In 2016, the Arkansas Department of Human Services (DHS) ended the Private Option and created Arkansas Works as an amendment to the demonstration program.

In January 2017, DHS referred all individuals enrolled in Arkansas Works to the Arkansas Department of Workforce Services (DWS). The referral allowed enrollees to voluntarily seek assistance with job training and job placement. However, from January 2017 to January 2018, only 4.7 percent of beneficiaries acted upon the referral and used the services offered by DWS. Of that number, 23 percent became employed through this process. In July 2017, DHS submitted an amendment to the waiver requiring certain able-bodied adults without dependents (ABAWD) to participate in work and community engagement (WCE) requirements. Following CMS approval in March 5, 2018, DHS began the reporting requirement on June 1, 2018.

In 2018, with the implementation of the Arkansas Works WCE requirements, Arkansas sought to begin testing whether a "stronger incentive model is more effective in encouraging participation." The approved Arkansas Works amendment required abled-bodied individuals to engage in work and community engagement activities, which included education and training. Such requirements promote the objectives of Title XIX. The waiver amendment established a WCE requirement for non-disabled, childless adults who were 19-49 years old. In 2018, the WCE requirement applied to those people ages 30-49. In 2019, the WCE requirement also applied to individuals ages 19-29. On March 27, 2019, the D.C. Federal District Court vacated the U.S. Department of Health and Human Services waiver approving the Arkansas Works WCE requirement. The legal proceedings are ongoing, and the WCE reporting requirements for Arkansas Works clients have been suspended while those proceedings continue. Oral arguments took place in Washington, D.C. on October 11, 2019. Legal proceedings are ongoing.

At the end of calendar year 2019, there were 259,518 individuals enrolled in Arkansas Works. The program continues to operate below the budget neutrality cap, which is $625.39 for each client covered by Arkansas Works in 2019.
Eligibility and Enrollment

ARKANSAS WORKS ENROLLMENT AND PREMIUM INFORMATION

There were 259,518 individuals enrolled in Arkansas Works in December 2019. Of these individuals:

- **Eighty-one percent** received Arkansas Works coverage through a qualified health plan (QHP) purchased from plans offered through the Healthcare Insurance Marketplace.
- **Eight percent** were designated as medically frail and received Medicaid services on a fee-for-service basis.
- **Eleven percent** had an interim status, which include pending a QHP or Alternative Benefit Plan designation.

**Utilization and Budget Neutrality**

**Utilization**

In 2019, the total payment for Arkansas Works clients with a paid premium was $1,494,757,036.00. Of this amount:

- $1,088,706,551.53 was paid to the issuers for premiums
- $397,384,530.76 was paid for advanced cost-sharing reductions
- $8,665,953.71 was the total amount for wrap costs, including Non-Emergency Medical Transportation (NET) and Early and Periodic Screening, Diagnostic, and Treatment (EPSDT).

In March and April of 2019, DHS paid $42,945,601.43 to private option carriers outside of regular premium and cost-share payments. These payments are not reflected below because they were made to reconcile prior years and do not affect 2019 budget neutrality.
BUDGET NEUTRALITY WORKBOOK

During this year, the payments for each client who received Arkansas Works coverage through QHPs remained below the budget neutrality cap. The table below shows the breakdown of payments for each client with a paid premium, and the table compares the total cost to the budget neutrality cap:

December 21-29, 2019: National coverage analyzed the reasoning behind WCE requirements, the results in Arkansas, and the possible effects of planned requirements in states like Idaho. (45)

OUTREACH EFFORTS

DHS and its partner, AFMC, targeted new enrollees to the Arkansas Works program between the ages of 19 and 49 to educate them about general program information, ensure their contact information was current, discuss the importance of choosing a carrier or primary care provider, and refer clients to job training and community opportunities. AFMC’s primary goals were to (1) ensure the client was aware of his or her status, (2) help answer client questions, and (3) educate the client on the reporting process for changes to his or her information. Those efforts are summarized below:

DHS has also continued targeted outreach to Arkansas Works clients in social media posts and online website content regarding the importance of preventive services, developing a relationship with their PCP, the benefits of working, contributing to their community, continuing their education, and getting assistance from the Arkansas Division of Workforce Services (DWS).

**PUBLIC FORUMS**

No public forums were done this quarter.

**LAWSUITS**

On March 27, 2019, the D.C. Federal District Court vacated the U.S. Health and Human Services waiver approving the Arkansas Works Work Requirement.

In 2019, the decision in that case remained on appeal before the D.C. Federal Circuit Appeals Court.

**KEY MILESTONES ACCOMPLISHED**

**January 1, 2019** – WCE requirements began for individuals ages 19 – 29 and individuals ages 30 – 49 with household incomes above 100% FPL.

**January 8, 2019** - Arkansas Works clients ages 19-29 who were scheduled to begin the WCE requirement in February 2019 were mailed individual notices telling them about their status.

**February 8, 2019** - Arkansas Works clients ages 19-29 who were scheduled to begin the WCE requirement in March 2019 were mailed individually tailored notices.

**February 28, 2019** – Fourth quarterly monitoring report for 2018 was submitted to CMS.

❖ **Evaluation Progress and Activities**

DHS has since procured a new vendor to evaluate the ongoing Arkansas Works program. The newly
The scope of the evaluation included an assessment of the demonstration goals of improving access, improving care and outcomes, reducing churn, and lowering costs. This was accomplished by measuring whether:

- Beneficiaries would have equal or better access to health care compared with what they would have otherwise had in the Medicaid fee-for-service system over time.
- Beneficiaries would have equal or better care and outcomes compared with what they would have otherwise had in the Medicaid fee-for-service system over time.
- Beneficiaries would have better continuity of care compared with what they would have otherwise had in the Medicaid fee-for-service system over time.
- Services provided to beneficiaries would prove to be cost effective.

**Evaluation Activities**

- Conducted seven Full Evaluation Team Meetings to:
  - Create a collaborative forum
  - Finalize contract items
  - Discuss overall expectations and requirements
  - Determine GDIT information needs
  - Plan data integrations
  - Plan survey administrations
  - Establish timeline for submissions to the Centers for Medicare & Medicaid Services (CMS)
  - Understand data/information needs from prior evaluation
  - Revise data metrics and create driver diagrams, goals, and hypotheses tables

- Conducted fourteen internal GDIT meetings to:
  - Plan and implement data integrations
  - Familiarize the team with program expectations
  - Prepare survey administrations
  - Create transition documents for CMS
  - Draft detailed evaluation plan
Review preliminary data analyses

- Conducted an introductory meeting with the Arkansas Insurance Department
- Completed transition documents for DHS review and CMS submission

Once CMS approves the transition documents, DHS/DMS and GDIT will incorporate any feedback and immediately submit the new evaluation plan.

**Evaluation Vendor Procurement**

DHS/DMS awarded the Arkansas Works Waiver Evaluation contract to a successful bidder. The awarded vendor will continue analysis of data from January 1, 2019, forward, so that there are no gaps in data gathered and analyzed in the demonstration analysis.

DHS/DMS announced on June 2019, that the contract was awarded to General Dynamics Information Technology (GDIT). GDIT began the Arkansas Works Waiver Evaluation demonstration analysis on August 1, 2019.

Arkansas Medicaid will seek a separate evaluation of the WCE requirement demonstration. The evaluation for the WCE requirement will cover the implementation efforts, outcomes and effects (short-term and long-term, tangible and intangible), and sustainability of the WCE requirements and activities as part of a lasting improvement to the social fabric and population health of all Arkansans. This WCE requirement evaluation design is in addition to the evaluation of the overall Arkansas Works program referenced above. On March 27, 2019, the D.C. Federal District Court vacated the U.S. Health and Human Services waiver approving the Arkansas Works Work Requirement. Oral arguments took place in Washington, D.C. on October 11, 2019. Legal proceedings are ongoing.

**Community Engagement Eligibility and Enrollment Monitoring**

The State of Arkansas submitted its community engagement eligibility and enrollment monitoring plan as required by special term and condition (STC) 54 of the state’s section 1115 Demonstration, Arkansas Works (Project No. 11-W-00287/6).

The monitoring plan has been incorporated in the STCs as “Attachment A.” As outlined in STC 54, the state will provide status updates on the implementation of the eligibility and enrollment monitoring plan as part of the state’s quarterly and annual monitoring reports. Attached below is the monitoring report for the first quarter of 2019. On March 27, 2019, the D.C. Federal District Court vacated the U.S. Health and Human Services waiver approving the Arkansas Works Work Requirement.
Work and Community Engagement Snapshot

Below are snapshots of the program for the WCE requirement reporting periods in January and February 2019. A monthly report for March 2019 was not produced, as the WCE requirement was suspended as legal proceedings continued. Therefore, there were no WCE outcomes to report.

Arkansas Works Program

Just over 116,200 Arkansas Works enrollees were subject to the work requirement in February. Most are already meeting the requirement through work, school, or other life situations that made them exempt from reporting each month. Numbers below are a point-in-time snapshot of the requirement and some fluctuate daily.

Arkansas Works Program

Every Medicaid program has what is known as “churn,” cases that close for various reasons. It is not uncommon for those individuals to take action and come back on a program after receiving a closure notice. The total number of Arkansas Works cases closed in February was 10,854. Of those, none (0) closed due to not meeting the requirement.

Of the enrollees whose coverage ended in 2018 due to not meeting the requirement, 1,910 have applied for and gained coverage in 2019. Of those, 1,889 are in Arkansas Works.

Arkansas Works Annual Report
Jan. 1, 2019 – Dec. 31, 2019
The Arkansas Works evaluation will assess the quality of care provided to Arkansas Works clients by analyzing whether clients have equal or better care and outcomes over time, compared with what they would have had otherwise in the Medicaid fee-for-service system. Health care and outcomes will be evaluated using the following measures:

- Use of preventive and health care services
- Experience with the care provided
- Use of emergency room services (including emergent and non-emergent use)
- Potentially preventable emergency department and hospital admissions

The Arkansas Works evaluation will also explore whether Arkansas Works clients have better continuity of care compared with what they would have otherwise had in the Medicaid fee-for-service system over time. Continuity will be evaluated using the following measures:

- Gaps in insurance coverage
- Maintenance of continuous access to the same health plans
- Maintenance of continuous access to the same providers
