Yes ☒ No ☐

If YES, the agency is required by Ark. Code Ann. § 25-15-204(e)(4) to file written findings at the time of filing the financial impact statement. The written findings shall be filed simultaneously with the financial impact statement and shall include, without limitation, the following:

(1) a statement of the rule’s basis and purpose;

A revision of the Arkansas Medicaid State Plan is necessary to increase rates for physicians’ evaluation and management services.

(2) the problem the agency seeks to address with the proposed rule, including a statement of whether a rule is required by statute;
Physicians’ Evaluation and Management rates have not been increased in over 14 years; additionally, the new minimum wage increases have caused expenses for providers to increase.

(3) a description of the factual evidence that:
   (a) justifies the agency’s need for the proposed rule; and
   (b) describes how the benefits of the rule meet the relevant statutory objectives and justify the rule’s costs;

The rate increase is based on a rate review conducted by DHS and its actuaries in the Fall of 2019.

(4) a list of less costly alternatives to the proposed rule and the reasons why the alternatives do not adequately address the problem to be solved by the proposed rule;

There are no less costly alternatives.

(5) a list of alternatives to the proposed rule that were suggested as a result of public comment and the reasons why the alternatives do not adequately address the problem to be solved by the proposed rule;

None at this time.

(6) a statement of whether existing rules have created or contributed to the problem the agency seeks to address with the proposed rule and, if existing rules have created or contributed to the problem, an explanation of why amendment or repeal of the rule creating or contributing to the problem is not a sufficient response; and

None

(7) an agency plan for review of the rule no less than every ten (10) years to determine whether, based upon the evidence, there remains a need for the rule including, without limitation, whether:
   (a) the rule is achieving the statutory objectives;
   (b) the benefits of the rule continue to justify its costs; and
   (c) the rule can be amended or repealed to reduce costs while continuing to achieve the statutory objectives.

Rates for Physicians’ services will be reviewed periodically.
5. Physician Services (Continued)

F. For dates of service beginning January 1, 2021, the maximum reimbursement rate for evaluation and management codes are increased by 3 percent of the 7/1/2020 fee-for-service rate for each of these codes. Except as otherwise noted in the plan, state-developed fee schedule rates are the same for both governmental and private providers of evaluation and management services. The agency’s fee schedule rate was set as of January 1, 2021 and is effective for services provided on or after that date. All rates are published on the agency’s website, (http://medicaid.mmis.arkansas.gov/).

Effective for dates of service on or after July 1, 2020, the immunization administration fee for influenza will be based on the 2020 Medicare flu vaccine administration fee. All other immunization administration fees will be based on Medicare’s 2020 physician fee schedule for the State of Arkansas. The rate is paid to all governmental and non-governmental providers, unless otherwise specified in the state plan. All rates are published at the agency’s website, (http://medicaid.mmis.arkansas.gov/).
