, for medical transportation services rendered on or after April 1, 2020, the Division shall make emergency medical transportation access payments as set forth in this section. These access payments are considered supplemental payments and do not replace any currently authorized Medicaid payments for medical transportation services.

Eligibility: Medical transportation providers eligible to receive emergency medical transportation access payments are those medical transportation providers:

(A) Subject to the assessment imposed under Ark. Code Ann. § 20-77-2803; and

(B) That apply to receive the emergency medical transportation access payments as provided herein.

Application:

(A) Not less than one-hundred eighty (180) days prior to the beginning of each state fiscal year, the Division will send to all qualified licensed medical transportation providers an application for emergency medical transportation access payments. The application will:

a. Allow the medical transportation provider to submit all information needed to calculate that medical transportation provider’s average commercial rate;

b. Provide that the application must be received by the Division on a date certain which will be no less than one hundred twenty (120) days prior to the beginning of the state fiscal year;

c. Explain that, unless exempt from payment by law, the medical transportation provider will be required to pay the medical transportation provider assessment even if it fails to apply for the emergency medical transportation access payments; if it fails to supply the Revenue Survey the assessment will be calculated based on the state average assessment for that year; and

d. Explain that the medical transportation provider will not be eligible to receive emergency medical transportation access payments in the next fiscal year if the application is not timely filed but will still be assessed based on the average assessment.
(B) A medical transportation provider that has previously received emergency medical transportation access payments is required to make an application for such payments and provide the Revenue Survey every year.

Calculation of Average Commercial Rate:

(A) The emergency medical transportation access payment shall be determined in a manner to bring the payments for these services up to the average commercial rate level as described herein. The average commercial rate level is defined as the average amount payable by the commercial payers for the same service.

(B) The Division shall align the paid Medicaid claims with the Medicare fees for each healthcare common procedure coding system (HCPCS) or current procedure terminology (CPT) code for the ambulance provider and calculate the Medicare payment for those claims.

(C) The Division shall calculate an overall Medicare to commercial conversion factor for each qualifying medical transportation provider that submits an emergency medical transportation access payment application by dividing the total amount of the average commercial payments for the claims by the total Medicare payments for the claims.

(D) The commercial to Medicare ratio for each provider will be re-determined every year.

Payment Methodology:

(A) The emergency medical transportation access payment to each eligible medical transportation provider shall not exceed the sum of the difference between the Medicaid payments otherwise made to these providers for the provision of emergency medical transportation services and the average amount that would have been paid at the equivalent community rate, expressed as the average commercial rate.

(B) The emergency medical transportation access payment shall be determined in a manner to bring payments for these services up to the community rate level.

(C) The specific payment methodology to be used in establishing the emergency medical transportation access payment due to each eligible medical transportation provider is as follows:

a. The Division will identify the emergency medical transportation services in the payment period for which the eligible medical transportation provider is eligible to be reimbursed.

b. The Division will calculate the reimbursement paid to the medical transportation provider for the provision of emergency medical transportation services in the payment period.

c. The Division will calculate the medical transportation provider's average commercial rate for the provider's services.

d. The Division shall calculate the medical transportation provider's upper payment limit gap by subtracting actual Medicaid services in the payment
period from the amount that would have been paid using the medical transportation provider’s average commercial rate.

e. The Division shall reimburse all eligible providers the same proportion of their upper payment limit gap, up to the lesser of:

   i. the total computable generated from the available balance in the Medical Transportation Assessment Account; or

   ii. 80 percent (80%) of the eligible medical transportation provider’s upper payment limit gap.

(D) Emergency medical transportation access payments shall be made quarterly.
MEMORANDUM

TO: Interested Persons and Providers
